# Strategic report

---

The Directors present their Strategic report on Schroder & Co. Limited (the Company) for the year ended 31 December 2020.

## Results and review of the business

The profit for the year, after tax, was £46.7 million (2019: £42.2 million). Assets under management (AUM) grew by £2.4 billion during the year, from £36.1 billion to £38.5 billion as a result of pleasing inflows from new and existing clients, good portfolio investment performance and positive markets. The Company adapted well to working remotely and in the light of the circumstances, the Directors consider this to be a strong set of results.

On 18 December 2020, the purchase of Sand Aire Limited (Sandaire) was completed, adding AUM £2.4 billion to Schroders plc Group (the Group). The acquisition adds to Cazenove Capital's strong UK franchise with family offices and families of significant wealth and provides a springboard for further development in this segment for Schroders Wealth globally.

The Company also continued its UK regional expansion with the recruitment of teams in Manchester, Birmingham and Bristol which will enable more business owners to be serviced locally while benefiting from our strong investment and financial planning expertise.

Other developments included continued enhancements to our investment process, most notably in the area of sustainable Investment and private assets.

The Company offers investment management, wealth planning and specialist banking services primarily for private clients and charities. The Company's Wealth Management business continued during the year and its investment and operating principles are expected to remain unchanged in 2021.

The Covid-19 pandemic had an effect on nearly every aspect of our lives, impacting investor sentiment and leading to market volatility. The response of the Company and the Group demonstrated the resilience of its employees, the strength of the infrastructure supporting its business processes and its business model. There was no significant impact on business operations despite 99% of the Group's staff working remotely. The effects of the pandemic are likely to be felt for a number of years and the Company as part of the Schroders Group is well placed to weather those challenges.

The UK left the European Union (EU) on 31 January 2020 and entered a 'transition period' while the UK Government negotiated its future relationship with the EU. On 24 December 2020, both parties announced that they had reached agreement on a free trade agreement, the UK-EU Trade and Cooperation Agreement, with its terms taking effect immediately after the transition period concluded on 31 December 2020. As widely anticipated, the trade agreement does not make provision for financial services firms in the UK to continue to access the EU single market and, as a result, those firms lost their passporting rights.

The Group was well positioned for such a no deal scenario for financial services. The Group's diversified business model and significant presence in the EU means that it is well placed to respond to any challenges arising without making significant changes to its operating models. The Group continues to closely monitor future negotiations and regulatory developments with respect of financial services including any frameworks for regulatory cooperation between the UK and the EU that might affect its business or clients. The Company is well placed to weather these challenges and adapt to ongoing changes in the political, economic and regulatory environment.

## Directors' duties – compliance with section 172 of the Companies Act 2006

Section 172 of the Companies Act 2006 requires a director of a company to act in the way he or she considers, in good faith, would most likely promote the success of the company for the benefit of its members as a whole. In doing this, section 172 requires a director to have regard, amongst other matters, to the:

- likely consequences of any decisions in the long-term;
- interests of the company's employees;
- need to foster the company's business relationships with suppliers, customers and others;
- impact of the company's operations on the community and environment;
- desirability of the company maintaining a reputation for high standards of business conduct, and

- need to act fairly as between members of the company.

To discharge their section 172 duties the Directors had regard to the factors set out above in making the principal decisions taken by the Company. Due to the structure of the Schroders Group, some stakeholder engagement took place at Group level, in respect of the Group's impact on wider society and the environment. For details of the engagement that takes place with the Company's stakeholders at Group level, please refer to the Schroders plc annual report and accounts for the year ended 31 December 2020 (the Schroders Report).

The Board made a number of key decisions on behalf of the Company during the year, including those summarised below. The impact on the Company's stakeholders was, and continues to be, considered throughout the Board's decision making process.

#### *Acquisition of Sand Aire Limited (Sandaire)*

The Board considered the acquisition of Sandaire, a London-based Multi-Family Office Business with £2.4 billion of discretionary assets under management. The key consideration was to contribute towards the Schroders Group's strategic priorities of expanding its Wealth Management business, of which the Company is a key part, and establishing it as a leader in the UK's multi-family office space.

The Board considered the interests of a number of key stakeholders before deciding to proceed with the acquisition.

The impact of the transaction on Sandaire's clients was considered, including the ability to design future products to meet their requirements, for example by utilising the expertise of the wider Group in Private Assets. Sandaire's clients will also benefit from the integration of the business into Schroders' operational platform and wider range of investment capabilities. The interests of Sandaire's employees were also of key importance as upon completion, a number of employees from Sandaire joined Schroders and will be key to driving the integration, future growth and success of the Company. The acquisition of Sandaire required the approval of the Financial Conduct Authority, therefore engagement with them was a key consideration. In addition, there was engagement by the wider Schroders Group with Lloyds Banking Group, who hold a minority stake in the Company's parent, Schroder Wealth Holdings Limited.

This review allowed the Board to conclude that there was both a good cultural fit for employees and that the acquisition would promote the Group's strategy.

#### *Appointment of additional independent non-executive directors*

In seeking to maintain high standards of governance, the Board gave detailed consideration to its composition during the year by reducing the number of executive members and appointing two additional independent non-executive directors. The Board considers the introduction of independent directors as an important development in fostering diversity of thought as well as independent challenge of the executive.

#### *Response to the Covid-19 pandemic*

The Board considered its responsibilities to consider the interests of all stakeholders when responding to the pandemic and discussed the impact of the pandemic on calls held to update the independent non-executive directors outside of the scheduled Board meetings.

The Board reviewed engagement with regulators, the impact on clients, employees and suppliers during these calls together with the impact on the financial position of the Company. The Board also regularly reviewed a schedule of heightened risks faced by the Company in the pandemic in order to safeguard the interests of stakeholders.

The Company has a policy of providing employees with information on matters of interest to them in relation to the business of the Company and the Group. Please see the Directors' report for further details. Engagement with employees was strengthened during 2020, as employees transitioned to remote working during the pandemic. Schroders' offices were also reconfigured to meet local government guidelines to allow staff to return to the office safely where this was permitted.

The Company has adopted the UK Prompt Payment Code and is committed to these principles regarding the fair treatment of suppliers, who are viewed as key stakeholders. Please see note 17 for further details.

Clients are at the centre of our business and doing the right thing by clients is key to the future success of the Company. The impact on clients was a key consideration for all major decisions taken by the Board.

The Board seeks to maintain the Company's reputation for high standards of business conduct when making key decisions and upholds high standards of conduct.

#### *Interim dividends*

The Board approved the payment of two interim dividends during 2020. In reaching those decisions, the Board considered the long term impact on its liquidity requirements and engaged with the Prudential Regulation Authority ahead of paying those dividends to its parent.

#### **Principal risks and uncertainties**

From the perspective of the Company, with the exception of the below risks, the principal risks and uncertainties are integrated with the principal risks of Schroders plc's other subsidiary undertakings which, with Schroders plc, form the Group and are not managed separately. Accordingly, the principal risks and uncertainties of the Group, which include those of the Company, are discussed in "Key risks and mitigations" in the Strategic report and "Risk and internal controls" within the Governance section of the Schroders Report. The Schroders Report does not form part of this report which is available at <https://www.schroders.com/en/investor-relations/>.

The risks specific to the Company which are managed separately to that of the Group include capital risk, liquidity risk, interest rate risk (duration and basis), foreign exchange risk and credit risk. Note 13 contains more details on these risks, along with details of the risks managed by the Group.

The Board is also mindful of the operational risks around people and conduct, which are aligned with the Group, and exist in the normal course of business. People risk is identified as the inability to attract, retain or develop key employees to support our business or maintain high standards in employment practices. This is managed by competitive remuneration and retention plans and building strength in our workforce. We have sustainable succession and employee development processes and recruit selectively through our entry-level and experienced hire programmes. Conduct risk is identified as the risk of inappropriate conduct, conflicts management practices or behaviours negatively impacting on client outcomes or markets. This is managed by promoting a strong compliance culture and seeking to maintain good relationships with our regulators. We also encourage appropriate conduct and regulatory compliance via our conduct risk framework, supported by compliance assurance programmes.

#### **Key performance indicators**

The Group's operations are managed on a divisional basis. The development, performance and position of the Group, which includes the Company, is discussed in the Strategic report in the Schroders Report. The Schroders Report does not form part of this report. The Company's Directors also use key performance indicators to monitor the performance of the Company; these include net new business, total revenues, revenue margin and assets at year-end.

Approved by the Board of Directors and signed on its behalf by:

Matthew Buckland, Authorised signatory for  
Schroder Corporate Services Limited  
Company Secretary  
4 March 2021

# Directors' report

---

The Directors present their report and the audited accounts of the Company for the year ended 31 December 2020. The information contained in the Strategic report and the Statement of Directors' responsibilities forms part of this Directors' report.

