IMPORTANT: If you are in any doubt about the contents of this Explanatory Memorandum, you should seek independent professional financial advice.

This Explanatory Memorandum comprises information relating to Schroder Umbrella Fund II (the "Fund"), an umbrella unit trust established under the laws of Hong Kong by a trust deed dated 8 October 2010, as amended from time to time, (the "Trust Deed") between Schroder Investment Management (Hong Kong) Limited as manager (the "Manager") and HSBC Institutional Trust Services (Asia) Limited as trustee (the "Trustee"). The Fund may establish sub-funds (each a sub-fund) in respect of which a separate class of units ("Units") will be issued. This Explanatory Memorandum has been prepared in connection with the offer of Units in Schroder China Asset Income Fund (the "Sub-Fund"), a sub-fund of the Fund.

In particular, nationals or residents of, or persons domiciled in, countries other than Hong Kong should consult their financial advisers and take legal advice as appropriate as to whether any governmental or other consents are required, or other formalities need to be observed, to enable them to acquire Units and as to any taxation effects, foreign exchange restrictions or exchange control requirements applicable.

No action has been taken to permit an offering of Units of the Sub-Fund or distribution of this Explanatory Memorandum in any jurisdiction other than Hong Kong, where action would be required for such purposes. Accordingly, this Explanatory Memorandum may not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is not authorized. Further, Units of the Sub-Fund may not be offered or sold, directly or indirectly, to any persons for reoffering or resale, in any jurisdiction where such action is not authorized.

Receipt of this Explanatory Memorandum does not constitute an offer of Units of the Sub-Fund in those jurisdictions in which it is illegal to make such an offer.

Units of the Sub-Fund have not been and will not be registered under the United States Investment Company Act of 1940 as amended (the "Investment Company Act"). The Units have not been and will not be registered under the United States Securities Act of 1933 as amended (the "Securities Act") or under the securities laws of any state of the US and such Units may be offered, sold or otherwise transferred only in compliance with the Securities Act and such state or other securities laws. The Units may not be offered or sold within the US or to or for the account of any US Person. For these purposes, "US Person" is as defined in Rule 902 of Regulation S under the Securities Act or the Internal Revenue Code of 1986, as amended including to reflect the provisions of FATCA (the "IR Code").

Rule 902 of Regulation S under the Securities Act defines "US Person" to include inter alia any natural person resident of the United States and with regards to Investors other than individuals, (i) a corporation or partnership organised or incorporated under the laws of the US or any state thereof; (ii) a trust: (a) of which any trustee is a US Person except if such trustee is a professional fiduciary and a co-trustee who is not a US Person has sole or shared investment discretion with regard to trust assets and no beneficiary of the trust (and no settlor if the trust is revocable) is a US Person or (b) where a court is able to exercise primary jurisdiction over the trust and one or more US fiduciaries have the authority to control all substantial decisions of the trust and (iii) an estate (a) which is subject to US tax on its worldwide income from all sources; or (b) for which any US Person is executor or administrator except if an executor or administrator of the estate who is not a US Person has sole or shared investment discretion with regard to the assets of the estate and the estate is governed by foreign law.

The term "US Person" also means any entity organised principally for passive investment (such as a commodity pool, investment company or other similar entity) that was formed: (a) for the purpose of facilitating investment by a US Person in a commodity pool with respect to which the operator is exempt from certain requirements of Part 4 of the regulations promulgated by the United States Commodity Futures Trading Commission by virtue of its participants being non-US Persons or (b) by US Persons principally for the purpose of investing in securities not registered under the Securities Act, unless it is formed and owned by "accredited investors" (as defined in Rule 501 (a) under the Securities Act) who are not natural persons, estates or trusts.

Pursuant to the IR Code, the term "US Person" means (i) a citizen or resident of the US, (ii) a partnership or other entity treated as a partnership for US federal income tax organized under the laws of the US or any political subdivision thereof, (iii) a corporation or other entity treated as a corporation for US federal income tax purposes organized under the laws of the US or any political subdivision thereof, (iv) an estate the income of which is subject to US federal income tax without regard to its source or (v) a trust, if, either (a) a court within the US is able to exercise primary supervision over the administration of the trust and one or more US persons have the authority to control all substantial decisions of the trust, or (b) the trust was in existence on August 20, 1996 and properly elected to be treated as a US person.

Neither the Fund nor any of its sub-funds are authorized under the United Kingdom Financial Services and Markets Act 2000 (the "FSMA") in the United Kingdom and accordingly this Explanatory Memorandum must not be distributed in the United Kingdom other than to certain categories of persons as specified in regulations made under the FSMA. Such categories include certain persons with sufficient expertise such as authorized persons, who understand the risks involved.

Distribution of this Explanatory Memorandum in Hong Kong must be accompanied by the Product Key Facts Statements of the Sub-Fund, a copy of the latest available annual report and accounts of the Sub-Fund (if any), any subsequent interim report. Units issued after the date of this Explanatory Memorandum are offered on the basis only of the information contained in this Explanatory Memorandum and such additional document(s), if any, as may be issued by the Manager expressly in conjunction with the issue of this Explanatory Memorandum. Any further information or representations made by any dealer, salesman or other person must be regarded as unauthorized and must accordingly not be relied upon. The delivery of this Explanatory Memorandum or the other documents mentioned above or the offer, issue or sale of the Units shall not in any way constitute a representation that the information and representations given herein or in such documents are correct as at any time subsequent to the date of this Explanatory Memorandum or such documents.

The Fund and the Sub-Fund have been authorized by the Securities and Futures Commission in Hong Kong (the "SFC"). The SFC authorization is not a recommendation or endorsement of the Sub-Fund nor does it guarantee the commercial merits of the Sub-Fund or its performance. It does not mean the Sub-Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

The Manager accepts full responsibility for the accuracy, as at the date of this Explanatory Memorandum, of the information contained in this Explanatory Memorandum and confirm, having made all reasonable enquiries, that to the best of our knowledge and belief there are no other facts the omission of which make any statement misleading.

Enquiries and Complaints

Enquiries and complaints concerning the Sub-Fund (including information concerning subscription and redemption procedures and the current net asset value of the Sub-Fund) should be directed to the Manager at Level 33, Two Pacific Place, 88 Queensway, Hong Kong or by electronic mail at schroders@schroders.com.hk or by phone at +852 2869 6968.

INTRODUCTION Schroder Umbrella Fund II (the “Fund”) is an umbrella fund established in Hong Kong. This Explanatory Memorandum relates to the establishment of a new sub-fund, namely Schroder China Asset Income Fund (the “Sub-Fund”). The Manager may create further sub-funds in future. The Manager may also determine to offer different classes of Units within a sub-fund pursuant to the provisions of the Trust Deed.

INVESTMENT OBJECTIVE & POLICY The Sub-Fund’s objective is to provide income and capital growth by investing primarily in Chinese equity and fixed income securities.

The Sub-Fund will seek to achieve the investment objective primarily (i.e. at least 70% of its net asset value) through investment in a portfolio of (a) equities and equity related securities of China and China related companies; and (b) bonds, convertible bonds and other fixed or floating rate securities issued by China and China related companies and governments, government agencies and supra-national issuers in mainland China. China and China related companies refer to companies which are headquartered and/or listed in or have a substantial business exposure to mainland China.

The Sub-Fund may gain direct exposure to Chinese equity and fixed income securities through for example China A-shares, China B-shares, China H-shares and Chinese fixed income securities distributed outside of mainland China. The Sub-Fund may also gain indirect exposure to Chinese equity and fixed income securities (including Chinese fixed income securities distributed in mainland China) through for example China market access products, investment funds and exchange traded funds (“ETFs”).

The Sub-Fund’s indirect exposure to Chinese fixed income securities distributed in mainland China will be less than 30% of its net asset value.

The Sub-Fund does not have explicit restrictions on the minimum credit ratings of fixed income securities it may hold. The Sub-Fund will invest in fixed income securities with a credit rating below investment grade (i.e. rated below BBB- by any internationally recognised credit rating agency, such as Standard & Poor’s, Moody’s or Fitch; whenever different ratings are assigned by different credit rating agencies, the lowest credit ratings assigned to the security will be adopted by the Sub-Fund) or unrated fixed income securities at the time of acquisition. For this purpose, if the relevant security does not itself have a credit rating, then reference can be made to the credit rating of the issuer of the security. If both the security and the relevant issuer are not rated, then the security will be classified as unrated.

The Sub-Fund’s direct and indirect exposure to China A-shares and China B-shares will be less than 50% of its net asset value. However, the Sub-Fund may invest no more than 10% of its net asset value indirectly in China A-shares through financial instruments such as China market access products. The Sub-Fund may invest up to 20% of its net asset value directly in China A-shares through Shanghai-Hong Kong Stock Connect (“Stock Connect”). The Stock Connect is a securities trading and clearing links programme with an aim to achieve mutual stock market access between mainland China and Hong Kong. The Shanghai Stock Exchange (“SSE”) listed China A-shares eligible for trading by Hong Kong and overseas investors under the Stock Connect include all the constituent stocks from time to time of the SSE 180 Index and SSE 380 Index, and all the SSE-listed China A-shares that are not included as constituent stocks of the relevant indices but which have corresponding H-shares listed on The Stock Exchange of Hong Kong Limited (“SEHK”), except the following:

- (a) SSE-listed shares which are not traded in RMB; and
- (b) SSE-listed shares which are included in the “risk alert board”.

The Manager does not intend to invest the Sub-Fund directly in the mainland China securities markets through Qualified Foreign Institutional Investment (QFII) quota or Renminbi Qualified Foreign Institutional Investment (RQFII) quota.

The Sub-Fund may, if the Manager considers fit, seek exposure of not more than 20% of its net asset value to other asset classes including but not limited to non-Chinese securities, commodities (including energy, metals and agricultural commodities) indirectly through investment funds, ETFs, real estate investment trusts (“REITs”) and/or similar instruments. The REITs invested in by the Sub-Fund may not necessarily be authorized by the SFC and the distribution policy of the Sub-Fund may not reflect the dividend policy of the underlying REITs.

The Sub-Fund may hold more than 10% of its assets in cash as a separate asset class for defensive purpose.

The Sub-Fund will actively allocate between Chinese equities, Chinese fixed income securities, other asset classes and cash to achieve the Sub-Fund’s objectives. The Sub-Fund will use a cyclical approach to asset allocation where the asset mix will be adjusted according to the four phases of the economic cycle – recovery, expansion, slowdown and recession – based on a combination of fundamental and quantitative factors such as asset class valuation, macroeconomic data and liquidity. Cash will be treated as a separate asset class and will be deployed if necessary to limit downside risk during adverse market conditions. The Sub-Fund’s expected asset allocation ranges for each asset class is expected to be the following as at the date of this Explanatory Memorandum:

Asset allocation ranges:
Chinese equities: 30-70%
Chinese fixed income: 30-70%
Other asset classes: 0-20%
Cash: 0-30%

In addition to active asset allocation, the Sub-Fund will also perform active security selection for its investments in Chinese equities, Chinese fixed income and other asset classes. For the Chinese equity portfolio, the Sub-Fund intends to focus on companies that are able to create true shareholder value and capital growth over the medium to long term. For the Chinese fixed income portfolio, the Sub-Fund intends to select securities balancing between yield and capital growth taking into account both fundamental and technical views such as valuation, demand/supply conditions and liquidity.

The Sub-Fund may have substantial Renminbi (“RMB”) denominated underlying investments.

The Manager will also manage the Sub-Fund taking into account the distribution policy of the Sub-Fund. Please refer to the section headed "DISTRIBUTION" for details.

The Sub-Fund is denominated in Hong Kong dollar.

The Manager may, with prior consent of the Trustee and subject to the SFC's approval, change the investment objective of the Sub-Fund upon giving unitholders of the Sub-Fund one (1) month's prior written notice.

INVESTMENT AND BORROWING RESTRICTIONS The Trust Deed establishing the Sub-Fund sets out restrictions on the acquisition of investments (other than unrestricted investments, see below) by the Manager for the Sub-Fund. A summary of restrictions applicable to the Sub-Fund is set out below:

The Sub-Fund is subject to the following principal investment restrictions:

- (a) not more than 10% of the net asset value of the Sub-Fund may consist of securities (other than Government and other public securities) issued by a single issuer;
- (b) the Sub-Fund together with other sub-funds of the Fund (if any) may not, in aggregate, hold more than 10% of any ordinary shares (other than Government and other public securities) issued by any single issuer;
- (c) not more than 15% of the net asset value of the Sub-Fund may consist of securities of any company not listed, quoted or dealt in on a stock exchange, over-the-counter market or other organized securities market that is open to the international public and on which such securities are regularly traded;
- (d) not more than 15% of the net asset value of the Sub-Fund may consist of warrants and options in terms of the total amount of premium paid, other than warrants and options held for hedging purposes;
- (e) not more than 10% of the net asset value of the Sub-Fund may consist of shares or units in other collective investment schemes ("managed funds") which are non-recognized jurisdiction schemes (as defined under the Code on Unit Trusts and Mutual Funds, or the "Code") and not authorized by the SFC; or unless the managed funds are SFC authorized schemes, and the name and key investment information of the managed funds are disclosed in this Explanatory Memorandum, not more than 30% of the net asset value of the Sub-Fund may consist of shares or units in a managed fund which is a recognized jurisdiction scheme (as defined under the Code) or an SFC-authorized scheme; provided that:
 - (i) no investment may be made in any managed fund which invests primarily in investments prohibited by the SFC for the purposes of investment by funds authorized by the SFC; and
 - (ii) where the managed fund's objective is to invest primarily in investment restricted by the SFC, such holdings may not be in contravention of the relevant limitation; and
 - (iii) all initial charges on the managed fund must be waived if the managed fund is managed by the Manager or any of its connected persons; and
 - (iv) the Manager may not obtain a rebate on any fees or charges levied by such managed fund or its manager;
- (f) the net total aggregate value of the contract prices, whether payable to or by the Sub-Fund under all outstanding futures contracts (other than futures contracts entered into for hedging purposes), together with the aggregate value of physical commodities (including gold, silver, platinum or other bullion) and commodity based investments (other than shares in companies engaged in producing, processing or trading in commodities) held by the Sub-Fund, may not exceed 20% of the net asset value of the Sub-Fund;
- (g) not more than 30% of the net asset value of the Sub-Fund may consist of Government and other public securities of a single issue; and
- (h) subject to paragraph (g) above, the Sub-Fund may be fully invested in Government and other public securities issued by a single issuer provided that it holds Government and other public securities of at least six different issues.

