Egerton Equity

a sub-fund of Schroder GAIA SICAV

Class A Accumulation USD Hedged (LU0548376150)

This fund is managed by Schroder Investment Management (Luxembourg) S.A., which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide capital growth.

Investment Policy

The fund will be invested both long and short in companies. The fund may invest in shares, equity related securities, corporate bonds, derivatives and other financial instruments and hold cash on deposit.

Europe is the home market but the Manager will invest globally including emerging markets if the opportunity is deemed to be unique or better.

The fund may use leverage and will typically have a net-long bias to equities. The Manager seeks to add value through stock selection with detailed fundamental analysis of individual equities. On the long side the focus is on companies with solid balance sheets, strong cash flows, sustainability and attractive medium-term growth prospects. On the short side the focus is on highly leveraged companies with poor capital structures as well as

companies in competitive decline or companies that may be employing aggressive accounting techniques.

The Manager seeks to reduce volatility and avoid large drawdowns by using options, single stock shorts and cash. Derivatives may be used to achieve the investment objective and to reduce risk or manage the fund more efficiently.

Benchmark

The fund is not managed with reference to a financial index.

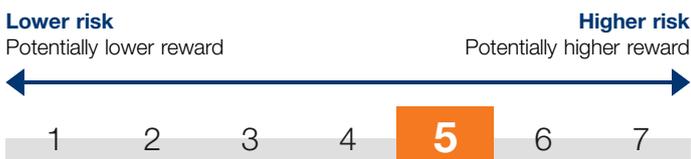

Dealing Frequency

You can buy and sell shares weekly on Wednesday (or the next business day if a Wednesday is not a business day) and on the last business day in a month.

Distribution Policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and Reward Profile

The risk and reward indicator

The risk category is based upon the fund's risk target and there is no guarantee that the fund will achieve it.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Other particular risks

Currency risk / hedged share class: Changes in exchange rates will affect the returns on your investment. The aim of this US dollar hedged share class is to provide you with the performance returns of the fund's investments by reducing the effects of exchange rate fluctuations between US dollar and the fund's base currency euro.

Financial techniques / derivative outcome: There is no guarantee that a financial derivative contract will achieve its intended outcome, even if the terms of the contract are completely satisfied.

Operational risk / third parties: The fund's operations depend on third parties and it may suffer disruption or loss in the event of their failure.

Charges

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
Charges taken from the fund over a year	
Ongoing Charge	2.56%
Charges taken from the fund under certain specific conditions	
Performance fee	Subject to the "high water mark" principle, 20.00% of the share class outperformance in excess of the BBA Libor USD Overnight plus 1%. See the prospectus for more details. In the fund's last financial year the performance fee was 1.00% of the fund.

This is the maximum that might be taken out of your money before it is invested.

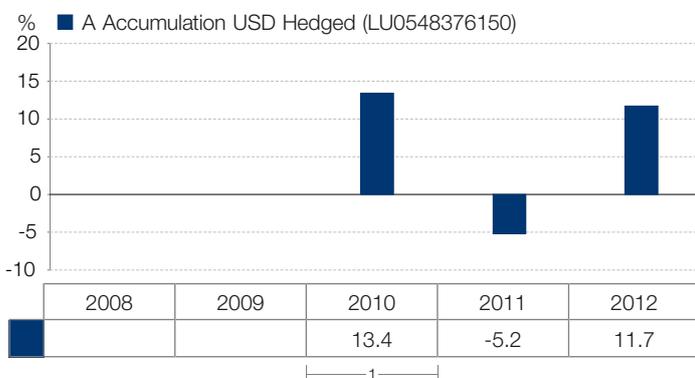

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2012 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past Performance

1 Performance shown during this period predates the launch of this share class and has been simulated using the history of a similar share class within the fund.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges, the portfolio transaction costs and the performance fee have been paid. Entry and exit charges are excluded from calculations of past performance.

The fund was launched on 25 November 2009.