## General information

The Company is a private limited company, limited by shares incorporated and domiciled in England and Wales. The Company's ultimate parent undertaking and controlling entity is Schroders plc, which together with the Company and Schroders plc's other subsidiary undertakings, form the Group.

The Company is an authorised banking institution under the Financial Services and Markets Act 2000. The Company is authorised and regulated by the Prudential Regulation Authority and Financial Conduct Authority.

## Future developments

The future developments of the Company are disclosed within the Strategic report.

## Dividends

During the year, the Directors declared interim dividends totalling £30.9 million (2019: £62.6 million). The Directors also recommend a further dividend of £36.7 million in respect of the year ended 31 December 2020 (2019: £5.0 million).

## Risk management and use of financial instruments

The risk management processes of the Company are aligned with those of the Group as a whole. Details of the Group's risk management processes are outlined in "Key risks and mitigations" in the Strategic report and "Risk and internal controls" within the Governance section of the Schroders Report. The Company's specific risk exposures to financial instruments are explained in note 13 to the accounts.

## Going concern

Taking all the above factors into consideration, including the nature of the Company and its business, the Directors are satisfied that, at the time of approving the accounts, there is a reasonable expectation that the Company has adequate resources to continue in operational existence for 12 months from the date the Annual Report and Accounts is signed. For this reason the Directors continue to adopt the going concern basis in preparing the accounts.

## Directors

The Directors of the Company who have served during the year, except where listed below, are listed on page 3. Between 1 January 2020 and 4 March 2021 the following changes have taken place:

<b>Director</b>	<b>Appointed</b>	<b>Resigned</b>
Paul Drechsler	9 September 2020	
Helen Fitzgerald	26 October 2020	
Richard Keers		22 December 2020
Annamaria Koerling		8 April 2020
Charles Porter	9 September 2020	
Carolyn Sims		29 May 2020
Alexander Whitburn		12 June 2020

# Directors' report (continued)

---

## Directors' and Officers liability insurance

Directors' and Officers' liability insurance is taken out by Schroders plc, the Company's ultimate parent undertaking for the benefit of the Directors of the Company.

## Employee engagement

The Company has a policy of regularly providing employees with information on matters of interest to them in relation to the business of the Company and the Group.

Employees are consulted via email, an intranet site and an employee forum (the Forum). The Senior Independent Director of Schroders plc attends the Forum in order to gather feedback and hear the issues that concern employees. The Forum consists of employees elected by their peers, and members of the Forum meet regularly with management as part of a Joint Consultative Group which discusses employee-related matters and provides feedback and recommendations to the senior management team of the Group.

Financial and economic factors affecting the performance of the Group are set out in the Schroders Report which is made available to all employees. Through the Share Incentive Plan, employees are encouraged to participate in the success of the Group.

## Employment policy

The Company is committed to equal opportunities for both existing employees and applicants seeking employment. It is the Company's policy to give appropriate consideration to applications for employment from disabled persons, having regard to their particular aptitudes and abilities. For the purpose of training, career development and promotion, disabled employees, including any who become disabled in the course of their employment, are treated on equal terms with other employees.

## Independent auditor and disclosure of information to independent auditor

In accordance with section 487(2) of the Companies Act 2006 and in the absence of a notice proposing that the appointment be terminated at a general meeting, the current auditors, Ernst & Young LLP (EY), are deemed to be reappointed for the next financial year.

To the best of the Directors' knowledge there is no relevant audit information of which EY is unaware. Each of the Directors has taken all reasonable steps that ought to have been taken by him or her as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's auditor is aware of such information.

## Streamlined Energy and Carbon Reporting (SECR)

The Schroders Report includes the energy and carbon information for the Group, including the Company as a subsidiary undertaking under the SECR framework.

## Statement of corporate governance arrangements

As a subsidiary undertaking, the Company applies the UK Corporate Governance Code where applicable to support the overall compliance of Schroders plc with that code.

# Directors' report (continued)

---

## Statement of Directors' responsibilities in respect of the accounts

The Directors are responsible for preparing the Strategic report, the Directors' report and the accounts in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006. Under company law the Directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these accounts, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable international accounting standards in conformity with the requirements of the Companies Act 2006 have been followed, subject to any material departures disclosed and explained in the accounts; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the accounts comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Approved by the Board of Directors and signed on its behalf by:

Matthew Buckland, Authorised signatory for  
Schroder Corporate Services Limited

# Independent auditor's report to the member of Schroder & Co. Limited

---

## Opinion

We have audited the financial statements of Schroder & Co. Limited for the year ended 31 December 2020 which comprise the income statement, the statement of comprehensive income, the statement of financial position, the statement of changes in equity, cash flow statement, and the related notes 1 to 30, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Accounting Standards in conformity with the requirements of the Companies Act 2006.

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 31 December 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with International Accounting Standards in conformity with the requirements of the Companies Act 2006; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ('ISAs (UK)') and applicable law. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's ('FRC') Ethical Standard as applied to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. To evaluate the Directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting, we have:

- assessed the assumptions used in management's forecasts and determined that the models are appropriate to enable management to make an assessment on the going concern of the Company. We also performed back-testing on prior year forecasts;
- evaluated the capital and liquidity position of the Company by reviewing the Internal Capital Adequacy Assessment Process, the Internal Liquidity Adequacy Assessment Process and the Recovery Plan;
- assessed the appropriateness of the stress and reverse stress test scenarios that consider the key risks identified by management. We evaluated management's analysis by testing the clerical accuracy and assessing the conclusions reached in the stress and reverse stress test scenarios;
- assessed the plausibility of available options to mitigate the impact of the key risks by comparing them to our understanding of the Company;
- performed enquiries of management and those charged with governance to identify risks or events that may impact the Company's ability to continue as a going concern. We also reviewed the management paper approved by the Board, minutes of meetings of the Board and its committees, and made enquiries as to the impact of COVID-19 on the business; and
- assessed the appropriateness of the going concern disclosures by comparing the consistency with management's assessment and for compliance with the relevant reporting requirements.

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

---

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for twelve months from the date the financial statements are signed.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

## Overview of our audit approach

---

Key audit matter	• Improper recognition of revenue
Materiality	• Overall materiality of £2.9 million, which represents 5% of profit before tax.

---

## An overview of the scope of our audit

### Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, changes in the business environment and other factors, such as the impact of the Covid-19 pandemic or recent Internal Audit results, when assessing the level of work to be performed.

### Changes from the prior year

The audit was largely conducted remotely using video calls, share-screen functionality, secure encrypted document exchanges and read-only access to Schroders systems to avoid any limitation on the audit evidence required.

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk
<p><b>Improper recognition of revenue (£184.1 million, PY comparative £172.7 million)</b></p> <p><i>Refer to accounting policies in note 2 of the financial statements (page 23).</i></p> <p>There is a risk of inappropriate recognition of revenue specifically focussed on manual fee calculations that may be susceptible to management override or error.</p> <p>The revenue generated by the Company is largely automated for interest, and fee and commission income. As such, the risk of material misstatement due to fraud or error is lower.</p> <p>However, for manual calculations of fees and commission income, that have increased complexity, there is a heightened risk of management override because the calculations are manual and there are adjusting journal entries recorded in the ledger.</p> <p>The risk has increased in the current year due to the COVID-19 pandemic as management's processes and controls may not operate as they were designed to due to changes in operations as a result of remote working.</p>	<p>We have:</p> <ul style="list-style-type: none"> <li>▶ confirmed and updated our understanding of the procedures and controls in place throughout the revenue process, including those impacted by operational changes due to COVID-19, as well as updated our understanding of the fee arrangements with each client, the input of those arrangements in the relevant systems, and billing and cash collections;</li> <li>▶ tested the controls over access to, and changes to, the IT systems underpinning the revenue process, including testing controls and reconciliations over the flow of data between systems for completeness and accuracy;</li> <li>▶ tested the onboarding process of new clients and for a sample of clients including controls over new and amended fee arrangements, determined if changes made to client files have been appropriately reviewed once the changes have been submitted;</li> <li>▶ tested the controls in place over the calculation of revenue;</li> <li>▶ for a sample of manual fee and commission items we agreed the fee rates used in the calculation to the customer agreements and recalculated the fee income;</li> <li>▶ for a sample of automated fee and commission revenue items we agreed the fee rates used in the calculation to customer agreements and recalculated 100% of automated fee and commission income;</li> <li>▶ tested the revenue accrual raised at year end by substantiating the total amount to post year end billings to assess the appropriateness of the accrual raised;</li> <li>▶ validated the selected sample of manual and automated fee and commission revenue samples to cash receipts;</li> <li>▶ performed revenue cut off procedures to assess if revenue was recorded within the correct period;</li> <li>▶ tested the appropriateness of journal entries recorded in the sub-ledgers and any other adjustments made in the preparation of the financial statements by auditing a sample of journal entries back to supporting documentation; and</li> <li>▶ tested compliance with IFRS 15 – Revenue from contracts with customers ('IFRS 15') by assessing the revenue samples selected met the criteria specified under IFRS 15.</li> </ul>

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

## Key observations communicated to the Schroders Wealth Management Audit and Risk Committee

All transactions tested have been recognised in accordance with the underlying agreements or other supporting documentation. Revenue has been recorded materially in accordance with IFRS 15.