The Manager shall not on behalf of the Sub-Fund:

- (i) invest in a security of any class in any company or body if directors and officers of the Manager individually own more than 0.5% of the total nominal amount of all the issued securities of that class or collectively own more than 5% of those securities;
- (ii) invest in any type of real estate (including buildings) or interests in real estate (including options or rights but excluding shares in real estate companies and interests in real estate investment trusts (REITs));
- (iii) make short sales if as a consequence the liability of the Sub-Fund to deliver securities would exceed 10% of the net asset value of the Sub-Fund (and for this purpose securities sold short must be actively traded on a market where short selling is permitted);
- (iv) write uncovered options;
- (v) write call options if the aggregate of the exercise prices of all such call options written on behalf of the Sub-Fund would exceed 25% of the net asset value of the Sub-Fund;
- (vi) make a loan out of the Sub-Fund without the prior written consent of the Trustee except to the extent that the acquisition of an investment or the making of a deposit might constitute a loan;

- (vii) assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person without the prior written consent of the Trustee;
- (viii) enter into any obligation on behalf of the Sub-Fund or acquire any asset for the account of the Sub-Fund which involves the assumption of any liability which is unlimited; or
- (ix) apply any part of the Sub-Fund in the acquisition of any investments which are for the time being nil paid or partly paid in respect of which a call is to be made for any sum unpaid on the investments unless such call could be met in full out of cash or near cash forming part of the Sub-Fund which has not been taken into account for the purpose of paragraph (v) above and shall not be entitled without the consent of the Trustee to apply any part of the Sub-Fund in the acquisition of any other investment which is in the opinion of the Trustee likely to involve the Trustee in any liability (contingent or otherwise).

The Manager may borrow up to 25% of the latest available net asset value of the Sub-Fund. For the purposes of this restriction, back-to-back loans do not count as borrowing. The Trustee shall be entitled with the concurrence of the Manager to charge or pledge in any manner all or any part of the Sub-Fund for the purposes of securing any borrowing and interest and expenses thereof.

In the event that any of the above restriction is breached, the Manager shall as a priority objective take all steps as may be necessary to remedy such breach within a reasonable period of time, taking due account of the interests of unitholders.

For the purpose of this section, "Government and other public securities" means any investment issued by, or the payment of principal and interest on, which is guaranteed by the government of any member state of the Organization for Economic Co-operation and Development ("OECD") or any fixed investment issued in any OECD country by a public or local authority or nationalized industry of any OECD country or anywhere in the world by the International Bank for Reconstruction and Development, European Investment Bank, Asian Development Bank or any other body which is, in the opinion of the Trustee, of similar standing.

SECURITIES LENDING It is not the Manager's current intention to engage in securities lending, repurchase, reverse repurchase or similar over-the-counter transactions in respect of the Sub-Fund.

RISK FACTORS

General risks

- The prices of Units depend on the market values of the Sub-Fund's investments and such prices as well as the income from Units can go down as well as up. Past performance of the Sub-Fund does not indicate the future performance. Investment in the Sub-Fund is not capital guaranteed and is only suitable for investors who can leave their capital for medium to long-term investment and are prepared for medium to high levels of risk.
- The Sub-Fund's performance is subject to the risks associated with its investments and cash exposure including, among others, market, interest rate, currency, exchange rate, economic, credit, liquidity, counterparty, foreign securities and political risks.
- Investment objective expresses an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and macroeconomic environment, investment objective may become more difficult or even impossible to achieve. There is no express or implied assurance as to the likelihood of achieving the investment objective of the Sub-Fund.
- Investment in the Sub-Fund is not in the nature of a deposit in a bank account and is not protected by any government, government agency or other guarantee scheme which may be available to protect the holder of a bank deposit account.
- Each type of security and market bears certain kinds of risks that may or may not be unique to the type of security and market. There is no assurance that the risks involved in different types of securities and markets are uncorrelated or independent and that diversification of requirements will remove risks.

Market risk

- Investors should be aware that the value of securities in which the Sub-Fund invests, and the return derived from it can fluctuate. The Sub-Fund invests in and actively trades securities utilizing strategies and investment techniques with significant risk characteristics, including risks arising from the volatility of the securities. Prices of investments may be volatile, and a variety of factors that are inherently difficult to predict, such as actions by various governmental agencies and domestic or international economic and political developments, may cause sharp market fluctuations, which could significantly and adversely affect the results of the Sub-Fund and hence the Sub-Fund's activities and the value of its investments. In addition, the value of the Sub-Fund's portfolio may fluctuate as the general level of interest rates fluctuates.

Risk relating to asset allocation strategy

- The performance of the Sub-Fund is partially dependent on the success of the asset allocation strategy employed by the Sub-Fund. There is no assurance that strategy employed by the Sub-Fund will be successful and therefore the investment objective of the Sub-Fund may not be achieved. The investments of the Sub-Fund may be periodically rebalanced and therefore the Sub-Fund may incur greater transaction costs than a fund with static allocation strategy.

Mainland China market risk

- Investing in the mainland China market is subject to the risks of investing in emerging markets generally and the risks specific to the mainland China market. In addition, the Sub-Fund may obtain exposure to equity securities and fixed income securities issued in mainland China through its investment in other investment funds, and hence the Sub-Fund may be subject to additional risks associated with securities issued in mainland China including risks of nationalisation or expropriation of assets, government control and intervention, regulatory risk, legal risk and accounting risk, settlement risk and the risks listed below.

- Since 1978, the mainland China government has implemented economic reform measures which emphasise decentralisation and the utilisation of market forces in the development of the economy of mainland China, moving from the previous planned economy system. However, many of the economic measures are experimental or unprecedented and may be subject to adjustment and modification. Any significant change in mainland China's political, social or economic policies may have a negative impact on investments in the mainland China market.
- The regulatory and legal framework for capital markets and joint stock companies in mainland China may not be as well developed as those of developed countries. Mainland China companies are required to follow the mainland China accounting standards and practice which, to a certain extent, follow international accounting standards. However, the mainland China accounting standards and practices may deviate significantly from international accounting standards. The settlement and clearing systems of the mainland China securities markets may not be well tested and may be subject to increased risks of error or inefficiency. Securities exchanges in mainland China typically have the right to suspend or limit trading in any security traded on the relevant exchange. The government or the regulators may also implement policies that may affect the financial markets. All these may have a negative impact on the Sub-Fund.
- Investments in mainland China will be sensitive to any significant change in political, social or economic policy in mainland China. Such sensitivity may, for the reasons specified above, adversely affect the capital growth and thus the performance of these investments.
- Compared with the choice available in other markets, there is a low level of liquidity in the mainland China markets. This could potentially lead to severe price volatility.
- The mainland China government's control of currency conversion and movements in the Renminbi exchange rates may adversely affect the operations and financial results of companies in mainland China. Insofar as the Sub-Fund's assets are invested in mainland China, it will be subject to the risk of the mainland China government's imposition of restrictions on the repatriation of funds or other assets out of the country, limiting the ability of the Sub-Fund to satisfy payments to investors.
- Various tax reform policies have been implemented by the mainland China government in recent years, and existing tax laws and regulations may be revised or amended in the future. There is a possibility that the current tax laws, regulations and practice in mainland China will be changed with retrospective effect in the future and any such change may have an adverse effect on the asset value of the Sub-Fund. Moreover, there is no assurance that tax incentives currently offered to foreign companies, if any, will not be abolished and the existing tax laws and regulations will not be revised or amended in the future. Any changes in tax policies may reduce the after-tax profits of the companies in mainland China which the Sub-Fund invests in, thereby reducing the income from, and/or value of the Units.
- Investors should also be aware that changes in mainland China taxation legislation could affect the amount of income which may be derived, and the amount of capital returned, from the investments of the Sub-Fund. Laws governing taxation will continue to change and may contain conflicts and ambiguities.
- The investment funds in which the Sub-Fund invests may be subject to withholding and other taxes imposed in mainland China in respect of their investment in onshore securities. The interpretation and applicability of the tax law and regulations by the mainland China tax authorities are not as consistent and transparent as those of more developed countries and may vary from region to region. The value of such investment funds' investment in mainland China and the amount of their respective income and gains could also be adversely affected by an increase in rates of taxation or changes in the basis of taxation. Redemption proceeds or distributions may be paid to unitholders of such investment funds without taking full account of tax that may be suffered by such investment funds, which tax will subsequently be borne by such investment funds and affect the net asset value of such investment funds and the remaining units in such investment funds. This ultimately may have impact on the value of the Sub-Fund's investment in such investment funds.

Concentration risk

- The Sub-Fund will invest substantially in Chinese equities and Chinese fixed income securities. Although it is intended that the Sub-Fund will be well diversified in terms of the number of holdings and the number of issuers that the Sub-Fund may invest in, the Sub-Fund is subject to concentration risk. Investors should be aware that the Sub-Fund is likely to be more volatile than a broad-based fund, such as a global or regional equity fund, as the Sub-Fund is more susceptible to fluctuations in value resulting from adverse conditions in mainland China.

Equity investment risk

- The Sub-Fund may invest in equity securities and is thus, subject to the risks generally associated with equity investment, namely, the market value of the stocks may go down as well as up. Factors affecting the stock values are numerous, including but not limited to changes in investment sentiment, political environment, economic environment, issuer-specific factors, regional or global economic instability, currency and interest rate fluctuations. If the market value of the stocks go down the net asset value of the Sub-Fund may be adversely affected. Stock exchanges typically have the right to suspend or limit trading in any security traded on the relevant exchange; a suspension will render it impossible to liquidate positions and can thereby expose the Sub-Fund to losses.

Currency and exchange risk

- Investments acquired by the Sub-Fund may be denominated in a wide range of currencies different from the base currency of the Sub-Fund. Also a Class of Units may also be denominated in a currency other than the base currency of the Sub-Fund. The net asset value of the Sub-Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
- Where the currency of the Sub-Fund varies from the investor's home currency, or where the currency of the Sub-Fund or a Class of Units varies from the currencies of the markets in which the Sub-Fund invests, there is the prospect of an additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment.

Risks relating to hedging and the Hedged Classes

- The Manager is permitted, but not obligated, to use hedging techniques to attempt to hedge the currencies in which the underlying assets of the Sub-Fund are denominated against the Sub-Fund's base currency. There is no guarantee that the desired hedging instruments will be available or hedging techniques will achieve their desired result. The Sub-Fund may suffer significant losses in adverse situation. If the counterparties of the instruments used for hedging purposes default, unitholders of the Hedged Classes may be exposed to currency exchange risk on an unhedged basis and may therefore suffer further losses. There can be no assurance that any currency hedging strategy employed by the Manager will fully and effectively eliminate the currency exposure of the Sub-Fund and unitholders of the Hedged Classes may be exposed to currency exchange risk for non-hedged Classes. Please refer to the risk factor headed "Currency and exchange risk" above for details.
- Each of the Hedged Classes of Units (as defined below) will hedge the Sub-Fund's base currency back to its currency of denomination, on a best effort basis, with an aim to align the performance of the Hedged Class (as defined below) to that of the equivalent Class denominated in the Sub-Fund's base currency. The effects of hedging will be reflected in the net asset values of the Hedged Classes (as defined below). Similarly, any expenses arising from such hedging transactions, which may be significant depending on prevailing market conditions, will be borne by the relevant Hedged Classes (as defined below) in relation to which they have been incurred. There is no assurance that the hedging strategies employed will be effective in delivering performance differentials that are reflective only of interest rate differences adjusted for costs and fees. There can be no assurance that any hedging strategy employed by the Manager will fully and effectively achieve a positive desirable effect and result. Furthermore, the volatility of the Hedged Classes measured in the Sub-Fund's base currency may be higher than that of the equivalent Class denominated in the Sub-Fund's base currency.
- If the Manager hedges the Sub-Fund's base currency against the currencies in which the underlying assets of the Sub-Fund are denominated currency exposures or currency hedging transactions within the Sub-Fund's portfolio will not be considered when hedging transactions are entered into for the Hedged Classes.
- It should also be noted that hedging transactions may be entered into whether the denominated currency of the Hedged Class (as defined below) is declining or increasing in value relative to the Sub-Fund's base currency and so, where such hedging is undertaken it may protect unitholders in the Hedged Class against a decrease in the value of the Sub-Fund's base currency relative to the denominated currency of the Hedged Class, but it may also preclude unitholders from benefiting from an increase in the value of the Sub-Fund's base currency.

Renminbi ("RMB") Currency Risk

- RMB has moved to a managed floating exchange rate based on market supply and demand with reference to a basket of foreign currencies. The daily trading price of the RMB against other major currencies in the inter-bank foreign exchange market is allowed to float within a narrow band around the central parity published by mainland China.
- RMB is currently not freely convertible and RMB convertibility from offshore RMB (CNH) to onshore RMB (CNY) is a managed currency process subject to foreign exchange control policies of and restrictions imposed by the mainland China government.
- There can be no assurance that RMB will not be subject to depreciation. Any depreciation of RMB could adversely affect the value of investor's investment in the Sub-Fund.
- Classes denominated in RMB will be valued with reference to offshore RMB (CNH) rather than onshore RMB (CNY). While offshore RMB (CNH) and onshore RMB (CNY) represent the same currency, they are traded in different and separate markets which operate independently. The value of offshore RMB (CNH) could differ, perhaps significantly, from that of onshore RMB (CNY) due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions. As such offshore RMB (CNH) does not necessarily have the same exchange rate and may not move in the same direction as onshore RMB (CNY).
- Classes denominated in RMB, both hedged and unhedged, participate in the offshore RMB (CNH) market, which allows investors to freely transact offshore RMB (CNH) outside of mainland China subject to the availability and clearing liquidity of offshore RMB (CNH). Non-RMB based investors (e.g. Hong Kong investors) in Classes denominated in RMB may have to convert HK dollar or other currency(ies) into RMB when investing in Classes denominated in RMB and subsequently convert the RMB redemption proceeds and/or dividend payment (if any) back to HK dollar or such other currency(ies). Investors will incur currency conversion costs and you may suffer losses depending on the exchange rate movements of RMB relative to HK dollar or such other currencies.
- Even if the Sub-Fund aims at paying redemption monies and/or distributions of RMB denominated Classes in RMB, the Manager may, under extreme market conditions when there is not sufficient RMB for currency conversion and with the approval of the Trustee, pay redemption monies and/or distributions in HK dollar. There is also a risk that payment of redemption monies and/or distributions in RMB may be delayed when there is not sufficient amount of RMB for currency conversion for settlement of the redemption monies and distributions in a timely manner due to the exchange controls and restrictions applicable to RMB. In any event, redemption monies will be paid within one calendar month upon receipt of all properly completed documentation.

Risks relating to China A-shares and China B-shares

- The mainland China markets on which China A-shares and China B-shares are traded have in the past experienced substantial price volatility and there can be no assurance that such volatility will not occur in the future. These markets may be more volatile and unstable (for example, due to the risk of suspension of a particular stock or government intervention) than markets in more developed countries. Market volatility and potential lack of liquidity (for example, low liquidity in respect of China B-shares due to low trading volume) may result in prices of securities traded on the mainland China markets to fluctuate significantly. As a result, the net asset value of the Sub-Fund may be adversely affected.

Risks relating to investment grade, below investment grade and unrated debt securities

- "Investment grade" debt securities generally have a high capacity to pay interest and repay principal when compared to lower-rated bonds and notes. However, there are no assurances that losses will not occur with respect to these investments. The principal factors that may affect the value of the Sub-Fund's holdings in debt securities include: (i) changes in interest rates, (ii) the credit worthiness of the issuers of securities held by the Sub-Fund, (iii) unanticipated prepayment, and (iv) the decline of the relevant bond market.

- The Sub-Fund may invest in securities which are below investment grade. Such securities are considered to have a higher risk exposure than securities which are investment grade with respect to payment of interest and the return of principal. Low rated debt securities generally offer a higher current yield than higher grade issues. However, low rated debt securities involve higher risks and are more sensitive to adverse changes in general economic conditions and in the industries in which the issuers are engaged, as well as to changes in the financial condition of the issuers and changes in interest rates. Additionally, the market for lower rated debt securities generally is less active than that for higher quality securities and the Sub-Fund's ability to liquidate its holdings in response to changes in the economy or the financial markets may be further limited by such factors as adverse publicity and investor perceptions.
- The Sub-Fund may invest in securities which are unrated. Investment in such securities may be subject to risks similar to those outlined above for below investment grade securities.
- Further, there is a risk that debt securities or their issuer may be downgraded due to adverse market conditions. In the event of a down-grading of the credit rating of a security or an issuer relating to a security that the Sub-Fund invests in, the value of the Sub-Fund may be adversely affected. The Manager may not dispose of such securities immediately and the Sub-Fund may therefore be subject to additional risk of loss.

Interest rates risk

- Changes in market interest rates will affect the value of fixed income securities held by the Sub-Fund. Generally, the market value decreases when interest rates rise and increases when interest rates fall. Long-term fixed income securities are generally more sensitive to changes in interest rates and, therefore, are subject to a greater degree of market price volatility. To the extent the Sub-Fund holds long-term fixed income securities, its net asset value will be subject to a greater degree of fluctuation than if it held fixed income securities of a shorter duration.

Credit risk

- The Sub-Fund may invest in investments that involve credit risk. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero). This may in turn adversely affect the net asset value per Unit of the Sub-Fund.
- Many emerging market countries have accumulated substantial debt servicing obligations. This may adversely affect their ability to service their debts and increase the likelihood of their defaulting on their obligations. It should also be noted that investment in securities issued by corporations may represent a higher credit risk than investment in securities issued by governments.
- The ratings of fixed-income securities by credit rating agencies are a generally accepted barometer of credit risk. They are, however, subject to certain limitations from an investor's standpoint and do not guarantee the credit worthiness of the security and/or issuer at all times. The rating of an issuer is heavily weighted by past developments and does not necessarily reflect probable future conditions. There is frequently a lag between the time the rating is assigned and the time it is updated. In addition, there may be varying degrees of difference in credit risk of securities within each rating category.
- In particular, RMB denominated fixed income securities that the Sub-Fund invests in are usually offered on an unsecured basis without collateral, and will rank equally with other unsecured debts of the relevant issuer. As a result, if the issuer becomes bankrupt, proceeds from the liquidation of the issuer's assets will be paid to holders of the securities only after all secured claims have been satisfied in full. The Sub-Fund is therefore fully exposed to the credit/insolvency risk of its counterparties as an unsecured creditor.

Valuation risk

- Valuation of the Sub-Fund's investments in fixed income securities may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the Sub-Fund.

Offshore RMB (CNH) fixed income market risks

- The offshore RMB (CNH) fixed income market is still a relatively small market which is more susceptible to volatility and illiquidity. The operation of the offshore RMB (CNH) fixed income market as well as new issuances could be disrupted causing a fall in the net asset value of the Sub-Fund should there be any promulgation of new rules which limit or restrict the ability of issuers to raise offshore RMB (CNH) by way of bond issuances and/or reversal or suspension of the liberalisation of the offshore RMB (CNH) market by the relevant regulators.

Risk relating to convertible bonds

- The Sub-Fund may invest in convertible bonds. Convertibles are a hybrid between debt and equity, permitting holders to convert into shares or stocks in the company issuing the bond at a specified future date. Prior to conversion, convertible bonds have the same general characteristics as non-convertible fixed income securities and the market value of convertible bonds tends to decline as interest rates increase and increase as interest rates decline. However, while convertible bonds generally offer lower interest or dividend yields than non-convertible fixed income securities of similar quality, they enable the Sub-Fund to benefit from increases in the market price of the underlying stock, and hence the price of a convertible bond will normally vary with changes in the price of the underlying stock. Therefore, investors should be prepared for greater volatility than straight bond investments, with an increased risk of capital loss, but with the potential of higher returns. Also, if the credit quality of the convertible bonds deteriorates or if the issuer of the convertible bonds defaults, the Sub-Fund may suffer a loss if it invests in those convertible bonds. Investments in convertible bonds are subject to the same interest rate risk, credit risk, liquidity risk and prepayment risk associated with comparable straight bond investments.

Risks relating to investment in other funds

- The Sub-Fund may invest in other investment funds which may or may not be regulated by the SFC. In addition to the expenses and charges charged by the Sub-Fund, investors should note that there are additional costs involved when investing into these investment funds, including fees and expenses charged by the investment manager of these investment funds as well as fees payable by the Sub-Fund during its subscription to or redemption from these investment funds. Furthermore, there can be no assurance that (i) the liquidity of the investment funds will always be sufficient to meet redemption request as and when made; and (ii) investment objective and strategy will be successfully achieved despite the due diligence procedures undertaken by the Manager and the selection and monitoring of the investment funds. These factors may have adverse impact on the Sub-Fund and its investors.
- If the Sub-Fund invests in an investment fund managed by the Manager or connected person of the Manager, potential conflict of interest may arise. In the event of such conflicts, the Manager will endeavour to ensure that such conflicts are resolved fairly and all transactions between the Sub-Fund and any of them are on an arm's length basis. Please refer to the section "Conflicts of Interest" for further information.

Risks relating to Real Estate Investment Trusts

- Although the Sub-Fund will not invest in real property directly, the Sub-Fund may be subject to risks similar to those associated with the direct ownership of real property (in addition to securities market risks) through its investment in REITs.
- The prices of REITs are affected by changes in the value of the underlying property owned by the REITs. The prices of mortgage REITs are affected by the quality of any credit they extend, the creditworthiness of the mortgages they hold, as well as by the value of the property that secures the mortgages.
- Further, REITs are dependent upon management skills and generally may not be diversified. REITs are also subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. There is also the risk that borrowers under mortgages held by a REIT or lessees of a property that a REIT owns may be unable to meet their obligations to the REITs. In the event of a default by a borrower or lessee, the REITs may experience delays in enforcing its rights as a mortgagee or lessor and may incur substantial costs associated with protecting its investments. In addition to the foregoing risks, certain "special purpose" REITs in which the Sub-Fund may invest may have their assets in specific real property sectors, such as hotel REITs, nursing home REITs or warehouse REITs, and are therefore subject to the risks associated with adverse developments in these sectors.
- The REITs invested in by the Sub-Fund may not necessarily be authorized by the SFC and the distribution policy of the Sub-Fund may not reflect the dividend policy of the underlying REITs.

Risks relating to investment in ETFs generally

- The trading prices of units/shares in an ETF may differ significantly from the net asset value of the units/shares of such ETF due to, disruptions to creations and realisations (for example, as a result of imposition of capital controls by a foreign government) and supply and demand forces in the secondary trading market for units/shares in the ETF. In addition, factors such as fees and expenses of an ETF, imperfect correlation between the ETF's assets and the underlying securities within the relevant tracking index, rounding of share prices, adjustments to the tracking index and regulatory policies may affect the ability of the manager of an ETF to achieve close correlation with the tracking index for the relevant ETF. An ETF's returns may therefore deviate from that of its tracking index.
- There can be no assurance that an active trading market will exist or maintain for units/shares of an ETF on any securities exchange on which units/shares of an ETF may trade. The units/shares of the ETFs which the Sub-Fund may invest in may be traded at large discounts or premiums to their net asset value, which may in turn affect the net asset value of the Sub-Fund.

Risks relating to investment in commodities

- The Sub-Fund may also invest in commodities and thus, be exposed to commodity markets risk. The commodity markets generally are subject to greater risks than other markets. It is a feature of commodities generally that they are subject to rapid change and the risks involved may change relatively quickly. Commodity prices are determined by forces of supply and demand in the commodity markets and these forces are themselves influenced by, without limitation, consumption patterns, macro economic factors, weather conditions, natural disasters, trade, fiscal, monetary and exchange policies and controls of governments and other unforeseeable events.
- In addition, the geographical distribution and concentration of commodities may expose the Sub-Fund to issues such as heightened political risks, sovereign intervention and the potential for sovereign claims to output, acts of war, or increase in resources-related rents and taxes. There is also the risk that industrial production may fluctuate widely, decline sharply, or be subject to waning secular consumption trends, adversely affecting the performance of the Sub-Fund.

Counterparty, Custody and Settlement risk

- The Sub-Fund may be exposed to a credit risk on counterparties with whom they trade securities, and may also bear the risk of settlement default. As the Sub-Fund may also invest in securities in emerging markets where settlement mechanisms are generally less developed and reliable than those in more developed countries. This therefore increases the risk of settlement default which could result in substantial losses for the Sub-Fund in respect of investments in emerging markets.
- The Sub-Fund may invest in markets where custodial and/or settlement systems are not fully developed. The assets of the Sub-Fund that are traded in such markets and which have been entrusted to such sub-custodians may be exposed to risk in circumstances where the custodian will have no liability. The Sub-Fund's cash account will usually be maintained on the custodian's records, but the balances may be held by a sub-custodian which poses an additional risk.

- The Sub-Fund may also be exposed to credit risk on counterparties with which they trade in relation to options, futures, contracts and other derivative financial instruments that are not traded on internationally recognized exchanges. The Sub-Fund will be subject to the possibility of the insolvency, bankruptcy or default of counterparties with which the Sub-Fund trades such instruments, which could result in substantial losses to the Sub-Fund.

Liquidity and volatility risk

- Not all securities or investments held by the Sub-Fund will be listed or rated or actively traded and consequently they may have higher volatility and their liquidity may be low. The prices of such securities may be subject to fluctuations. Moreover, the accumulation and disposal of holdings in some investments may be time consuming and may need to be conducted at unfavourable prices. The Sub-Fund may also encounter difficulties in disposing of assets at their fair price due to adverse market conditions leading to limited liquidity. Further, the bid and offer spread of the price of the relevant instruments may be high and the Sub-Fund may therefore incur significant trading costs and may even suffer losses when selling such instruments.
- Liquidity risk also exists when a particular derivative instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid (as is the case with many privately negotiated derivatives), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price.