Based on the procedures performed, we have no material matters to report in respect of revenue recognition.

## Prior year comparison

In the prior year, our auditor's report included a key audit matter in relation to 'Impairment of investment in subsidiary'. This is not considered to be a key audit matter in the current year as the subsidiary was transferred to another Schroders plc group entity during 2020.

## Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

### Materiality

*The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.*

We determined materiality for the Company to be £2.9 million (2019: £2.6 million), which is 5% (2019: 5%) of profit before tax. We believe that profit before tax is the most relevant performance measure to the stakeholders of the entity.

During the course of our audit, we reassessed initial materiality based on 31 December 2020 profit before tax and adjusted our audit procedures accordingly.

### Performance materiality

*The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.*

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgment was that performance materiality was 75% (2019: 75%) of our planning materiality, namely £2.2 million (2019: £1.9 million).

### Reporting threshold

*An amount below which identified misstatements are considered as being clearly trivial.*

We agreed with the Wealth Management Audit and Risk Committee that we would report to them all uncorrected audit differences in excess of £0.15 million (2019: 0.13 million), which is set at 5% of planning materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

## Other information

The other information comprises the information included in the Annual Report, other than the financial statements and our auditor's report thereon. The Directors are responsible for the other information in the Annual Report.

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

---

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements themselves or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

## Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

## Matters on which we are required to report by exception

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

## Responsibilities of Directors

As explained more fully in the Statement of Directors' responsibilities set out on page 9, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

---

fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud**

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the Company and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are those that relate to the reporting framework (international financial reporting standards and the Companies Act 2006) and relevant tax compliance regulations. In addition, we concluded that there are certain significant laws and regulations which may have an effect on the determination of the amounts and disclosures in the financial statements being the relevant Prudential Regulation Authority ('PRA') and Financial Conduct Authority ('FCA') rules and regulations.
- We understood how Schroder & Co. Limited is complying with those frameworks by making enquiries of senior management, including the Chief Financial Officer, Company Secretary, Head of Compliance, Head of Risk, Head of Internal Audit and the Chairman of the Wealth Management Audit and Risk Committee. We corroborated our understanding through our review of board and committee meeting minutes, papers provided to the Wealth Management Audit and Risk Committee, and correspondence received from regulatory bodies.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur, by meeting with management to understand where they considered there was susceptibility to fraud. We also considered performance targets and their potential influence on efforts made by management to manage or influence the results. We considered the controls that the Company has established to address risks identified, or that otherwise prevent, deter and detect fraud, including in a remote-working environment; and how senior management monitors these controls. Where the risk was considered to be higher, we performed audit procedures to address each identified fraud risk.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations identified in the paragraphs above. Our procedures involved: journal entry testing, with a focus on manual journals and journals indicating large or unusual transactions based on our understanding of the business; enquiries of senior management, and focused testing, as referred to in the key audit matters section above.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

## **Other matters we are required to address**

- Following the recommendation from the Wealth Management Audit and Risk Committee we were appointed by the Company on 9 March 2018 to audit the financial statements for the year ending 2018 and subsequent financial periods.

# Independent auditor's report to the member of Schroder & Co. Limited (continued)

---

- The period of total uninterrupted engagement including previous renewals and reappointments is three years, covering the years ending 2018 to 2020.
- The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting the audit.
- The audit opinion is consistent with the Audit Results Report to the Wealth Management Audit and Risk Committee

## Use of our report

This report is made solely to the Company's member, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's member those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's member as a body, for our audit work, for this report, or for the opinions we have formed.

Julian Young (Senior statutory auditor)

for and on behalf of Ernst & Young LLP, Statutory Auditor

London

# Notes to the accounts

---

## for the year ended 31 December 2020

### 1. General information

The Company provides investment management, wealth planning and specialist banking services primarily for private clients and charities. The Company is an authorised institution under the Financial Services and Markets Act 2000. The Company is both authorised and regulated by the Prudential Regulation Authority and regulated by the Financial Conduct Authority.

The Company's immediate parent undertaking is Schroder Wealth Holdings Limited, which is registered and incorporated in England. The Company's ultimate parent company and ultimate controlling party is Schrodgers plc, which is a public limited liability company and is incorporated and domiciled in the UK. The address of its registered office is as follows:

1 London Wall Place  
London  
EC2Y 5AU

### 2. Summary of accounting policies

The Company has taken advantage of the exception in IAS 1 'Presentation of Accounts' to present its statement of financial position on a liquidity basis as it believes this format to be more relevant than separating current and non-current assets and liabilities.

#### (a) Basis of preparation

The accounts are prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006. The Company has taken advantage of the exemption not to prepare consolidated accounts, provided by Section 400 of the Companies Act 2006, as the Company is included in the consolidated accounts of a larger group.

The financial information presented within these accounts has been prepared on the going concern basis under the historical cost convention, except for the measurement at fair value of derivative financial instruments, financial assets and liabilities that are held at fair value through profit or loss and that are held at fair value through other comprehensive income.

The Company's principal accounting policies have been consistently applied. The preparation of accounts in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Any areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the accounts, are disclosed within note 3. Where there is a principal accounting policy relevant to a note, it is disclosed in that note, otherwise they are disclosed below.

The Company has complied with regulation 2 of the Capital Requirements (Country-by-Country Reporting) Regulations 2013 by publishing the information in relation to the year ended 31 December 2019 on the Schrodgers Group Website before 31 December 2020. This is available at <https://www.schrodgers.com/en/about-us/corporate-responsibility/our-economic-contribution/>. The Company will publish the information in relation to the year ended 31 December 2020 on the Schrodgers Group Website before 31 December 2021. This will be available at <https://www.schrodgers.com/en/about-us/corporate-responsibility/our-economic-contribution/>.

#### (b) New accounting standards and interpretations

No new accounting standards and interpretations were released during the year that will impact the Company.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 2. Summary of accounting policies (continued)

#### (c) Future accounting developments

The Company did not implement the requirements of any other standards or interpretations which were in issue but were not required to be adopted by the Company at the year end. The Company has not early adopted the Interest Rate Benchmark Reform – Phase 2, amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 ('Phase 2') practical expedient. This is not expected to have a material impact to the Company. No other Standards or Interpretations have been issued that are expected to have an impact on the Company's financial statements.

#### (d) Net interest income

Interest receivable on the Company's activities comprises interest receivable on debt securities and other fixed income securities, loans, advances and deposits placed, and is recognised using the effective interest rate. Interest expense on banking activities comprises interest paid on deposit taken and is recognised using the effective interest rate.

#### (e) Dividends receivable

Dividends are recognised when the shareholders' right to receive the payment is established.

#### (f) Fees and commissions

Asset management fees, investment advisory fees, ad hoc advisory fees, custody fees, commitment fees, arrangement fees and guarantor fees are recognised over time as the service is provided and it is highly probable that the fee will be collected. Asset management fees, investment advisory fees and custody fees are generated through investment agreements and all fees are generally based on an agreed percentage of the valuation of AUM.

Wealth management transaction and loan-related fees, together with fees from wealth planning are recognised at a point in time when the right to the fee is established, the service has been provided and it is highly probable that the fee will be collected.

#### (g) Fee expenses

Commissions and distribution fees payable to third parties are recognised over the period for which the service is provided.

#### (h) Foreign currency translation

The functional and presentation currency of the Company is pounds sterling because that is the currency of the primary economic environment in which the company operates.

Monetary foreign currency assets and liabilities are translated at the rates of exchange ruling at the year end date. Any exchange differences arising are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

#### (i) Dividends payable

Dividends payable are recognised when the dividend is paid or approved by shareholders, whichever is earlier.

#### (j) Trade and other receivables

Trade and other receivables are recorded initially at fair value and subsequently at amortised cost, after the deduction of provisions for any impairment. The Directors consider that as a result of their short-term nature, the fair value of trade and other receivables held at amortised cost approximates their carrying value.

# Notes to the accounts (continued)

---

## for the year ended 31 December 2020

### (k) Prepayments and accrued income

Accrued income represents unbilled revenue, it is not dependant on future performance. Prepayments arise where the Company pays cash in advance for services. As the service is provided, the prepayment is reduced and the administrative expense recognised in the income statement.

### 3. Estimates and judgements

Estimates and judgements used in preparing the accounts are periodically evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable. The estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities are discussed below. The changes in these estimates would not give rise to a material impact to the financial statements.