Risks associated with financial derivative instruments

- Financial derivative instruments include instruments and contracts the value of which is linked to one or more underlying securities, financial benchmarks or indices. Derivatives may allow an investor to hedge or speculate upon the price movements of a particular security, financial benchmark or index. Therefore, many of the risks applicable to trading the assets of the Sub-Fund may also be applicable to derivatives trading. However, there are a number of other risks associated with derivatives trading. For example, because many derivatives provide significantly more market exposure than the money paid or deposited when the transaction is entered into, a relatively small adverse market movement can result not only in the loss of the entire investment, but may also expose the Sub-Fund to the possibility of a loss exceeding the original amount invested.
- Other risks inherent in the use of derivatives include, but are not limited to (a) the dependence on the Manager's ability to correctly predict the direction of interest rates, currencies exchange rates and securities prices; (b) the imperfect correlation between the returns of the derivative instruments used for hedging and the returns of the securities they hedge; (c) the fact that skills needed to use these strategies are different from those needed to select portfolio securities; (d) the possible absence of a liquid secondary market for any particular derivative instrument at any time; (e) the default of the counterparty on the terms of the derivative contract; (f) the risk of mispricing or improper valuation of derivatives; and (g) the risk of higher volatility of the returns as derivatives usually have a leverage component.

General risk associated with over-the-counter transactions

- Instruments traded in over-the-counter markets may trade in smaller volumes, and their prices may be more volatile than instruments principally traded on exchanges. Such instruments may be less liquid than more widely traded instruments. In addition, the prices of such instruments may include an undisclosed dealer mark-up which the Sub-Fund may pay as part of the purchase price.

Risk relating to small- and mid-capped companies

- The Sub-Fund may invest in the securities of small- and/or mid-capped companies. Investing in these securities may expose the Sub-Fund to risks such as greater market price volatility, less publicly available information, and greater vulnerability to fluctuations in the economic cycle.

Investor risk

- Substantial redemptions of Units (which are more likely to occur in adverse economic or market conditions) could require the Manager to liquidate investments of the Sub-Fund more rapidly than otherwise desirable in order to raise the necessary cash to fund the redemptions and to achieve a position appropriately reflecting the smaller equity base. This could adversely affect the net asset value of both Units being redeemed and of remaining Units.
- The Manager is entitled under certain circumstances specified in the Trust Deed to suspend dealings in the Units. In this event, valuation of the net asset value will be suspended, and any affected redemption applications and payment of redemption proceeds will be deferred. The risk of decline in net asset value of the Units during the period up to the redemption of the Units is borne by the redeeming unitholders.
- If, in the opinion of the Manager or the Trustee, Units held by any unitholder is in contravention of any laws or requirements of any country, any government authority or any stock exchange or under such other circumstances specified in the Trust Deed, the Manager and the Trustee are entitled to compulsorily redeem all or a portion of the unitholder's Units in the Sub-Fund. If it shall come to the attention of the Manager or the Trustee at any time that Units are beneficially owned by a US Person, or a US person for the purposes of FATCA, to the extent permitted by applicable laws and regulations, the Manager and the Trustee may compulsorily redeem such Units. The Manager or the Trustee in taking any such action shall act in good faith and on reasonable grounds. Such compulsory redemption may create adverse tax and/or economic consequences to the unitholder depending on the timing thereof. No person will have any obligation to reimburse any portion of an investor's losses upon termination of the Sub-Fund, compulsory redemption or otherwise.

Risk of termination of the Sub-Fund

- In the event of the early termination of the Sub-Fund, the Sub-Fund would have to distribute to the unitholders their pro rata interest in the assets of the Sub-Fund. It is possible that at the time of such sale or distribution, certain investments held by the Sub-Fund may be worth less than the initial cost of such investments, resulting in a substantial loss to the unitholders. Moreover, any organizational expenses with regard to the Units that had not yet become fully amortized would be debited against Sub-Fund's capital at that time.

Emerging and Less Developed Markets Securities Risk

- Emerging or developing countries may have relatively unstable governments, economies based on a less diversified industrial base and securities markets that trade a smaller number of securities. Companies in emerging markets may generally be smaller, less experienced and more recently organised than many companies in more developed markets. Prices of securities traded in the securities markets of emerging or developing countries tend to be volatile. Furthermore, foreign investors are often subject to restrictions in emerging or developing countries. These restrictions may require, among other things, governmental approval prior to making investments or repatriating income or capital, or may impose limits on the amount or type of securities held by foreigners or on the companies in which the foreigners may invest.
- The economies of individual emerging countries may differ favorably or unfavorably from developed economies in such respects as growth of gross domestic product, rates of inflation, currency depreciation, capital reinvestment, resource self-sufficiency and balance of payment position and may be based on a substantially less diversified industrial base. Further, the economies of developing countries generally are heavily dependent upon international trade and, accordingly, have been, and may continue to be, adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. These economies also have been, and may continue to be, adversely affected by economic conditions in the countries with which they trade.
- Risks of emerging market securities may include: greater social, economic and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of currency hedging techniques; companies that are newly organised and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems. In addition taxation of interest and capital gains received by non-residents varies among emerging and less developed markets and, in some cases may be comparatively high. There may also be less well-defined tax laws and procedures and such laws may permit retroactive taxation so that the Sub-Fund could in the future become subject to local tax liabilities that had not been anticipated in conducting investment activities or valuing assets.

Risks associated with Stock Connect

- The Stock Connect is a programme novel in nature. The relevant rules and regulations are untested and are subject to change which may have potential retrospective effect. The programme is subject to quota limitations. Where a suspension in the trading through the programme is effected, this may restrict the Sub-Fund's ability to invest in China A-shares through the programme on a timely basis and as a result, the Sub-Fund's ability to access the mainland China market through the programme (and hence to pursue its investment strategy) will be adversely affected. The mainland China regulations impose certain restrictions on selling and buying. Hence the Sub-Fund may not be able to dispose of holdings of China A-shares in a timely manner. Also, a stock may be recalled from the scope of eligible stocks for trading via the Stock Connect. This may adversely affect the investment portfolio or strategies of the Sub-Fund, for example, when the Manager wishes to purchase a stock which is recalled from the scope of eligible stocks. Due to the differences in trading days, the Sub-Fund may be subject to a risk of price fluctuations in China A-shares on a day that the mainland China market is open for trading but the Hong Kong market is close.

Risks relating to distribution

- In respect of Distribution Units, the Manager will declare and pay distributions on a monthly basis. However, the distribution rate is not guaranteed. The Manager has the sole and absolute discretion to vary the frequency of distributions, subject to one month's prior notice to the relevant unitholders. If the Manager does not intend to retain the flexibility to pay distributions out of the capital of the Sub-Fund, the change will be subject to the SFC's prior approval and one month's prior notice to the relevant unitholders.
- Where the income and/or capital gains generated by the Sub-Fund is insufficient to pay a distribution as the Sub-Fund declares, the Manager may at its discretion make such distributions out of the capital of the Sub-Fund.
- **You should note that in the circumstances where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of Units of the relevant Distribution Units.**
- The distribution amount and net asset value of the Hedged Classes may be adversely affected by differences in the interest rates of the class currencies of the Hedged Classes and the Sub-Fund's base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-hedged classes.
- Compositions of the distributions (i.e. the percentages of distribution being paid out of capital and net distributable income) for the last twelve months for each of the Classes of Distribution Units paying distributions out of capital are available from the Manager on request and on the Schroders Internet site (www.schroders.com.hk). The website has not been reviewed by the SFC.

Foreign Account Tax Compliance Act ("FATCA") related risks

- The provisions of the Foreign Account Tax Compliance Act were enacted on 18 March 2010 as part of the Hiring Incentive to Restore Employment Act ("FATCA"). It includes provisions under which the Manager as Foreign Financial Institution ("FFI") may be required to report directly to the US Internal Revenue Service ("IRS") certain information about Units held by US persons for the purposes of FATCA or other foreign entities subject to FATCA and to collect additional identification information for this purpose. FFIs that do not enter into an agreement with the IRS and comply with the FATCA regime could be subject to 30% withholding tax on any payment of US source income (including interests and dividends) as well as on the gross proceeds deriving from the sale of securities generating US income made to the Sub-Fund. Provided that the Sub-Fund acts in accordance with the provisions it will not be subject to withholding tax under FATCA.
- Although the Manager will attempt to satisfy any obligations imposed on it and to avoid the imposition of any FATCA penalty withholding on the Sub-Fund, no assurance can be given that the Manager will be able to achieve this and/or satisfy such FATCA obligations. If the Sub-Fund becomes subject to a FATCA penalty withholding as a result of the FATCA regime, the value of the Units held by unitholders may be adversely affected and unitholders may suffer material losses.

- Unitholders should seek independent professional advice regarding the FATCA requirements with respect to their own situation. In particular, where investors invest in or held Units of the Sub-Fund through an intermediary, nominee or custodian, investors are recommended to check whether such intermediary, nominee or custodian is FATCA compliant and any possible FATCA implications.

Segregation of assets and liabilities between sub-funds

- All sub-funds of the Fund will be established as separate and distinct trusts pursuant to a trust deed supplemental to the Trust Deed. Accordingly, the assets of each of the sub-funds should be effectively segregated from each other and none of them may be used to discharge the liabilities of or claims against any other sub-fund. Notwithstanding this, in the event that the assets of the sub-funds are held by any court of competent jurisdiction (other than Hong Kong) not to be effectively segregated, each of the sub-funds bears the risks of having its assets used to discharge the liabilities of or claims against any other sub-fund. The Manager will seek to advise potential creditors of a particular sub-fund that recourse is only to the assets of that particular sub-fund and not to all sub-funds of the Fund as a whole or the personal assets of the Trustee and will use reasonable efforts to include reference to this effect in any related documentation.

Cross-Class Liability

- Where the liabilities of a particular class exceed the assets pertaining to that class, creditors pertaining to one class may have recourse to the assets attributable to other classes. Although for the purposes of internal accounting, a separate account will be established for each class, in the event of an insolvency or termination of the Sub-Fund (i.e., when the assets of the Sub-Fund are insufficient to meet its liabilities), all assets will be used to meet the Sub-Fund's liabilities, not just the amount standing to the credit of any individual class. However, the assets of the Sub-Fund may not be used to satisfy the liabilities of another sub-fund.

Prospective investors should consult with their own advisors before deciding to invest in the Sub-Fund.

MANAGEMENT OF THE FUND

Manager The Manager of the Fund is Schroder Investment Management (Hong Kong) Limited.

The Manager undertakes the management and administration of the Fund, including communication with unitholders and conduct of meetings, and in conjunction with the Trustee is responsible for the maintenance of accounts and records in compliance with the Trust Deed and the laws of Hong Kong.

With almost forty years of investment experience in Asia Pacific the Schroder Group is able to offer particular expertise in the management of specialist Asian portfolios and is able to draw on the worldwide resources of the Group with offices and research analysts based throughout the region.

The Manager is adviser to or manager of other Hong Kong authorized unit trusts and investment portfolios of institutional, private and retirement fund clients in Asia and elsewhere. The Schroder Group worldwide manages assets of over US\$466.9 billion as at 31 March 2016 in London, Luxembourg, New York, Zurich, Australia, Hong Kong, Japan and Singapore and other investment centres around the world.

In the performance of its duties, the Manager may seek, at its own expense, advice from investment adviser(s).

Trustee The Trustee of the Fund is HSBC Institutional Trust Services (Asia) Limited which is incorporated with limited liability in Hong Kong on 27 September 1974. It is an indirect wholly-owned subsidiary of The Hongkong and Shanghai Banking Corporation Limited and its ultimate holding company is HSBC Holdings plc. It is registered as a trust company under Section 77 of the Hong Kong Trustee Ordinance and is an approved trustee under the Mandatory Provident Fund Schemes Ordinance. HSBC group has adopted a policy of compliance with the sanctions issued by The Office of Foreign Assets Control of the US Department of the Treasury. The Trustee and its delegates will not participate in transactions and activities, or make any payments denominated in US dollars, which, if carried out by a US person, would be subject to subject to sanctions by The Office of Foreign Assets Control of the US Department of the Treasury.

The Trustee shall be responsible for the safe-keeping of the investments, cash, assets and other property forming part of the Fund in accordance with the provisions of the Trust Deed and such investments, cash and registrable assets shall be registered in the name of or to the order of the Trustee and be dealt with as the Trustee may think proper for the purpose of providing for the safe-keeping thereof provided that where borrowing is undertaken for the account of the Sub-Fund pursuant to the Trust Deed, for giving security in connection with such borrowing the assets of the Sub-Fund may be registered in the lender's name or in that of a nominee appointed by the lender.

The Trustee may, however, from time to time appoint any person or persons as it thinks fit (including a Connected Person of the Trustee) or have such person(s) appointed to hold, as custodian, nominee or agent of the Trustee, all or any of the investments, assets or other property comprised in the Sub-Fund ("Custodian") and may empower any such Custodian to appoint, with the prior consent in writing of the Trustee, co-custodians and/or sub-custodians. The Trustee is required to (a) exercise reasonable care and diligence in the selection, appointment and monitoring of such persons and, (b) be satisfied that such persons retained remain suitably qualified and competent to provide the relevant custodial services to the Sub-Fund. The Trustee shall be responsible for the acts and omissions of any Custodian which is a Connected Person of the Trustee as if the same were the acts or omissions of the Trustee, but provided that the Trustee has discharged its obligations set out in (a) and (b) as set out in this paragraph, the Trustee shall not be liable for any act, omission, insolvency, liquidation or bankruptcy of any Custodian which is not a Connected Person of the Trustee.

"Connected Person" shall have the meaning as set out in the Code which at the date of the Explanatory Memorandum means, in relation to a company:

- any person or company beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise directly or indirectly, 20% or more of the total votes in that company; or
- any person or company controlled by a person who or which meets one or both of the descriptions given in (a); or
- any member of the group of which that company forms part; or
- any director or officer of that company or of any of its connected persons as defined in (a), (b) or (c).