#### Impairment of investments in subsidiaries

On 18 December 2020 the Company completed the acquisition of 100% of Sand Aire Ltd and on 23 December 2020 disposed of its 100% investment in Schroder & Co. (Asia) Limited at book value without impairment, further details are provided in note 12.

#### Impairment of goodwill and acquired intangibles

The Company determined the fair value of acquired intangible assets based on estimated profits, taking account of synergies, derived from contractual relationships that existed at the acquisition date. This assessment involved judgements and assumptions relating to potential future revenues, appropriate discount rates and the expected duration of client relationships. The difference between the fair value of the consideration and the value of the identifiable assets and liabilities acquired, including intangible assets, was accounted for as goodwill.

At each reporting date, an assessment is made as to whether there is any indication that goodwill or an acquired intangible asset may be impaired. If any indication exists and the carrying value exceeds the estimated recoverable amount at that time, the assets are written down to their recoverable amount.

The recoverable amount of goodwill is determined using a discounted cash flow model, details of which are provided in note 14. Goodwill acquired in a business combination is allocated to the cash generating units (CGUs) that are expected to benefit from that business combination. For all acquisitions where the acquired business is fully integrated into the Company, it is considered that there is only one CGU, being the Company.

# Notes to the accounts (continued)

---

## for the year ended 31 December 2020

### 3. Estimates and judgements (continued)

#### Impairment of financial assets

The Company applied an expected loss model in accordance with IFRS 9 for the calculation of impairment. The estimates and judgements used in this model are explained in note 13 (a).

The Company monitors its loans on a daily basis and exercises judgement periodically in determining whether a loan has defaulted. This includes, amongst other steps, assessing the financial condition of the borrower and the value of the loan compared to the collateral pledged by the borrower.

#### Fair value measurements

The Company holds financial instruments that are measured at fair value. The fair value of financial instruments may require some estimation or may be derived from readily available sources. For investments that are actively traded in financial markets, fair value is determined by reference to official quoted market prices. For investments that are not actively traded, fair value is determined by using quoted prices from third parties such as brokers, market makers and pricing agencies.

Financial assets that have no quoted price principally consist of investments in derivatives and loans and advances to customers. The determination of fair value for these instruments requires significant estimation, particularly in determining whether changes in fair value have occurred since the last formal valuation.

Derivative contracts are valued on prices provided by market counterparties and are verified by a mathematical calculation based on appropriate valuation techniques undertaken by the Company. The fair value of loans and advances to customers is determined by using appropriate valuation techniques such as net present value techniques using projected cash flows and suitable discount rates. Further detail is provided in note 13.

#### Derivative contracts

Derivative contracts are those derived from inputs that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices using simple models and extrapolation methods).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 4. Administrative expenses

	2020 £'000	2019 £'000
<b>Employee costs</b>		
- Wages and salaries	53,286	56,967
- Share-based payments	3,160	3,889
- Social security costs	7,047	7,961
- Other pension costs	3,766	3,568
<b>Total employee costs</b>	<b>67,259</b>	<b>72,385</b>
Depreciation	1	4
Amortisation	6,905	6,061
Fees payable for the audit of the Company	164	157
Fees payable to the auditor for other assurance services	91	111
Other administrative expenses	59,999	57,160
<b>Administrative expenses</b>	<b>134,419</b>	<b>135,878</b>

Administrative expenses are accounted for on an accrual basis.

The monthly average number of employees employed by the Company in Wealth Management in the year was 398 (2019: 409).

The Company makes deferred cash awards to key employees under the Equity Compensation Plan in the form of a notional investment in funds operated by the Group. Such awards do not constitute share-based payments, but are accounted for in accordance with IAS 19 (Amended). These awards are charged to 'Administrative expenses' within the income statement over the performance period and the vesting period of the awards. Awards that lapse are credited to the income statement, again within 'Administrative expenses', in the year in which they lapse.

Other administrative expenses include £32,082,000 (2019: £40,386,000) in relation to related parties (see note 24).

Fees payable for the audit of the Company's subsidiaries were £47,000 (2019: £93,000) and for other assurance services £4,000 (2019: £13,000).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 5. Net gains on financial instruments and other income

A portion of the Company's financial instruments that are measured at fair value are classified as financial instruments at fair value through profit and loss. Net gains and losses on financial instruments at fair value through profit or loss principally comprise market returns on investments in equities, and gains and losses on derivatives (which mainly arise from hedging activities). The revaluation of loans and advances to customers and customer accounts principally represent market movements and are hedged by the revaluation of derivative contracts.

The remainder of the Company's investments held at fair value are classified as fair value through other comprehensive income. This classification is typically selected when the investment is expected to be held for the long-term but not necessarily to maturity and where short-term volatility does not reflect long-term expected returns. Unrealised gains and losses on these investments are recorded in other comprehensive income except for impairment and foreign exchange gains or losses which are recognised in the income statement. The cumulative gains and losses recorded in other comprehensive income are transferred to the income statement when the investment is derecognised. The fair value reserve in the statement of changes in equity represents the difference between the cost (or, if the asset has been reclassified or impaired, the fair value at the date of reclassification or impairment) and the fair value of financial assets that are classified as fair value through other comprehensive income. This classification applies to certain debt securities.

Financial assets classified as fair value through other comprehensive income are assessed for impairment under an expected loss model (see note 13 (a)). Changes in the estimate of expected losses are recognised in the income statement.

Other income includes gains and losses on foreign exchange.

	2020		Total £'000
	Income statement £'000	Other comprehensive income £'000	
<b>Net losses on financial assets held at fair value through profit or loss – held for trading</b>			
- Derivative contracts	(2)	-	(2)
<b>Net losses on financial assets designated as being at fair value through profit or loss upon initial recognition</b>			
- Loans and advances to customers	(3)	-	(3)
<b>Net gains on financial assets at fair value through other comprehensive income</b>			
- Net losses arising from fair value movements	-	141	141

Net decrease in impairment of financial assets	(20)	-	(20)
Net gains on foreign exchange	6,749	810	7,559
<b>Net gains on financial instruments and other income</b>	<b>6,618</b>	<b>1,336</b>	<b>7,954</b>

### 6. Tax

Most taxes are recorded in the income statement (see part (a) of this note below) and relate to profits earned in the reporting year (current tax) but also adjustments due to timing differences between the accounting recognition of profits and the tax recognition (deferred tax). Deferred tax is explained in note 7. Some current and deferred tax - mainly relating to changes in the intrinsic value of employee share awards - is recorded directly in equity (see part (b) below).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 6. Tax (continued)

#### (a) Analysis of charge in year

Major components of the income tax charge for the years ended 31 December 2019 and 31 December 2020:

	2020 £'000	2019 £'000
<b>Current tax</b>		
Current tax charge	12,067	11,856
Adjustment in respect of prior years - UK tax	(6)	80
<b>Total current tax</b>	12,061	11,936
<b>Deferred tax</b>		
Origination and reversal of temporary differences	(902)	(1,712)
Adjustments in respect of prior years	7	1
Effect of changes in UK corporation tax rate	(17)	337
<b>Total deferred tax</b>	(912)	(1,374)
<b>Total tax charge for the year</b>	<b>11,149</b>	<b>10,562</b>

#### (b) Analysis of credit to equity

	2020 £'000	2019 £'000
Current income tax	(186)	(245)
Deferred income tax	(51)	(230)
Effect of changes in UK corporation tax rate	(31)	23
<b>Total credit reported in equity</b>	<b>(268)</b>	<b>(452)</b>

#### (c) Factors affecting the tax charge for the year

The UK standard rate of corporation tax is 19% (2019: effective rate 19%). The tax charge for the year is higher (2019: higher) than the standard rate of corporation tax in the UK of 19% (2019: 19%). The differences are explained below:

	2020 £'000	2019 £'000
<b>Profit before tax</b>	57,841	52,784
Profit before tax multiplied by the UK effective corporation tax rate of 19% (2019: 19%)	10,990	10,029
Effects of:		
Non deductible expenses	176	115
Prior year adjustments	-	81
Deferred tax adjustments in respect of changes in UK tax rates	(17)	337
<b>Total income tax charge</b>	<b>11,149</b>	<b>10,562</b>

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 7. Deferred tax

Deferred tax is provided in full, using the liability method, on all taxable and deductible temporary differences between the tax bases of assets and liabilities at the balance sheet date and their carrying amounts for financial reporting purposes.

However, if the deferred tax arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither the accounting profit nor taxable profit or loss, it is not accounted for. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised.

Deferred tax is provided on temporary differences arising on investments in subsidiaries, branches and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax relating to items recognised directly in other comprehensive income is recognised in the statement of comprehensive income and not the income statement.