The Trustee shall not be liable for:

- (a) any act, omission, insolvency, liquidation or bankruptcy of Euro-clear Clearing System Limited or Clearstream Banking, S.A. or any other recognised depository or clearing system;
- (b) the custody or control of any investments, assets or other property which is under the custody or held by or on behalf of third party in respect of any borrowing made by the Trustee for the purposes of the Sub-Fund; and
- (c) any agent, delegate, nominee, custodian, joint custodian or sub-custodian that is appointed by the Trustee pursuant to the Trust Deed in relation to markets considered by the Trustee to be emerging and restricted markets where in the Trustee's opinion the risks associated with such market(s) are unacceptably high, as notified in writing to the Manager ("Correspondents"), unless such Correspondent is an associate of the Trustee, provided that the Trustee shall act with reasonable care and diligence: (i) in the selection, appointment and ongoing monitoring of the Correspondents, and (ii) in satisfying itself that the Correspondents remain suitably qualified and competent to provide the relevant service.

Subject as provided in the Trust Deed, the Trustee shall not, in the absence of fraud, negligence or wilful default by it or any agent, sub-custodian or delegate appointed by the Trustee, be liable for any losses, costs or damage to the Fund or to unitholders. Subject as provided in the Trust Deed, the Trustee is entitled to be indemnified from the assets of the Sub-Fund from and against any and all action, costs, claims, damages, expenses or demands relating to the Sub-Fund (other than those arising out of (i) any liability or obligation to the unitholders imposed on the Trustee pursuant to the laws of Hong Kong or (ii) any breach of trust through fraud or negligence on the part of the Trustee.

The Trustee has delegated certain of its functions as Registrar to Schroder Investment Management (Luxembourg) S.A. (the "Service Provider").

When calculating the net asset value of the Sub-Fund, the Trustee may, without verification, further enquiry or liability, rely on price data, cost price, sale price or other information provided to it through electronic price feeds, mechanised or electronic systems of price or valuation, or valuation or pricing information which is provided to it by the Manager, or any valuer, third party valuation agent, intermediary or other third party appointed or authorized by the Manager to provide valuations or pricing information of the assets of the Sub-Fund. The Trustee and its delegate will not participate in transactions or activities or make any payments denominated in US dollars, which, if carried out by a US person, would be subject to the United States Office of Foreign Assets Control (OFAC) sanctions.

The appointment of the Trustee may be terminated in the circumstances set out in the Trust Deed.

The Trustee is entitled to the fees set out below under the section headed "Expenses and Charges" and to be reimbursed for any sub-custodians' fees and expenses.

If the Trustee or its delegates (which may be affiliates of the Trustee) shall act as banker in respect of a Sub-Fund then it shall be entitled to retain all normal banking profit and benefits; in the event that the Trustee or its delegates shall act as custodian or broker for the purchase and sale of investments, then it shall be entitled to charge and retain all normal fees and expenses.

The Manager has sole responsibility for making investment decisions in relation to the Fund and/or the Sub-Fund. Subject to the duty to take reasonable care to ensure that investment and borrowing limitations of the Sub-Fund are complied with as required by the Code, the Trustee (including its delegate) is not responsible or has any liability for any investment decision made by the Manager. Neither the Trustee, nor its delegate acts as guarantor or offeror of the Units or any underlying investment of the Sub-Fund.

Auditors PricewaterhouseCoopers acts as auditors to the Sub-Fund.

The Auditors' maximum liability to the Manager and the Trustee for any reason relating to the services rendered to the Sub-Fund will be limited according to the terms of the engagement letter to be entered into with the Auditor, details of which will be disclosed in the relevant audited reports and accounts.

TYPES OF UNITS The Manager intends to offer A Class (the "Class A"), C Class (the "Class C") and I Class (the "Class I") which may be denominated in HK dollar ("HK\$"), Renminbi ("RMB"), US dollar ("US\$") or such other currencies as may be determined by the Manager from time to time, hedged or unhedged, and designated as Accumulation Units or Distribution Units, HK dollar and US dollar refer to Hong Kong dollar and United States dollar respectively. The Manager may in future determine to offer other class(es) of Units pursuant to the provisions of the Trust Deed. The Manager will provide a full list of classes of Units with currency denomination that are available for sale to the public in Hong Kong, upon request of an investor. The list is also available online at www.schroders.com.hk. The website has not been reviewed by the SFC.

Each of the hedged classes of Units (the "Hedged Class") will hedge the Sub-Fund's base currency back to its currency of denomination, on a best effort basis, with an aim to align the performance of the Hedged Class to that of the equivalent class denominated in the Sub-Fund's base currency. The effects of hedging will be reflected in the net asset values of the Hedged Classes. Similarly, any expenses arising from such hedging transactions will be borne by the Hedged Classes in relation to which they have been incurred. There is no assurance that the hedging strategies employed will be effective in delivering performance differentials that are reflective only of interest rate differences adjusted for costs and fees.

If the Manager hedges the Sub-Fund's base currency against the currencies in which the underlying assets of the Sub-Fund are denominated, currency exposures or currency hedging transactions within the Sub-Fund's portfolio will not be considered when hedging transactions are entered into for the Hedged Classes. There can be no assurance that any currency hedging strategy employed by the Manager will fully and effectively achieve a positive desirable effect and result.

Class A will generally be available to investors of certain distributors appointed specifically for the purpose of distributing Class A Units. Class C Units will generally be available to investors which are considered to be institutional investors by the Manager. Class I is designed to accommodate an alternative charging structure whereby the investor is a client of the Manager or its associates and is charged management fee directly by the Manager or its associates. Class I is generally not available to retail investors.

APPLICATION FOR UNITS

Application Procedures

Subscription applications will be dealt with on each dealing day which is a Business Day on which securities markets of all or substantial part of investments of the Sub-Fund are open for trading and settlement or such other day(s) as the Manager with the approval of the Trustee may determine from time to time (the "Dealing Day"). A Business Day is a day on which banks in Hong Kong are open for normal business except Saturdays and Sundays, provided that where (for example, as a result of a number 8 or higher typhoon signal, black rainstorm warning or other similar event) the period during which banks in Hong Kong are open on any day is reduced, such day shall not be a Business Day unless the Manager and the Trustee otherwise determine.

In order for subscription applications to be dealt with, the relevant subscription application must be received in a manner satisfactory to the Manager and in accordance with the application and payment procedures set out below.

To purchase Units an investor should:

- (a) complete the application form enclosed with this Explanatory Memorandum and return it to the Manager (details of which as set out in the application form); or
- (b) fax an order to the Manager (details of which as set out in the application form).

Facsimile orders must always be followed by an original completed application form unless the investor already holds Units in the Sub-Fund or units/shares in other funds managed or distributed by the Manager and has already made arrangements with the Manager to allow orders to be made via facsimile instructions and without the same being followed by original orders. Investors should be reminded that if they choose to send application forms by facsimile, they bear their own risk of the forms not being received by the Manager. Investors should therefore for their own benefit confirm with the Manager the receipt of the forms. Neither the Manager nor the Trustee shall be responsible to a unitholder or an investor for any loss resulting from non-receipt or illegibility of any orders sent by facsimile or for any loss caused in respect of any action taken as a consequence of such facsimile believed in good faith to have originated from properly authorised persons.

Units in the Sub-Fund may be acquired on any Dealing Day at a price calculated by reference to the relevant net asset value per Unit as described in the section headed "VALUATION", plus any applicable initial charge. Application should be made on, and in accordance with the instructions on the application form and be received by the Manager by 5:00 p.m. (Hong Kong time) on a Dealing Day (or such other time as the Manager may from time to time with the approval of the Trustee determine) if they are to take effect at the relevant net asset value per Unit (plus any applicable initial charge) of that Dealing Day. Applications received after that time will be dealt with on the next Dealing Day.

The minimum investment for initial or subsequent investments is:

- (a) HK\$5,000 for HK dollar denominated Units of Class A and Class C;
- (b) RMB5,000 for RMB denominated Units of Class A and Class C; and
- (c) US\$1,000 (or equivalent value in other currencies) for Units of Class A and Class C denominated in a currency other than HK dollar or RMB,

or such other amount as may from time to time be determined by the Manager generally or for a particular investor. The minimum amounts include any initial charge which is payable by the applicant.

Applications may also be sent through distributors appointed specifically for the purpose of distributing the Sub-Fund.

The Manager shall have an absolute discretion to accept or reject in whole or in part any application for Units. No interests will accrue on subscription monies received. If an application is rejected by the Manager, the subscription monies will be refunded to the applicant without interest by cheque through the post or by telegraphic transfer to the bank account from which the moneys originated at the risk and expense of the applicants or in such other manner as the Manager may from time to time determine.

Each applicant whose application is accepted will be sent a contract note confirming details of the purchase of Units.

On the issue of new Units, the Manager, at its discretion, is entitled to impose an initial charge of up to 5% of the gross investment amount. It is the current intention of the Manager to charge an initial charge of not more than 3% of the gross investment amount for Units of Class A and 2% for Units of Class C. The initial charge is payable by the applicant and retained by the Manager for its own use and benefit. The Manager may, at its discretion, share with or rebate to approved intermediaries, including banks, brokers, recognized securities dealers and other investment advisers, a proportion of the initial charge received by it on the value of relevant business introduced to the Sub-Fund.

Payment Procedure Payment of the amount due on application should normally be made no later than three (3) Business Days after the relevant Dealing Day or such other number of days as may be from time to time determined by the Manager upon giving notice to the Trustee and unitholders. If timely settlement is not made the relevant allotment of Units may be cancelled in accordance with the Trust Deed and the Manager (at its discretion) may enforce payment of sum due. Upon such cancellation, the relevant Units shall be deemed never to have been issued and the applicant therefore shall have no right to claim in respect thereof against the Manager or the Trustee, provided that no previous valuations of the Sub-Fund shall be re-opened or invalidated as a result of the cancellation of such Units.

Pursuant to the Trust Deed, the Manager and the Trustee will be entitled to charge the relevant applicant (and retain for the account of the Sub-Fund) a cancellation fee to represent the administrative costs involved in processing the application and require the applicant to pay to the Trustee for the account of the Sub-Fund in respect of each Unit so cancelled the amount (if any) by which the net asset value per such Unit on the date of issue exceeds the net asset value per such Unit (had it been redeemed) on the date of cancellation together with interest on such amount until receipt of such payment by the Trustee.

Subscription monies should normally be paid in the currency of the relevant Class of Units. If an investor selects a currency other than the currency of the relevant Class of Units for any payments to or from the Sub-Fund, this will be deemed to be a request by the investor to the Service Provider to provide a foreign exchange service to the investor in respect of such payment. Details of the charge applied to foreign exchange transactions, which is retained by the Service Provider, are available upon request from the Manager. The cost of currency conversion and other related expenses will be borne by the relevant investor. Neither the Trustee nor the Service Provider nor the Manager takes any responsibility for the rate of exchange obtained. Changes in the rate of exchange between the currency of denomination and the currency of an investor's subscription monies may cause the value of an investor's investment to diminish or increase. No payment will be accepted from any person other than the relevant applicant.

All payments can be paid either by telegraphic transfer to the relevant accounts as set out in the application form or may be paid by cheque in accordance with instructions on the application form. It should be noted that there may be delay in receipt of cleared funds if payment is made by cheques or bank draft compared to payment by telegraphic transfer. Any costs of transfer of application monies to the Sub-Fund will be payable by the applicant.

The applicant should quote the name of the Sub-Fund and the applicant's details in the remittance instructions.

No money should be paid to any intermediary in Hong Kong who is not licensed or registered to carry on Type 1 regulated activity under Part V of the Securities and Futures Ordinance.

General All holdings will be registered and certificates will not be issued. Evidence of title will be the entry on the Register of Unitholders. Unitholders should therefore be aware of the importance of ensuring that the Manager is informed of any change to the registered details. Fractions of Units rounded to the nearest two (2) decimal places will be issued. Application monies representing smaller fractions of a Unit will be retained by the Sub-Fund. A maximum of 4 persons may be registered as joint unitholders.

REDEMPTION OF UNITS Unitholders may request to redeem their Units on any Dealing Day at the relevant net asset value per Unit less any applicable deductions on application to the Manager. Redemption notices must be received by the Manager by 5:00 p.m. (Hong Kong time) on a Dealing Day (or such other time as the Manager may from time to time with the approval of the Trustee determine) if they are to be dealt with on that Dealing Day. Redemption notices received after that time will be dealt with on the next Dealing Day.

General Application should be made on the form available from the Manager by post or by facsimile to the Manager, or through one of the intermediaries authorized for this purpose. Please also see the section headed "ANTI-MONEY LAUNDERING REGULATIONS".

Partial redemptions for a minimum of:

- (a) HK\$5,000 for HK dollar denominated Units of Class A and Class C;
- (b) RMB5,000 for RMB denominated Units of Class A and Class C; and
- (c) US\$1,000 (or equivalent value in other currencies) for Units of Class A and Class C denominated in a currency other than HK dollar or RMB,

unless otherwise waived or reduced by the Manager at its discretion generally or for a particular investor, are allowed provided that the value of such unitholder's remaining holding of Units is not less than the aforesaid minimum (as applicable) or such lower amount as may from time to time be determined by the Manager generally or for a particular investor. If a request for redemption will result in a unitholder holding Units less than the minimum holding amount, the Manager may deem such request to have been made in respect of all Units of the relevant class held by that unitholder.

There is currently no redemption charge.

Investors should be reminded that if they choose to send notices of redemption by facsimile, they bear their own risk of the notices not being received by the Manager. Investors should therefore for their own benefit confirm with the Manager the receipt of the notices. Neither the Manager nor the Trustee shall be responsible to a unitholder for any loss resulting from non-receipt or illegibility of any redemption request sent by facsimile or for any loss caused in respect of any action taken as a consequence of such facsimile believed in good faith to have originated from properly authorised persons.