On 11 March 2020 it was announced (and enacted on 22 July 2020) that the UK corporation tax rate would remain at 19% and not reduce to 17% (the previous enacted rate) from 1 April 2020. The UK deferred tax balances have been calculated with reference to the rate of 19%. In response to the global pandemic, various governments around the world have taken significant steps to support their relevant economies. This has led to increased government borrowing, which may have an impact on future corporation tax rates when enacted. Any such changes will impact on deferred tax assets and liabilities.

Deferred tax is calculated in full on temporary differences under the liability method using the rate expected to be applicable at the time the net deferred tax asset is realised. The movement on the deferred tax account is as shown below:

	<b>2020</b>	2019
	<b>£'000</b>	£'000
At 1 January	1,036	163
Income statement credit	902	1,712
Income statement prior year adjustments	(7)	(1)
Effect of changes in UK tax rates – income statement expense	16	(337)
Credit/(charge) to equity	82	207
Foreign exchange movement on deferred tax assets	1	(2)
Deferred tax liability on acquired intangible asset	-	(706)
<b>At 31 December</b>	<b>2,030</b>	<b>1,036</b>

## Notes to the accounts (continued)

### 8. Loans and advances to banks

	2020 £'000	2019 £'000
Bank of England reserve account	1,553,495	992,177
Nostro accounts	23,127	15,101
Interbank deposits	317,883	471,141
Margin accounts	1,669	439
	<b>1,896,174</b>	<b>1,478,858</b>

A maturity analysis of loans and advances to banks is disclosed in note 13.

The Bank of England reserve account is interest bearing and linked to the Bank of England base rate. It is envisaged that the Company will continue to make material placements to this account for the foreseeable future.

Nostro accounts include £1,507,000 (2019: £4,337,000) and interbank deposits include £6,000,000 (2019: £nil) placed with other banks in the Group.

Margin account balances arise as all of the Company's derivative counterparty relationships now operate under an ISDA agreement that includes a Credit Support Annex (CSA) capturing margining requirements.

The expected credit losses for loans and advances to banks are disclosed in note 13 (a).

The Directors consider that the carrying amount of loans and advances to banks, which are all held at amortised cost, is approximately equal to their fair value.

Included within loans and advances to banks are components of cash and cash equivalents as follows:

	2020 £'000	2019 £'000
Bank of England reserve account	1,553,495	992,177
Nostro accounts	23,127	15,101
Interbank deposits with maturity of three months or less	284,538	404,056
Margin accounts	1,669	439
<b>Cash and cash equivalents</b>	<b>1,862,829</b>	<b>1,411,773</b>
Interbank deposits with maturity of more than three months	<b>33,345</b>	<b>67,085</b>
<b>Total loans and advances to banks</b>	<b>1,896,174</b>	<b>1,478,858</b>

# Notes to the accounts (continued)

for the year ended 31 December 2020

## 9. Other financial assets

2020				
	Fair value through other comprehensive income £'000	Amortised cost £'000	Fair value through profit or loss £'000	Total £'000
Bank and building society certificates of deposit	-	42,477	-	42,477
Floating rate notes	157,329	-	-	157,329
Government bonds	7,314	-	-	7,314
Covered bonds	-	-	-	-
Derivative contracts	-	-	9,945	9,945
	<b>164,643</b>	<b>42,477</b>	<b>9,945</b>	<b>217,065</b>

2019				
	Fair value through other comprehensive income £'000	Amortised cost £'000	Fair value through profit or loss £'000	Total £'000
Bank and building society certificates of deposit	-	19,992	-	19,992
Floating rate notes	90,069	-	-	90,069
Government bonds	260,589	-	-	260,589
Covered bonds	68,649	-	-	68,649
Derivative contracts	-	-	10,887	10,887
	<b>419,307</b>	<b>19,992</b>	<b>10,887</b>	<b>450,186</b>

Bank and building society certificates of deposit are unlisted. Floating rate notes and fixed rate, government and covered bonds are listed. The fair value of the bank and building society certificates of deposit was £42,789,000 (2019: £20,164,000).

## for the year ended 31 December 2020

### 9. Other financial assets (continued)

#### Classification and measurement

The Company initially records all financial assets at fair value, which is the cost of acquiring the asset or, in the case of loans, the amount loaned to customers (note 10). The Company holds each financial asset either at fair value ('fair value through profit or loss' or 'fair value through other comprehensive income') or at amortised cost. Fair value is the amount for which an asset could be exchanged, or a liability transferred, between knowledgeable, willing parties in an arm's length transaction. Amortised cost is the amount determined based on moving the initial amount recognised for the financial instrument to the maturity value on a systematic basis using a fixed interest rate (effective interest rate), taking account of repayment dates and initial premiums or discounts.

#### *(a) Financial assets at amortised cost*

The Company's financial assets are measured at amortised cost when their contractual cash flows represent solely payments of principal and interest and they are held within a business model designed to collect contractual cash flows. This measurement classification typically applies to the Company's loans and advances, trade and other receivables, accrued income and certain debt securities. The carrying value of financial assets measured at amortised cost is adjusted for impairments under the expected loss model (see note 13), where impairment losses are recorded if there is an expectation of credit losses, even in the absence of a default event.

#### *(b) Financial assets at fair value through other comprehensive income*

Financial assets are held at fair value through other comprehensive when their contractual cash flows represent solely payments of principal and interest and they are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. This classification applies to certain debt securities. Impairment is also recognised for these debt securities (see note 13). The carrying value of these financial assets is not adjusted, but any expected credit losses are recognised in the income statement rather than in other comprehensive income.

#### *(c) Financial assets at fair value through profit or loss*

All other financial assets are held at fair value through profit or loss and principally comprise investments in derivatives (which mainly arise from hedging activities).

# Notes to the accounts (continued)

for the year ended 31 December 2020

## 10. Loans and advances to customers

2020			
	Amortised cost £'000	Designated at fair value through profit or loss £'000	Total £'000
Overdrafts	987	-	987
Term loans	144,337	-	144,337
Mortgages	59,461	-	59,461
	<b>204,785</b>	<b>-</b>	<b>204,785</b>

  

2019			
	Amortised cost £'000	Designated at fair value through profit or loss £'000	Total £'000
Overdrafts	113	-	113
Term loans	81,799	-	81,799
Mortgages	85,401	603	86,004
	<b>167,313</b>	<b>603</b>	<b>167,916</b>

All loans and advances to customers are secured. A maturity analysis is disclosed in note 13.

Loans and advances to customers are initially recognised at fair value and, unless they are hedged for interest rate risk, in which case they continue to be measured at fair value through profit or loss in order to avoid an accounting mismatch, are subsequently measured at amortised cost, being the measurement on initial recognition less principal repayments, plus or minus the cumulative amortisation. Fair value is determined using discounted cash flow models. The Directors consider that the carrying amount of loans and advances to customers held at amortised cost is approximately equal to their fair value.

Loans and advances to customers include £9,008,000 (2019: £4,617,000) placed with related parties.

The expected credit losses for loans and advances to customers, under IFRS 9, are disclosed in note 13 (a).

The maximum exposure to credit risk for loans designated at fair value through profit and loss was £nil (2019: £603,000). The net fair value loss on loans and advances to customers designated at fair value through profit or loss was £nil (2019: £2,000). The amount of change in the year that is attributable to changes in credit risk is a loss of £nil (2019: £1,000) and a gain of £nil (2019: £1,000) cumulatively. The changes in fair value attributable to credit risk were determined by comparing fair value movements in risk-free bonds with similar maturities to the change in fair value of loans designated at fair value through profit or loss.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 11. Property, plant and equipment (continued)

Property, plant and equipment which comprises leasehold improvements and office equipment and computers, is stated at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is provided on the depreciable amount on a straight line basis over their useful lives of three to five years. The depreciable amount is the gross carrying amount, less the estimated residual value at the end of its economic life.

Depreciation rates and methods as well as the residual values underlying the calculation of depreciation of items of property, plant and equipment are kept under review to take account of any change in circumstances. Depreciation of property, plant and equipment is recorded in the income statement as an administrative expense.

### 12. Related undertakings

The Group operates globally which results in the Company having a corporate structure consisting of a number of related undertakings, comprising of subsidiaries. A full list of these undertakings, the country of incorporation (which in all cases is the principal place of business) and the ownership of each share class, as at 31 December 2020, is disclosed below.

#### Shares in Group undertakings

The Company's subsidiary undertakings, all held directly, are as follows:

<b>Name (activity)</b>	<b>Registered office address</b>	<b>Country of incorporation</b>	<b>Type of shares</b>	<b>Proportion of nominal capital</b>
CCM Nominees Limited (nominee company)	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%
Cazenove New Europe (CFM1) Limited (non-trading)	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%
Cazenove New Europe (PPI) Limited (non-trading)	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%
Cazenove New Europe Staff Interest Limited (non-trading)	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%
Sand Aire Limited	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%
Schroder & Co Nominees Limited (nominee company)	1 London Wall Place, London, EC2Y 5AU, England	England	Ordinary	100%

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 12. Related undertakings (continued)

#### Investments in subsidiaries

	2020	2019
	£'000	£'000
<b>Investments in subsidiaries</b>		
Balance at 1 January	25,875	16,152
Additions	34,717	-
Disposals	(25,875)	-
Capital injection	2,905	9,723
<b>Balance at 31 December</b>	<b>37,622</b>	<b>25,875</b>

Shares in Group undertakings are valued at cost less any diminution for impairment in value. Shares in Group undertakings are tested annually to determine whether they have suffered any impairment. Such investments are judged to be impaired when there is objective evidence that the carrying amount of the asset exceeds its recoverable amount.

On 18 December 2020 the Company acquired 100% of the share capital of Sand Aire Ltd and immediately injected £2.9 million equity capital into the entity. The Directors deemed that it was not necessary to write down the carrying value of this subsidiary as the acquisition was so close to the year end. For this reason, the carrying value equated to the purchase price. The Directors considered any events up to the year end which may impact the carrying value. On 23 December 2020 the Company disposed of its 100% owned subsidiary Schroder & Co. (Asia) Limited at book value having undertaken an impairment review prior to disposal.

### 13. Risk review

#### (a) Risk management

The Company is involved in providing investment management, wealth planning and specialist banking services, primarily to private clients and charities. In carrying out this business it transacts as agent and principal in financial assets and liabilities (including derivatives) in order to meet customer facilitation requirements. The Company's policy is to hedge, as appropriate and to the extent possible, exchange rate and interest rate risk on its principal and customer facilitation positions using foreign exchange and interest rate contracts. This hedging of equal and opposite risks seeks to mitigate market risk, but does not eliminate the possibility of credit risk.

Operational, market, liquidity and credit risk exposures exist within the business. The effectiveness of the Company's risk management process is, therefore, critical to its soundness and profitability and considerable resources are dedicated to this area. Risk management is the direct responsibility of the Company's senior management. The Group Risk and Compliance functions are responsible for monitoring the overall risk environment. The Company has established a control environment that ensures risks are reviewed regularly and that all risk controls operating throughout the Company are in accordance with regulatory requirements. In addition, an independent assessment of the risk management process and the fundamental risk assumptions is provided by Group Internal Audit.

The Company is part of the Group's Wealth Management business. The Global Head of Wealth Management has established a Wealth Management Executive Committee. In addition, the Chief Executive of the Company has established a Management Committee, an Asset Liability Management and Credit Committee and an Investment Risk Committee. These committees, together referred to as the Schroder & Co. Risk Committees, oversee the Company's risk management.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 13. Risk review (continued)

#### (a) Risk management (continued)

The Board has established the Wealth Management Audit and Risk Committee comprised of the non-executive Directors. This committee is responsible for overseeing, on behalf of the Board, the financial reporting, risk management and internal controls of the Company and receiving relevant reports on its operating subsidiaries and other operating companies within the Wealth Management segment of the Schroders Group.

#### Capital risk

The Company's capital corresponds to its shareholder's equity. The Company is regulated by the Prudential Regulation Authority (PRA) and the Financial Conduct Authority (FCA) and is subject to the UK Capital Requirement Regulation and the PRA Rulebook for Capital Requirement Regulation firms. One of the requirements is that capital resources must be in excess of its capital requirement at all times. Management monitors the Company's capital and capital requirements on an ongoing basis, taking into account the effects of changes in market conditions, fluctuations in asset, liability and off-balance sheet values, among other factors. Maintaining a strong capital base is important to the Company's business and is a core part of the Company's strategy. The Company's senior management will ensure that the Company meets its minimum regulatory capital requirements. The Company maintains a prudent level of capital, including a significant buffer over the minimum regulatory capital requirement, which allows it to conduct its business. The Company was in compliance with the capital requirements throughout 2019 and 2020 without exception.

The Company's Board support the Chief Financial Officer in exercising responsibility for the management of the Company's capital. The Company performs a thorough assessment of the adequacy of its capital through the Internal Capital Adequacy Assessment Process (ICAAP).

The Company has complied with regulation 2 of the Capital Requirements (Country-by-Country Reporting) Regulations 2013 by publishing the information in relation to the year ended 31 December 2019 on the Schroders Group website by 31 December 2020. This is available at <https://www.schroders.com/en/about-us/corporate-responsibility/our-economic-contribution/>. The Company will publish the information in relation to the year ended 31 December 2020 on the Schroders Group website on or before 31 December 2021. This will be available at <https://www.schroders.com/en/about-us/corporate-responsibility/our-economic-contribution/>

#### Market risk

The Company, in association with Group Risk, has a risk framework in place to identify, analyse, monitor and control market risk arising from the Company's treasury activities on a consistent and timely basis.

Market risk-taking activities are limited to those necessary to support the treasury activities of the Company. These activities are primarily to facilitate client requirements.

The principal market risks arising are interest rate risk and foreign exchange rate risk. The Company uses sensitivity-based and stress-based models for monitoring interest rate risk. This involves assessing the impact on the Company's net worth against a prescribed basis point rise in interest rates with severe scenarios for the stress tests.

For foreign exchange risk the Company has adopted an approach which monitors the greater of the overall net long or short risk factored exposure.

Interest rate and foreign exchange risk exposure is calculated daily for each currency and in aggregate and distributed to senior management through the production of a daily risk dashboard.

Group Risk performs independent oversight of the Company's market risk management. Limits are proposed by the risk function, approved by the Asset Liability Management and Credit Committee and monitored against policies.

# Notes to the accounts (continued)

---

## for the year ended 31 December 2020

### Liquidity risk

The Liquidity Risk Management framework includes several departments, boards and committees of the Company and the Wealth Management Division. Responsibility for managing the Company's liquidity day-to-day, within the liquidity risk tolerance and regulatory requirements, rests with the Chief Executive of the Company. This responsibility is delegated to the Head of Treasury, with immediate oversight from the Head of Banking and Treasury.

Group Risk performs independent oversight of the Company's liquidity risk management. Limits are proposed by the risk function, approved by the Asset Liability Management and Credit Committee and monitored against policies on a daily basis including the production of a daily liquidity dashboard.

For maturity analysis see the tables in note 13 (b) Interest rate repricing and maturity analysis.

### Credit risk

The Company has exposure to credit risk from its normal activities where the risk is that a counterparty will be unable to pay, in full, amounts when due. The Company carefully manages its exposure to credit risk by: approving lending policies that specify the type of collateral and minimum lending margins; setting limits for exposure to individual counterparties and sectors; and by taking security. The Company takes a conservative approach to its treasury investments placing them with, or purchasing debt securities issued by, UK and overseas banks and corporates, supranational banks and sovereigns. All treasury investments held by the Company have investment grade credit rating.

Principal credit risks arising from the banking and treasury business are monitored under the supervision of the Schroder & Co. Risk Committee. The Company's Board approves the underlying methodology and credit limits are set by the Schroder & Co. Risk Committees. Credit exposures and limits are monitored to identify, investigate and report any breaches to Schroder & Co. Risk Committees. All new credit exposures require approval of the Schroder & Co. Risk Committees which also reviews all outstanding limits at least annually.

The Company's maximum exposure to credit risk is represented by the carrying value of its loan and advances to banks, loans and advances to customers, trade and other receivables, and financial assets.

A breakdown of the Company's relevant financial assets by credit rating, as provided by rating agencies, are shown below. The relevant financial assets include the Company's loans and advances to banks and amounts disclosed in financial assets except for derivatives. All financial assets excluding customer loans are classified as performing (stage 1) in the three stage model under IFRS 9. This model is described in note 13 (a).

Not rated <sup>1)</sup>	216,129	4,617	10	-
	<b>2,103,294</b>	<b>1,918,157</b>	<b>100</b>	<b>100</b>

<sup>1)</sup>Placed with Group undertakings.

The Company also holds collateral on some short term advances to counterparties, as part of its liquidity management. The collateral accepted includes investment-grade securities that can be sold or repledged without default to the provider. At 31 December 2020 the fair value of collateral which related solely to these arrangements and could be sold or repledged, but had not been, was £223,932,000 (2019: £339,482,000).

The loans and advances to customers split by collateral type are as follows:

Collateral type	2020	2019
	£'000	£'000
Portfolio	115,966	81,912
Residential property	88,819	86,004
	<b>204,785</b>	<b>167,916</b>

All customer credit requests are presented to the relevant Schroder & Co. Risk Committees and counterparty exposures are monitored daily against limits. Loans, overdrafts and advances to customers are secured on a range of assets including residential real estate, cash and client portfolios. The Company does not usually provide loans, overdrafts and advances to customers on an unsecured basis. Where disposal of non-cash collateral is required, in the event of default, the terms and conditions relevant to the specific contract and country will apply. Portfolios held as collateral are marked to market daily and positions compared to customers' exposures. Credit limits are set following an assessment of the market value and lending value of each type of collateral, depending on the perceived risk associated with the collateral. Customers are contacted if these limits are breached, or if collateral is not sufficient to cover the outstanding exposure.