Redemption monies in the currency of the redeeming Units are normally remitted by telegraphic transfer within three (3) Business Days after the relevant Dealing Day and at most within one calendar month upon receipt of all properly completed documentation. Notwithstanding the aforesaid, for RMB denominated Classes of Units under extreme market conditions when there is not sufficient RMB for currency conversion and with the approval of the Trustee, the Manager may pay redemption monies in HK dollar. Redemption proceeds will be paid to the registered unitholder requesting such redemption only and will not be paid to third parties.

At the request of the unitholder, a currency exchange service for redemptions is provided to the unitholder by the Service Provider. Details of the charge applied to foreign exchange transactions, which is retained by the Service Provider, are available upon request from the Manager. The cost of currency conversion and other related expenses will be borne by the relevant unitholder.

A request for redemption once given cannot be revoked without the consent of the Manager.

The Trust Deed gives the Trustee and the Manager powers to request a person to transfer the Units in the Sub-Fund owned by him if his ownership of Units is in contravention of any laws or requirements of any country, any governmental authority or any stock exchange on which such Units are listed or in circumstances (whether directly or indirectly affecting such person and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Manager or the Trustee to be relevant) which in their opinion might result in the Sub-Fund and/or the Fund incurring any tax liability or suffering any other pecuniary disadvantage which the Sub-Fund and/or the Fund might not otherwise have incurred or suffered. If it shall come to the attention of the Manager or the Trustee at any time that Units are beneficially owned by a US Person, or a US person for the purposes of FATCA, to the extent permitted by applicable laws and regulations, the Manager or the Trustee may request that person to transfer the Units in the Sub-Fund owned by him. If that person does not transfer such Units within thirty days after the notice of transfer is served by the Manager or the Trustee (as the case may be) or establish to the satisfaction of the Manager or the Trustee (as the case may be and whose judgment is final and binding) that his ownership of the Units is not in contravention of any such restrictions, he shall be deemed to have given a written request for the redemption of all his Units upon the expiration of the thirty days. The Manager or the Trustee in taking the above actions shall act in good faith and on reasonable grounds.

Restrictions on Redemption The Manager shall suspend, with the prior approval of the Trustee, the redemption of Units and/or may delay the payment of redemption proceeds during any periods in which the determination of the net asset value of the Sub-Fund is suspended (for details see the section headed "Suspension of Calculation of Net Asset Value").

With a view to protecting the interests of unitholders, the Manager is entitled, with the approval of the Trustee, to limit the number of Units redeemed on any Dealing Day (whether by sale to the Manager or by cancellation by the Trustee) to 10% of the total number of Units in issue. If the number of Units redeemed on any Dealing Day is limited, the limitation will apply pro rata so that all unitholders wishing to redeem their Units on that Dealing Day will redeem the same proportion of such Units, and Units not redeemed (but which would otherwise have been redeemed) will be carried forward for redemption, subject to the same limitation, on the next Dealing Day. If requests for redemption are so carried forward, the Manager will within seven (7) days of such Dealing Day inform the unitholders concerned. Any part of a redemption request to which effect is not given by reason of the exercise of this power will be treated as if the request had been made with priority in respect of the next Dealing Day and all following Dealing Days (in relation to which the Manager have the same power) until the original request has been satisfied in full.

SWITCHING BETWEEN FUNDS The Manager offers a number of other unit trusts and mutual funds with different investment objectives. Unitholders switching from one fund or class to another will be generally given, at the discretion of the Manager, discounts on the initial charge (currently up to 5% of the switching amount) which may otherwise apply. A switching is an instruction for a redemption of units or shares in a fund or a class and application of the redemption proceeds to purchase units or shares in another fund or class and therefore the provisions on application and redemption for the relevant funds generally apply. Acceptance of switching instructions will be subject to the availability of the fund or class to be switched in (the "New Fund") and to the compliance with any eligibility requirements and/or other specific conditions attached to the New Fund such as minimum subscription and holding amounts.

For switches between funds managed or distributed by the Manager and generally available to investors (the "Schroder Funds"), save for switches into funds or classes dealt with on a cleared fund basis (for example money funds), switches are normally effected by redeeming units or shares in the fund or class to be switched out (the "Original Fund") on the dealing day on which the redemption would occur and subscribing into units or shares of the New Fund on the same day, provided that the availability of pricing and the applicable dealing days and settlement periods of both funds match. However, if the availability of pricing, dealing days or settlement periods of the Original Fund and the New Fund do not match, subscription to the New Fund may be deferred to align the settlement dates of both funds. In no circumstances the settlement date of the subscription to the New Fund will precede the settlement date of the redemption of the Original Fund.

For switches into a fund or a class dealt with on a cleared fund basis, cleared funds are needed before units or shares will be issued. The time of issue of the units or shares in the New Fund will thus depend on the time of receipt of the redemption proceeds in cleared funds from the Original Fund.

In the cases where dealing of the Original Fund and/or the New Fund is suspended, the processing of the switch will be held over until the next dealing day where dealing is no longer suspended. The switching procedures described above will continue to apply.

Investors are reminded to read the offering documents of the funds into which they wish to switch (available on request from the Manager) before investing.

Instructions to switch units or shares between classes of units or shares denominated in different currencies will be accepted. A currency exchange service for such switches is provided by the Service Provider. Details of the charge applied to foreign exchange transactions, which is retained by the Service Provider, are available upon request from the Manager. The cost of currency conversion and other related expenses will be borne by the relevant unitholder or shareholder.

VALUATION The value of the net assets of the Sub-Fund will be determined as at the Valuation Point in accordance with the Trust Deed. "Valuation Point" means the close of business in the last relevant market to close on the relevant Valuation Day or such other time on that day or such other day as the Manager and the Trustee may from time to time determine and the Trustee shall decide if a notice to notify unitholders of such determination is required. "Valuation Day" is the day on which the net asset value of the Sub-Fund falls to be calculated, being the relevant Dealing Day or such other Business Day as the Manager may from time to time determine in its absolute discretion.

For the purposes of valuation, the Trust Deed provides (inter alia) that:

- (a) (1) except in the case of any interest in a collective investment scheme to which paragraph (c) applies and subject as provided in paragraph (g) below, all calculations based on the value of investments quoted, listed, traded or normally dealt in on any securities market shall be made by reference to the last traded price or (if no last traded price is available) midway between the latest available market dealing offer price and the latest available market dealing bid price on the market on which the investment is quoted, listed, traded or normally dealt in for such investments as the Manager may consider in the circumstances to provide a fair criterion and in determining such prices the Manager and the Trustee shall be entitled to use and rely on electronic price feeds from such source or sources as they may from time to time determine; (2) if an investment is quoted, listed or normally dealt in on more than one securities market, the Manager shall adopt the price or, as the case may be, middle quotation on the securities market which, in its opinion, provides the principal market for such investment; (3) where only a single external pricing source is available, the price shall be obtained independently for that source as the Manager may, subject to the Trustee's consent, deem appropriate;
- (b) in the case of any investment which is quoted, listed or normally dealt in on a market but in respect of which, for any reason, prices on that Market may not be available at any relevant time, the value thereof shall be certified by such firm or institution making a market in such investment as may be appointed for such purpose by the Manager or, if the Trustee so requires, by the Manager after consultation with the Trustee;
- (c) subject as provided in paragraphs (d) and (e) below, the value of each interest in any collective investment scheme shall be the last published net asset value per unit or share in such collective investment scheme (where available) or (if the same is not available) the latest available bid price for such a unit, share or other interest;
- (d) if no net asset value, bid and offer prices or price quotations are available as provided in paragraph (c) above, the value of the relevant investment shall be determined from time to time in such manner as the Manager shall determine;

- (e) the value of any investment which is not quoted, listed or normally dealt in on a securities market shall be the initial value thereof equal to the amount expended out of the Sub-Fund in the acquisition of such investment (including in each case the amount of stamp duties, commissions and other acquisition expenses) provided that the Manager may with the prior written consent of the Trustee and shall at such times or at such intervals as the Trustee may request cause a revaluation to be made by a professional person approved by the Trustee as qualified to value such investments;
- (f) cash, deposits and similar investments shall be valued at their face value (together with accrued interest) unless, in the opinion of the Manager and with the prior written consent of the Trustee, any adjustment should be made to reflect the value thereof;
- (g) notwithstanding the foregoing, the Manager may with the prior written consent of the Trustee adjust the value of cash, deposits and any investment if, having regard to currency, applicable rate of interest, maturity, marketability and other considerations they deem relevant, they consider that such adjustment is required to reflect the fair value thereof; and
- (h) the value of any investment (whether of a borrowing or other liability or an investment or cash) otherwise than in the currency of the Sub-Fund shall be converted into the currency of the Sub-Fund at the rate (whether official or otherwise) which the Manager shall deem appropriate in the circumstances having regard to any premium or discount which may be relevant and to costs of exchange.

The term 'last traded price' referred to in paragraph (a) above, refers to the last traded price reported on the exchange for the day, commonly referred to in the market as the 'settlement' or 'exchange price', and represents a price at which members of the exchange settle between them for their outstanding positions. Where a security has not traded then the last traded price will represent the 'exchange close' price as calculated and published by that exchange in accordance with its local rules and customs.

Where there is no stock exchange, commodities exchange, futures exchange or over-the-counter market all calculations based on the value of investments quoted by any person, firm or institution making a market in that investment (and if there shall be more than one such market maker then such particular market maker as the Manager in consultation with the Trustee may determine) shall be made by reference to the mean of the latest bid and asked price quoted.

The value of investments not listed or quoted on a recognized market will be determined on a regular basis by a professional person approved by the Trustee as qualified to value such investments. Such professional person may, with the approval of the Trustee, be the Manager.

The Trustee, in calculating the net asset value of the Sub-Fund, may rely without further enquiry upon prices and valuation supplied to it in accordance with the foregoing and shall have no liability to the Sub-Fund, any unitholder or any other person in respect of such reliance.

Suspension of Calculation of Net Asset Value The Manager or the Trustee may, after consultation with the other party, declare a suspension of the determination of the net asset value of the Sub-Fund for the whole or any part of any period during which:

- (a) there is a closure of or the restriction or suspension of trading on any commodities market or securities market on which a substantial part of the investments of the Sub-Fund is normally traded or a breakdown in any of the means normally employed by the Manager in ascertaining the prices of investments or the net asset value of the Sub-Fund or the issue price or realisation price per Unit; or
- (b) for any other reason the prices of investments held or contracted for by the Manager for the account of the Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly or fairly be ascertained; or
- (c) circumstances exist as a result of which, in the opinion of the Manager or the Trustee, it is not reasonably practicable to realize any investments held or contracted for the account of the Sub-Fund or it is not possible to do so without seriously prejudicing the interests of unitholders of the relevant class; or
- (d) the remittance or repatriation of funds which will or may be involved in the redemption of, or in the payment for, the investments of the Sub-Fund or the issue or redemption of Units is delayed or cannot, in the opinion of the Manager or the Trustee, be carried out promptly at normal rates of exchange; or
- (e) when a breakdown in the systems and/or means of communication usually employed in ascertaining the value of any of the investments or other assets of that Sub-Fund or the net asset value of the Sub-Fund or the issue price or realisation price per Unit takes place or when for any other reason the value of any of the investments or other assets of the Sub-Fund or the net asset value of the Sub-Fund or the issue price or realisation price per Unit cannot in the opinion of the Manager reasonably or fairly be ascertained or cannot be ascertained in a prompt or accurate manner; or
- (f) when, in the opinion of the Manager, such suspension is required by law or applicable legal process; or
- (g) where the Sub-Fund is invested in one or more collective investment schemes and the realisation of interests in any relevant collective investment scheme(s) (representing a substantial portion of the assets of the Sub-Fund) is suspended or restricted; or
- (h) when the business operations of the Manager, the Trustee or the Registrar or any of their delegates in relation to the operations of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God; or
- (i) when the unitholders or the Manager have resolved or given notice to terminate the Sub-Fund.

Such suspension shall take effect forthwith upon the declaration thereof and thereafter there shall be no determination of the net asset value of the Sub-Fund until the Manager or the Trustee shall declare the suspension at an end, except that the suspension shall terminate in any event on the day following the first Business Day on which (i) the condition giving rise to the suspension shall have ceased to exist and (ii) no other condition under which suspension is authorized shall exist.

Whenever the Manager or the Trustee declares such a suspension it shall, as soon as may be practicable after any such declaration and at least once a month during the period of such suspension, publish a notice online at www.schroders.com.hk that such declaration has been made. The website has not been reviewed by the SFC. The Manager shall as soon as may be practicable notify the SFC of such declaration.

No Units in the Sub-Fund may be created, issued or redeemed during such a period of suspension.

EXPENSES AND CHARGES

Management Fee The current management fee for the Sub-Fund is charged at the rates set out in the table below. The Manager will give one (1) month's prior notice to unitholders should there be any increase of the management fee from the current level up to the maximum level of 7% per annum of the net asset value of the Sub-Fund.

Class of Units	% p.a. of the net asset value of the Unit Class
Class A	1.50%
Class C	0.625%

As I Class is designated to accommodate an alternative charging structure whereby the investor is a client of the Manager or its associates and is charged management fees directly by the Manager or its associates, no management fees will be payable in respect of Units in Class I out of the net asset value of the Sub-Fund.

The management fee is payable to and retained by the Manager for its own use and benefit. The Manager may, at its discretion, share with or rebate to approved intermediaries, including banks, brokers, recognized securities dealers and other investment advisers, a proportion of the management fee received by it on the value of relevant business introduced to the Sub-Fund.