The amount of change in the year in the fair value of loans and receivables held at fair value through profit or loss that is attributable to changes in credit risk is £nil (2019: £nil) and £nil (2019: £nil) cumulatively.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 13. Risk review (continued)

#### (a) Risk management (continued)

Under IFRS 9, expected credit losses are calculated on all the Company's financial assets that are measured at amortised cost and all debt instruments that are measured at fair value through other comprehensive income. Factors considered in determining whether a default has taken place include how many days past the due date a payment is, deterioration in the credit quality of a counterparty, and knowledge of specific events that could influence a counterparty's ability to pay. For loans and advances to banks and debt securities, a default usually arises when contractual payments are 1 day overdue. For loans and advances to customers, a default usually arises when information is known about the customer that is highly likely to result in cash shortfalls. A default also occurs when any contractual payments (principal or interest) are 90 days or more overdue.

A three stage model is used for calculating expected credit losses which requires financial assets to be assessed as:

- Performing (stage 1) – Financial assets where there has been no significant increase in credit risk since original recognition; or
- Under-performing (stage 2) – Financial assets where there has been a significant increase in credit risk since initial recognition, but no default; or
- Non-performing (stage 3) – Financial assets that have defaulted.

For financial assets in stage 1, expected credit losses are calculated based on the credit losses that are expected to be incurred over the following twelve-month period. For financial assets in stage 2 and 3, expected credit losses are calculated based on the expected credit losses over the life of the instrument. The Company applies the simplified approach to calculate expected credit losses for trade and other receivables and accrued income. Under this approach, instruments are not categorised into three stages as expected credit losses are calculated based on the life of the instrument.

The Company has internal processes designed to assess the credit risk profile of its financial instruments, and to determine the relevant stage for calculating the expected credit losses. These processes include consideration of internal, external, historic and forward-looking information about specific loans and securities as well as market data.

For financial assets held with rated counterparties (such as cash and cash equivalents, loans and advances to banks and debt securities), the Company calculates expected credit losses based on default information published by rating agencies and considers any known factors not yet reflected in this information.

For loans and advances to customers, the Company calculates expected credit losses based on historical credit loss experience and by taking into account the relevant approval authorities' current lending rates against the various types of collateral. A record is kept of all information that has or could have an impact on a customer's servicing and repayment as well as of all loan exposures where collateral has decreased in value and/or quality. This record is used to identify stage 2 or 3 loans.

For trade and other receivables and accrued income, the Company has established a provision matrix that incorporates the Company's historical credit loss experience, counterparty groupings and whether a receivable is overdue or not.

### 13. Risk review (continued)

#### (d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates. As referenced in note 13 (a), it is the Company's policy to hedge, as appropriate, interest rate risk on its client facilitation positions.

Interest rate risk is monitored through sensitivity analysis performed by the Company (PV01 and PV200). The PV01 and PV200 metrics assess the impact on the Company's current net worth against a one basis point and a 200 basis point respectively, parallel change (both up and down) in interest rates and is calculated daily for each currency and then in aggregate.

The Company's position at 31 December is shown below:

	<b>2020</b>	2019
	<b>£'000</b>	£'000
PV01	<b>(5)</b>	(12)
PV200	<b>(1,101)</b>	(2,422)

The Company's market risk policy for sensitivity analysis stipulates a limit of +/-£20,000 (PV01) and +/-£4,000,000 (PV200). These limits have not been breached in 2020 and 2019.

Interest rate risk at the Company is limited due to the short-term nature of the Company's financial assets. In the case of changes in market interest rates, the Company can re-price the majority of assets within an average of 3 months (2019: 3 months).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 13. Risk review (continued)

#### (e) Fair values of assets and liabilities

The Company's required disclosures in respect of financial instruments that are held at fair value in the statement of financial position are included in note 9 (financial assets), note 10 (loans and advances to customers) and note 16 (customer accounts). Where significant estimates and judgements are required in determining fair values, these are disclosed in note 3. All fair values are derived from published market prices or indices, where applicable.

The Company uses the following derivative instruments:

- FX spot and forward transactions;
- Foreign currency, equity and interest rate options;
- Currency and interest rate swaps.

With swap contracts, the Company's credit risk represents the potential cost to replace the swap contracts if counterparties fail to perform their obligation. This risk is monitored on an ongoing basis with reference to the current fair value, a proportion of the notional amount of the contracts and the liquidity of the market. To control the level of credit risk taken, the Company assesses counterparties using the same techniques as for its lending activities. The Company is exposed to credit risk on purchased options only to the extent of their carrying amount, which is their fair value.

Derivative contracts are included at fair value at the year end date within 'Financial assets' or 'Financial liabilities'. Fair value represents the amount at which a derivative could be exchanged in a transaction at the year end date between willing parties.

The following table shows the fair value of all assets and liabilities accounted for at fair value.

31 December 2020							
£'000							
	Assets			Liabilities			
	One year or less	Greater than one year	Total	One year or less	Greater than one year	Total	
<b>Foreign exchange derivatives</b>

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 13. Risk review (continued)

#### (e) Fair values of assets and liabilities (continued)

31 December 2019 £'000	Assets			Liabilities		
	One year or less	Greater than one year	Total	One year or less	Greater than one year	Total
Foreign exchange derivatives						
Forward foreign exchange contracts	10,846	-	10,846	12,094	-	12,094
Interest rate derivatives						
Interest rate swaps held for non-trading purposes	-	41	41	-	41	41
Derivative contracts	10,846	41	10,887	12,094	41	12,135
Financial assets at fair value through other comprehensive income	419,307	-	419,307	-	-	-
Loans and advances to customers	603	-	603	-	-	-
	430,756	41	430,797	12,094	41	12,135

The Company's financial instruments have been categorised within one of three levels using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. These levels are based on the degree to which the fair value is observable and are defined as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices using simple models and extrapolation methods); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between levels in the year. Any transfers are assumed to have occurred at the beginning of the year.

# Notes to the accounts (continued)

for the year ended 31 December 2020

## 14. Goodwill and intangible assets (continued)

Intangible assets (other than software) arise when the Company acquires a business and the fair value paid exceeds the fair value of the net tangible assets acquired. This premium reflects additional value that the Company determines to be attached to the business. Intangible assets include the contractual agreements to manage client funds. Where such assets can be identified, they are recorded as intangible assets arising from business combinations and charged to the income statement over time. The contractual agreements to manage client funds in relation to the acquired Wealth Management business of C. Hoare & Co. and Lloyds Banking Group's ('LBG') UK discretionary, advisory, financial planning, execution, and associated investment services business are amortised over their useful life of seven years on a straight-line basis.

The recoverable amount of acquired intangible assets is the greater of fair value less costs to sell and the updated discounted valuation of the remaining net residual income stream. Any impairment is recognised immediately in the income statement but may be reversed if relevant conditions improve.

Consideration paid to acquire the business in excess of the acquisition date fair value of net tangible and intangible assets is known as goodwill. Goodwill acquired in a business combination is allocated to the CGUs that are expected to benefit from that business combination. Goodwill is not charged to the income statement unless its value has diminished.

After acquisition, the business acquired is integrated fully into the existing Company. Assessment of whether goodwill has become impaired is therefore based on the expected future returns of the Company as a whole. In relation to the acquired Wealth Management business of C. Hoare & Co. and LBG's UK discretionary, advisory, financial planning, execution, and associated investment services business the Company has therefore determined that there is one CGU, that of the Company. The recoverable amount of the CGU is determined from value-in-use calculations applying a discounted cash flow model. The key assumptions on which the Company's 5 year cash flow projections are based include long-term market growth rates of 2 per cent. per annum, a discount rate of 8 per cent., expected fund flows and expected changes to margins. A post tax discount rate that is equal to the Schroders cost of capital has been used to calculate a present value of the future earnings and a terminal growth rate of 2% has been applied which may be considered prudent relative to historical growth and future expectations. Any impairment is recognised immediately in the income statement and cannot be reversed. The results of the calculation indicate that goodwill for the CGU is not impaired.

The sensitivity of the carrying amounts of goodwill to the methods and assumptions used in estimating the recoverable amounts of the CGU is small. This is due to the amount of goodwill allocated to the CGU relative to the size of the Company's future profitability estimate. Movements in the growth rate and/or the discount rate of 1 per cent. would not lead to any impairment.