Trustee Fee The current trustee fee for the Sub-Fund is 0.07% per annum of the net asset value of the Sub-Fund, subject to a minimum fee of HK\$156,000 per annum. The Trustee will give one (1) month's prior notice to unitholders should there be any increase of the trustee fee from the current level up to the maximum level of 0.50% per annum of the net asset value of the Sub-Fund.

The Trustee will also be entitled to recover out-of-pocket expenses in performing its services (including any sub-custody charges) together with certain transaction costs and processing fees. The Sub-Fund will bear the costs set out in the Trust Deed which are directly attributable to it. Where such costs are not directly attributable to the Sub-Fund, each one of the sub-funds including the Sub-Fund will bear such costs in proportion to its respective net asset value. Such costs include but are not limited to the costs of investing and realizing the investments of the sub-fund(s), the fees and expenses of custodians of the assets of the Fund, the fees and expenses of the auditors, valuation costs, the Registrar's costs (including Service Provider's costs which vary from class to class within a range between 0.02% and 0.2% p.a. of net asset value of the Sub-Fund), legal fees, the costs and expenses of other service provider of the Fund or the Sub-Fund, the costs incurred in connection with any listing or regulatory approval, the costs of holding meetings of unitholders and the costs incurred in the preparation and printing of any explanatory memorandum.

Costs of Establishment The costs of establishment of the Sub-Fund are estimated to be approximately HK\$360,000 and will be borne by the Sub-Fund. The costs will be amortized over the first financial year of the Sub-Fund, unless otherwise determined by the Manager with the approval of the Trustee. If the Sub-Fund is wound-up prior to the expenses being fully amortized, such unamortized amount will be borne by the Sub-Fund prior to its termination.

Cash Rebates and Soft Commissions The Sub-Fund will generally pay brokerage at customary institutional full service brokerage rates. Transactions of the Sub-Fund may be entered into through associates of the Manager. The Manager and its associates will not receive cash or other rebates from brokers or dealers in respect of transactions from the Sub-Fund.

The Manager may enter into soft commission arrangements for the provision to the Manager or associates of goods and services which are of demonstrable benefit to the unitholders in consideration of the Manager or its associates procuring that such other persons (or persons connected thereto) execute transactions to be entered into for the account of the Sub-Fund provided that the brokerage rates do not exceed customary institutional full service brokerage rates and the transactions are carried out in compliance with Chapter 10.12 of the Code. Execution of transactions for the Sub-Fund is consistent with best execution standards. For the avoidance of doubt (and without prejudice to the generality of the foregoing) research and advisory services, economic and political analysis, portfolio analysis (including valuation and performance measurement), market analysis, data and quotation services, computer hardware and software incidental to the above goods and services, clearing and custodian services and investment-related publications may be considered as of such benefit to unitholders.

TAXATION *The below summary is based on the Manager's understanding of the law and practice currently in force as at the date of this Explanatory Memorandum and applies to investors acquiring Units in the Sub-Fund as an investment. Each prospective unitholder should inform himself of, and where appropriate take professional advice on, the taxes applicable to the acquisition, holding and redemption of Units by him under the laws of the places of his citizenship, residence and domicile. Neither the Manager nor any of its respective affiliates accepts any responsibility for providing tax advice to any prospective unitholder.*

Under the prevailing Hong Kong tax legislations and practices:

The Sub-Fund

The Sub-Fund should be exempt from profits tax, in respect of its authorized activities, in Hong Kong upon authorisation as a collective investment scheme under Section 104 of the Hong Kong Securities and Futures Ordinance.

Unitholders

Profits arising on the disposal or redemption of any Units should only be subject to Hong Kong profits tax for unitholders who carry on a trade or business in Hong Kong where the profits, not being regarded as capital in nature, arise from such trade or business and are sourced in Hong Kong. Unitholders who do not carry on a trade or business in Hong Kong should not be liable to Hong Kong profits tax in respect of any gains from the disposal or redemption of such Units.

Distributions received by unitholders from their investments in the Units generally should not be chargeable to tax in Hong Kong (whether by way of withholding or otherwise).

There is no withholding tax on dividends and interest in Hong Kong.

Dividends, interest and other income received by the Sub-Fund from outside Hong Kong may be subject to withholding taxes in the country from which payment is made. Such taxes will not normally be recoverable by the Sub-Fund.

Stamp Duty

No Hong Kong stamp duty is payable on the issue and redemption for extinguishment of the Units. Hong Kong stamp duty is also not payable if the sale of the Units is effected by the Manager, who then either extinguishes the Units or re-sells the Units to another person within two months thereof. Other types of sales or purchases or transfers of the Units by the unitholders will be liable to Hong Kong stamp duty of 0.2% (equally borne by the buyer and seller) of the higher of the consideration amount or market value.

Mainland China

By investing in (i) China A-shares, B-Shares and H-Shares; and (ii) mainland China fixed income securities traded in the mainland China and/or issued by mainland China issuers, the Sub-Fund may be subject to mainland China taxes.

The following is a general summary of the potential mainland China tax consequences that may be imposed on the Sub-Fund either directly or indirectly. The summary below should not be taken as a definitive, authoritative or comprehensive statement of the relevant matter. In particular, there are various other taxes, duties, levies and charges which are generally of less significance but may nevertheless be applicable to the Sub-Fund.

Mainland China Corporate Income Tax ("CIT")

If the Sub-Fund is considered as a tax resident enterprise of mainland China, it will be subject to CIT at 25% on its worldwide taxable income. If the Sub-Fund is considered as a non-tax resident enterprise with an establishment or place of business ("PE") in mainland China, the profits attributable to that PE would be subject to CIT at 25%.

A non-mainland China tax resident enterprise without a PE in mainland China will generally be subject to mainland China withholding income tax ("WIT") of 10% on its mainland China sourced income (including dividends, interest, gains arising from transfer of assets, etc.) unless a specific exemption or reduction is available under the current CIT law and regulations or relevant tax treaties.

The Manager and the Trustee intend to manage and operate the Sub-Fund in such a manner that the Sub-Fund should not be treated as a tax resident enterprise of mainland China or a non-tax resident enterprise with a PE in mainland China for CIT purposes, although this cannot be guaranteed.

Dividend income and interest income

Unless a specific exemption or reduction is available under current CIT law and regulations or relevant tax treaties, the Sub-Fund would be subject to WIT, generally at a rate of 10%, on dividend income or interest income arising from investments in the mainland China securities including China A-shares, B-shares, H-shares and RMB-denominated fixed income securities issued or listed in mainland China and offshore by mainland China issuers. Technically, the entity distributing such dividends or paying such interest is obliged to withhold such tax on behalf of the recipients.

Interest derived from government bonds issued by the in-charge Finance Bureau of the State Council and/or local government bonds approved by the State Council is exempt from CIT under the CIT Law.

Capital gains

- (i) China B-shares and H-shares

For capital gains derived by an investor on the disposal of these securities, such gains are technically subject to 10% WIT under the CIT Law. In respect of gain on disposal of B-Shares, as a matter of practice, the mainland China tax authorities have not enforced the collection of such WIT.

Circular Guoshuihan [2009] No. 698 ("Circular 698") excludes gains derived by a non-mainland China tax resident enterprise from the buying and selling of shares of mainland China tax resident enterprise through public stock exchanges from the reporting requirements under the Circular. As such, in relation to gains realized from the disposal of H-Shares listed in Hong Kong, where the buying and selling of the H-Shares were effected through the Stock Exchange of Hong Kong, the above provision under Circular 698 offers certain technical protection. Furthermore, as a matter of practice, the mainland China tax authorities have not enforced CIT on such gains.

Having taken and considered independent professional tax advice, the Manager will not make provisions for any WIT on gains derived from the disposal of China B-shares and H-shares. The implication of this is that if the Sub-Fund is liable to pay such WIT, there may be an adverse impact on the net asset value of the Sub-Fund. Should the mainland China tax authorities decide to levy tax on such gains in the future, the Manager would seek to apply with the mainland China tax authorities to treat the Sub-fund as Hong Kong tax resident and rely on the capital gain tax exemption (to the extent the relevant treaty conditions can be satisfied) accorded under the double tax treaty between mainland China and Hong Kong, although this cannot be guaranteed.

The Manager reserves the right to change the mainland China tax provision policy in response to changes in mainland China tax law and practices.

- (ii) Mainland China fixed income securities

In relation to gains realized from the disposal of mainland China fixed income securities, the mainland China tax authorities have verbally indicated, on numerous occasions, that such gains are non-mainland China sourced income and hence not subject to mainland China WIT. However, there is no specific written tax regulation to confirm the same. In practice, the mainland China tax authorities have not enforced the collection of WIT on gains realised from the disposal of mainland China debt securities.

The Manager will not make provisions for any WIT on gains derived from the disposal of mainland China fixed income securities. The implication of this is that if the Sub-Fund is liable to pay such WIT, there may be an adverse impact on the net asset value of the Sub-Fund. Should the mainland China tax authorities decide to levy tax on such gains in the future, the Manager would seek to apply with the mainland China tax authorities to treat the Sub-fund as Hong Kong tax resident and rely on the capital gain tax exemption (to the extent the relevant treaty conditions can be satisfied) accorded under the double tax treaty between mainland China and Hong Kong, although this cannot be guaranteed.

The Manager reserves the right to change the mainland China tax provision policy in response to changes in mainland China tax law and practices.

(iii) China A-shares

(a) *Via market access products*

The Ministry of Finance ("MOF"), the State of Administration of Taxation ("SAT") and CSRC jointly issued Circular Caishui [2014] No.79 ("Circular 79") on 14 November 2014. Circular 79 states that (a) CIT will be imposed on gains realised by QFIIs and RQFIIs from the transfer of mainland China equity investment assets prior to 17 November 2014 in accordance with the CIT Law, and (b) QFIIs and RQFIIs (without an establishment or place in mainland China or having an establishment or place in mainland China but the income so derived is not effectively connected with such establishment or place in mainland China) will be temporarily exempt from CIT on gains realised from the trading of mainland China equity investment assets from 17 November 2014.

No withholding is made by the issuers of China market access products in respect of any realized gains on the actual sale of the underlying China A-shares linked to the China market access products issued to the Sub-Fund.

(b) *Via the Stock Connect*

Besides Circular 79, the MOF, SAT and CSRC also jointly issued Circular Caishui [2014] No.81 ("Circular 81") on the same day. Under Circular 81, CIT, individual income tax and business tax will be temporarily exempted on gains realised by Hong Kong and overseas investors (including the Sub-Fund) on the trading of China A-shares through the Stock Connect with effect from 17 November 2014.

Having taken and considered independent professional tax advice, the Manager will not make provisions for any WIT on realized and unrealized capital gains derived from investments in China A-shares through market access products and Stock Connect.

The Manager reserves the right to change the mainland China tax provision policy in response to changes in mainland China tax law and practices.

Value-added Tax ("VAT") and other surtaxes

On 24 March 2016, the MOF and the SAT jointly released Caishui [2016] No.36 ("Circular 36") on the transformation from Business Tax to VAT (the "B2V Reform"). The B2V Reform was officially implemented on 1 May 2016.

(a) *Dividend income or interest income*

Pursuant to Circular 36, interest income from mainland China bond issuers should technically be subject to 6% VAT. Interest received from mainland China government bonds and local government bonds are exempted from VAT.

Before the B2V Reform, such interest income was technically subject to 5% business tax. However, in practice, the mainland China tax authorities did not enforce the collection of business tax. As the B2V reform has become effective only on 1 May 2016, it is uncertain as to whether the enforcement practice of the mainland China tax authorities will change under the mainland China VAT regime.

Dividends from China A-shares, China B-shares and China H-Shares are not within the charging scope of mainland China VAT.

(b) *Capital gains*

Pursuant to Circular 36, gains realised from the trading of mainland China marketable securities would generally be subject to VAT at 6%. However, gains realised by (i) QFIIs from trading of mainland China securities; and (ii) Hong Kong market investors from the trading of China A-Shares through the Stock Connect are exempted from VAT.

If VAT is applicable, there are also other surtaxes (which include Urban Construction and Maintenance Tax, Education Surcharge and Local Education Surcharge) that would also be charged at an amount as high as 12% of the 6% VAT payable (or an additional 0.72%). In addition, there may also be other local levies such as flood prevention fee, commodity reconciliation fund and water conservancy fund, depending on the location of the mainland China companies.

Stamp Duty

Stamp duty under the mainland China laws generally applies to the execution and receipt of all taxable documents listed in the mainland China's Provisional Rules on Stamp Duty. Stamp duty is levied on the execution or receipt in mainland China of certain documents, including contracts for the sale of China A- and B-shares traded on the mainland China stock exchanges. Stamp duty is generally imposed on the sale of the China-listed shares of mainland China companies at a rate of 0.1% of the sales consideration. The Sub-Fund will be subject to this tax on each disposal of the mainland China listed shares.

For transfer of H-shares by non-mainland China tax resident outside mainland China, mainland China stamp duty is not generally applicable.

General

Various tax reform policies have been implemented by the mainland China government in recent years, and existing tax laws and regulations may be revised or amended in the future. There is a possibility that the current tax laws, regulations and practice in mainland China will be changed with retrospective effect in the future and any such change may have an adverse effect on the asset value of the Sub-Fund. Moreover, there is no assurance that tax incentives currently offered to foreign companies, if any, will not be abolished and the existing tax laws and regulations will not be revised or amended in the future. Any changes in tax policies may reduce the after-tax profits of the companies in mainland China which the Sub-Fund invests in, thereby reducing the income from, and/or value of the Units.

The Manager reserves the right to change the mainland China tax provision policy in response to changes in mainland China tax law and practices.

US Tax Reporting Obligations under FATCA

The provisions of the Foreign Account Tax Compliance Act were enacted on 18 March 2010 as part of the Hiring Incentive to Restore Employment Act ("FATCA"). It includes provisions under which the Manager as Foreign Financial Institution ("FFI") may be required to report directly to the US Internal Revenue Service ("IRS") certain information about Units held by US persons for the purposes of FATCA or other foreign entities subject to FATCA and to collect additional identification information for this purpose. FFIs that do not enter into an agreement with the IRS and comply with the FATCA regime could be subject to 30% withholding tax on any payment of US source income (including interests and dividends) as well as on the gross proceeds deriving from the sale of securities generating US income made to the Sub-Fund.

The Sub-Fund intends to comply with the provisions of FATCA under the terms of the inter-governmental agreement ("IGA") Model II that had been entered into between US Treasury and Hong Kong Government on 13 November 2014 and under the terms of the Hong Kong legislation implementing the IGA when introduced rather than under the US Treasury Regulations implementing FATCA. The Manager as the sponsoring entity has included the Sub-Fund in the list of funds sponsored by it.

In order to comply with its FATCA obligations, from 1 July 2014 the Sub-Fund may be required to obtain certain information from its investors so as to ascertain their US tax status. If the investor is a specified US person under the provisions of FATCA, US owned non-US entity, non-participating FFI or does not provide the requisite documentation, the Sub-Fund will need to report information on these investors directly to the IRS. Provided that the Sub-Fund acts in accordance with these provisions it will not be subject to withholding tax under FATCA.

REPORTS AND ACCOUNTS Financial year end of the Sub-Fund is on 30 June in each year with the first financial year ending on 30 June 2017. Audited accounts in English will be made available to unitholders as soon as possible, and in any event within four months, after the end of the financial year.

Unaudited semi-annual reports in English will also be made available within two months after 31 December in each year with the first semi-annual report to be published for the period ended 31 December 2017. Such reports contain a statement of the net asset value of the Sub-Fund and of the investments comprising its portfolio.

The Manager will notify unitholders when such accounts (accompanied by the required reports), in printed and electronic forms are available and where such accounts may be obtained. Copies of audited accounts and unaudited semi-annual reports may be obtained free of charge at the registered office of the Manager and from the Schroders' Internet site (www.schroders.com.hk). The website has not been reviewed by the SFC. Copies of the accounts and reports may be posted to investors on request.

The annual report and accounts of the Sub-Fund is prepared in accordance with HKFRS (Hong Kong Financial Reporting Standards). Investors should note that the above valuation policies may not necessarily comply with HKFRS. To the extent that the valuation basis adopted by the Sub-Fund deviates from HKFRS, adjustments may be required to make in the annual accounts of the Sub-Fund in order to comply with HKFRS, and if relevant will include a reconciliation note in the annual accounts of the Sub-Fund to reconcile values shown in the annual accounts determined under HKFRS to those arrived at by applying the Sub-Fund's valuation rules. Otherwise, non-compliance with HKFRS may result in the auditors issuing a qualified or an adverse opinion on the annual accounts depending on the nature and level of materiality of the non-compliance.

DISTRIBUTION

Accumulation Units The Manager shall not make any distributions of income or net capital gains realized on the sale of investment in respect of the Accumulation Units. Any income and net capital gains in respect of the Accumulation Units shall be accumulated and capitalized.

Distribution Units In respect of Distribution Units, the Manager will declare and pay monthly distributions on such date as may be determined by the Manager. However, the distribution rate is not guaranteed.

In the event that the income generated from the Sub-Fund's investments attributable to the relevant Class of the Distribution Units during the relevant period is insufficient to pay distributions as declared, the Manager may in its discretion determine such distributions be paid from capital. **Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount originally invested or capital gains attributable to that, and may result in an immediate decrease in the value of the Units of the relevant Distribution Units.**

The Manager will periodically review Distribution Units and reserve the right to make changes to the distribution policies of the Distribution Units. Any change to the frequency of distributions is subject to one month's prior notice to the relevant unitholders. If the Manager does not intend to retain the flexibility to pay distributions out of the capital of the Sub-Fund, the change will be subject to the SFC's prior approval and one month's prior notice to the relevant unitholders.

Distributions of a Class of Distribution Units declared, if any, shall be distributed among the unitholders of the relevant Class of Distribution Units ratably in accordance with the number of Units held by them on the record date as determined by the Manager in respect of the corresponding distribution. For the avoidance of doubt, only unitholders whose names are entered on the register of unitholders on such record date shall be entitled to the distribution declared in respect of the corresponding distribution. Any payment of distributions will be made in the currency of the relevant Class of Distribution Units. Notwithstanding the aforesaid, for RMB denominated Classes of Distribution Units under extreme market conditions when there is not sufficient RMB for currency conversion and with the approval of the Trustee, the Manager may pay distributions in HK dollar.

Compositions of the distributions (i.e. the percentages of distribution being paid out of capital and net distributable income) for the last twelve months for each of these Classes of Distribution Units paying distributions out of capital are available from the Manager on request and on the Schroders Internet site (www.schroders.com.hk). The website has not been reviewed by the SFC.

MEETING OF UNITHOLDERS AND VOTING RIGHTS Meetings of unitholders may be convened by the Manager or the Trustee, and the unitholders of 10% or more in value of the Units in issue may require a meeting to be convened. Unitholders will be given not less than 21 days' notice of any meeting.

The quorum for all meetings is unitholders present in person or by proxy representing 10% of the units for the time being in issue except for the purpose of passing an extraordinary resolution. The quorum for passing an extraordinary resolution shall be unitholders present in person or by proxy representing 25% or more of the units in issue. In the case of an adjourned meeting of which separate notice will be given, such unitholders as are present in person or by proxy will form a quorum. On a poll every unitholder present in person, by proxy or by representative has one vote for every unit of which he is the holder and no vote for a fraction of a unit. In the case of joint unitholders the senior of those who tenders a vote (in person or by proxy) will be accepted and seniority is determined by the order in which the names appear on the Register of Unitholders. A poll may be demanded by the Chairman or one or more unitholders present in person or by proxy representing 5% in value of the units for the time being in issue.

PUBLICATION OF PRICES The relevant net asset value per Unit of the Sub-Fund of each Dealing Day will be published online at www.schroders.com.hk on every Dealing Day. The website has not been reviewed by the SFC. Prices are normally the latest available prices but are indicative only.

TRANSFER OF UNITS Subject as provided below, Units may be transferred by an instrument in writing in common form signed by (or, in the case of a body corporate, signed on behalf of or sealed by) the transferor and the transferee. The transferor will be deemed to remain the holder of the units transferred until the name of the transferee is entered in the Register of Unitholders in respect of such Units.

TRUST DEED The Fund was established under the laws of Hong Kong by a Trust Deed dated 8 October 2010, as amended, made between Schroder Investment Management (Hong Kong) Limited as Manager and HSBC Institutional Trust Services (Asia) Limited as Trustee.

The Trust Deed contains provisions for the indemnification of the parties and their exculpation from liability in certain circumstances. Whilst every effort has been made to ensure the accuracy of the facts and matters stated in this Explanatory Memorandum, unitholders and intending applicants are advised to consult the Trust Deed for further details on the relevant provisions.

Copy of the Trust Deed as for the time being in force may be obtained from the Manager at a cost of HK\$300 each and may be inspected during normal working hours at the offices of the Manager and the Trustee free of charge.

REMOVAL AND RETIREMENT OF TRUSTEE AND MANAGER Subject to the approval of the SFC, the Trustee may not be entitled to retire voluntarily except upon the appointment of a new Trustee. In the event of the Trustee desiring to retire, the Manager shall find a qualified corporation under any applicable law and by a supplemental deed to replace the Trustee. The Manager shall as soon as practicable thereafter give notice to the unitholders specifying the name and the address of the new Trustee.

Subject to the approval of the SFC, the Manager may be subject to removal (a) if the Manager goes into liquidation (b) if for good and sufficient reason the Trustee is of the opinion that a change of Manager is desirable in the interests of unitholders and (c) if the unitholders of not less than 50% in value of the units for the time being outstanding deliver to the Trustee in writing a request that the Manager should retire.

In the event that the Manager is removed under the circumstances above, the Trustee shall as soon as reasonably practicable appoint a successor manager to replace the Manager. The Trustee shall at all times act in the best interest of the unitholders in exercising its rights of removing the Manager and the appointment of a successor manager must be approved by the SFC.

TERMINATION OF THE FUND The Fund shall continue for a period of 80 years unless and until it is terminated in one of the ways set out below.

The Fund may be terminated by the Trustee, if (a) within 30 days of the Manager leaving office, no new manager is appointed or (b) if in the opinion of the Trustee the Manager is incapable of performing or fails to perform its duties satisfactorily or shall do any other thing which in the opinion of the Trustee is calculated to bring the Fund into disrepute or to be harmful to the interests of the unitholders or (c) if the Manager goes into liquidation or if a receiver is appointed over any of their assets and not discharged within 60 days or (d) if any law shall be passed which renders it illegal or in the opinion of the Trustee impracticable or inadvisable in consultation with the relevant regulatory agencies to continue the Fund or (e) if the Trustee shall desire to retire and no new Trustee is appointed within six months of the Trustee giving notice of such desire.

Further at any time the unitholders of the Sub-Fund may authorize termination of the Sub-Fund by extraordinary resolution.

The Fund, the Sub-Fund or a Class of Units may be terminated by the Manager (a) if on any date, in relation to the Fund, the aggregate net asset value of the Units outstanding shall be less than US\$100 million or, in relation to the Sub-Fund or of the relevant Class of Unit (as the case may be), the aggregate net asset value of the Units outstanding shall be less than US\$50 million or its equivalent in the currency in which the Sub-Fund is denominated, or (b) in the opinion of the Manager, it is impracticable or inadvisable to continue the Sub-Fund and/or any class of Units of the Sub-Fund (as the case may be) (including without limitation, a situation where it is no longer economically viable to operate the Sub-Fund) or (c) if any law shall be passed which renders it illegal or in the opinion of the Manager (after consultation with the SFC) impracticable or inadvisable in consultation with the relevant regulatory agencies to continue the Fund or the Sub-Fund and/or any class of Units of the Sub-Fund. One (1) month's notice of any such termination will be given to unitholders unless earlier termination is desirable by reason of the Fund or the Sub-Fund being or bring expected to become illegal.

ANTI-MONEY LAUNDERING REGULATIONS As part of the responsibility of the Trustee, the Registrar and their respective delegates or agents for the prevention of money laundering, each of them may require a detailed verification of an investor's identity and the source of payment of application monies. Depending on the circumstances of each application, a detailed verification might not be required where:

- (a) the applicant makes the payment from an account held in the applicant's name at a recognized financial institution; or
- (b) the application is made through a recognized intermediary.

These exceptions will only apply if the financial institution or intermediary referred to above is within a country recognized as having sufficient anti-money laundering regulations.

Each of the Trustee, the Registrar and their respective delegates or agents reserves the right to request such information as is necessary to verify the identity of an applicant and the source of payment. In the event of delay or failure by the applicant to produce any information required for verification purposes, each of the Trustee, the Registrar and their respective delegates or agents may refuse to accept the application and the subscription monies relating thereto and may refuse to pay any redemption proceeds. None of the Trustee, the Registrar or their delegates, agents or affiliates shall be liable to the applicant for any loss caused as a result of any delay or refusal to process applications, transfer requests or effect payment of realisation proceeds (as the case may be) and claims for payment of interest due to such delay or refusal are not accepted.

CONFLICTS OF INTEREST The Manager and the Trustee may from time to time act as trustee, administrator, registrar, manager, custodian, investment manager or investment adviser, representative or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Sub-Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Sub-Fund.

If such conflicts arise, each of them will use reasonable endeavours to resolve such conflicts fairly (having regard to its respective obligations and duties) and acts in the best interests of the unitholders. In any event, the Manager shall act in a manner which it believes to be equitable in its allocation of investment opportunities among other funds, other investment vehicles it manages or advises and the accounts of its other clients and ensure that all investment opportunities will be fairly allocated. The Manager will also have regard to its obligations to act in the best interests of the unitholders when undertaking any investments where potential conflicts of interests may arise. The Manager will ensure that any such transactions are effected on terms which are not less favourable to the Sub-Fund than if the potential conflict had not existed.

In particular, the services of the Manager, Trustee, the Registrar and their respective delegates provided to the Sub-Fund are not deemed to be exclusive and each of the Manager, Trustee, the Registrar and their respective delegates shall be free to render similar services to others so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all fees and other moneys payable thereby and neither of them shall be deemed to be affected with notice of or to be under any duty to disclose to the Sub-Fund any fact or thing which comes to the notice of any of them in the course of their rendering similar services to others or in the course of its business in any other capacity or in any manner whatsoever, otherwise than in the course of carrying out its duties under the Trust Deed.

MODIFICATION OF TRUST DEED The Trustee and the Manager, if required, subject to any regulatory approval, may modify the Trust Deed in such manner as they may consider expedient for any purpose. Such modification should be approved by an extraordinary resolution of unitholders unless the Trustee and the Manager certify in writing that such modification (i) does not materially prejudice the interests of the unitholders, does not operate to release to any material extent the Trustee or the Manager or any other person from liability to unitholders and (with the exception of the costs of preparing the relevant supplemental deed) will not result in any increase in the costs and charges; or (ii) is necessary in order to make possible compliance with any fiscal, statutory or official requirement (whether or not having the force of law); or (iii) is made to correct a manifest error.