Software purchased and internally developed for use in the business is also referred to as an intangible asset. The costs of purchasing, developing and implementing software, together with associated relevant expenditure, are capitalised where it is probable that future economic benefits that are attributable to the assets will flow to the Company and the cost of the assets can be measured reliably. Software is recorded initially at cost and then amortised over its useful life of three or five years on a straight-line basis.

At each reporting date, an assessment is made as to whether there is any indication that an asset in use may be impaired. If any such indication exists and the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount. The recoverable amount is the greater of fair value less costs to sell and value in use. Where intangible software assets are not yet available for use, an assessment of whether the carrying values exceed the estimated recoverable amount is made irrespective of whether there is any indication of impairment.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 15. Deposits by banks

	2020 £'000	2019 £'000
Nostro accounts	10,793	24,217
Interbank deposits	50,000	68,616
Margin accounts	5,440	5,042
	<b>66,233</b>	<b>97,875</b>

Deposits by banks are initially recognised at the fair value of the consideration received net of any directly attributable transaction costs incurred. After initial recognition, the liabilities are accounted for at amortised cost using the effective interest method taking into account any attributable transaction costs.

Nostro accounts include £10,785,000 (2019: £24,217,000), interbank deposits include £nil (2019: £68,616,000) and margin accounts include £nil (2019: £5,042,000) placed by other banks in the Group.

### 16. Customer accounts

	2020			2019		
	Measured at amortised cost £'000	Designated as at fair value through profit or loss £'000	Total £'000	Measured at amortised cost £'000	Designated as at fair value through profit or loss £'000	Total £'000
Current accounts	2,022,984	-	2,022,984	1,638,718	-	1,638,718
Term deposits	47,425	-	47,425	222,384	-	222,384
	<b>2,070,409</b>	<b>-</b>	<b>2,070,409</b>	<b>1,861,102</b>	<b>-</b>	<b>1,861,102</b>

A maturity analysis of customers' accounts is disclosed in note 13.

Customer accounts are initially recognised at fair value. After initial recognition, where the liabilities are not economically hedged, they are accounted for at amortised cost using the effective interest method; where the liabilities are economically hedged, they are recorded at fair value through profit or loss to avoid an accounting mismatch.

Customer accounts include £13,402,000 (2019: £2,342,000) placed by related parties.

The Directors consider that the carrying amount of customer accounts held at amortised cost is approximately equal to their fair value.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 17. Trade and other payables

	<b>2020</b>	2019
	<b>£'000</b>	£'000
VAT payable	5,762	5,042
Settlement accounts	1,380	1,339
	<b>7,142</b>	<b>6,381</b>

Trade payables, other than long-term employee benefits (see note 25), are recorded initially at fair value, subsequently at amortised cost and are current liabilities. The Directors consider that as a result of their short-term nature, the fair value of trade and other payables held at amortised cost approximates their carrying value.

The Company's policy and practice is to agree the terms of payment with suppliers at the time of contract and to make payment in accordance with those terms subject to satisfactory performance. The Company does not follow any code or standard on payment practice, but has adopted the UK Prompt Payment Code in 2013. Most suppliers' terms of settlement are in the range of 30 to 60 days. At 31 December 2020 the amount owed to the Group's trade creditors in the UK represented approximately 23 days average purchases from suppliers (2019: 21 days).

### 18. Dividends paid

A dividend of £30,874,179 was paid during the year (2019: £62,600,000).

### 19. Total equity

#### (a) Share capital

Share capital represents 169,500,000 (2019: 132,500,000) issued and fully paid ordinary shares at par value of £1 each.

37,000,000 ordinary shares of £1 each were issued on 18 December 2020 to Schroder Wealth Holdings Limited to support the acquisition of Sandaire.

#### (b) Fair value reserve

The fair value reserve represents the difference between the cost (or, if the asset has been reclassified or impaired, the fair value at the date of reclassification or impairment) and the fair value of financial assets that are classified as fair value through other comprehensive income.

#### (c) Net exchange difference reserve

The net exchange difference reserve has been generated by the translation of euro denominated balances relating to the German branch office. As part of the disposal of the German branch office, this reserve has been recycled through the Statement of Comprehensive Income.

#### (d) Retained earnings

Retained earnings represent profits brought forward, the profits for the year together with certain other amounts recognised directly in other comprehensive income and transactions with shareholders.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 20. Guarantees

The Company may issue guarantees to third parties at the request of its clients. At the year end there were no guarantees (2019: £nil).

### 21. Commitments

Formal standby facilities, credit lines and other commitments to lend:

	<b>2020</b>	2019
	<b>£'000</b>	£'000
1 year or less	3,600	-
More than 1 year	37,574	7,806
	<b>41,174</b>	<b>7,806</b>

### 22. Assets pledged as collateral security

As at 31 December 2020 there were no assets pledged as collateral security (2019: £nil).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 23. Notes to the cash flow statement

	<b>2020</b>	2019

	<b>23,291</b>	<b>40,385</b>	<b>7,362</b>	<b>4,617</b>	<b>11,369</b>	<b>38,079</b>

In relation to key management personnel, included in the accounts of other subsidiaries of the Group are loans and advances from related parties of £2,156,000 and fee expenses of £32,000.

### Loans to and guarantees on behalf of Directors and Directors' transactions

Under the Companies Act 2006, the Company is permitted as a banking company to make loans and to issue guarantees on behalf of Directors of the Company. No loans to Directors were outstanding at 31 December 2020 (2019: £nil).

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 24. Related party transactions (continued)

#### Key management personnel remuneration

The Company has determined that the Board of Directors of the Company and members of its management committee are the key management personnel of the Company.

The remuneration of key management personnel during the year was as follows:

	2020 £'000	2019 £'000
Short-term employee benefits	7,391	7,759
Share-based payments	1,435	2,150
Other long-term benefits	1,780	2,114
Termination benefits	-	94
Post-employment benefits	77	92
	<b>10,683</b>	<b>12,209</b>

### 25. Retirement benefit obligations

The Company makes contributions on behalf of its employees to the Schroders Retirement Benefits Scheme (the Scheme) which is administered by a Trustee company, Schroder Pension Trustee Limited. It is a funded scheme comprising a defined benefit (DB) and a defined contribution (DC) section; all current employees are members of the DC section.

Pension contributions are charged as 'Administrative expenses' to the income statement in the accounting period in which they arise.

The income statement charge for retirement benefit costs is as follows:

	2020 £'000	2019 £'000
Pension costs – defined contribution plans	55.0	51.7
Pension costs – defined benefit plans	(1.1)	(7.7)
Other post-employment	0.2	0.2
	<b>54.1</b>	<b>44.2</b>

The following disclosures relate mainly to the DB section of the Scheme as a whole and are not specific to this Company's contribution to the Scheme.

#### (a) Profile of the Scheme

The Scheme is administered by a Trustee company, Schroder Pension Trustee Limited (the Trustee). The board of the Trustee company comprises an independent chairman, three directors appointed by the employer and two directors elected by the Scheme members. The Trustee is required by law to act in the interest of all relevant beneficiaries and is responsible for setting the investment strategy and for the day-to-day administration of the benefits. The Trustee's investment committee comprises four of the Trustee directors and two representatives of the Group. This committee, which reports to the Trustee board, is responsible for making investment strategy recommendations to the board of the Trustee and for monitoring the performance of the investment manager.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (a) Profile of the Scheme (continued)

Under the scheme, employees are entitled to annual pensions on retirement based on a specified percentage of their final pensionable salary or, in the case of active members at 30 April 2011 (the date the DB section of the Scheme closed for future accrual), actual pensionable salaries at that date, for each year of service. These benefits are adjusted for the effects of inflation, subject to a cap of 2.5% for pensions accrued after 12 August 2007 and 5.0% for pensions accrued before that date.

As at 31 December 2020, there were no active members in the DB section (2019: nil) and 2,159 active members in the DC section (2019: 2,127). The weighted average duration of the Scheme's DB obligation is 19 years (2019: 18 years).

Membership details of the DB section of the Scheme as at 31 December are as follows:

	2020	2019
Number of deferred members	1,200	1,251
Total deferred pensions (at date of leaving Scheme)	£8.2m per annum	£9.4m per annum
Average age (deferred)	52	53
Number of pensioners	940	885
Average age (pensioners)	70	70
Total pensions in payment	£20.8m per annum	£20.4m per annum

#### (b) Funding requirements

The last completed triennial valuation of the Scheme was carried out as at 31 December 2017. The funding level at that date was 115% on the technical provisions basis and no contribution to the Scheme was required. The next triennial valuation is due as at 31 December 2020 and will be performed in 2021.

#### (c) Risks of the Scheme

The Company and the Trustee have agreed a long-term strategy for reducing investment risk as and when appropriate. This includes an asset-liability matching policy that aims to reduce the volatility of the funding level of the Scheme by investing in assets that perform in line with the liabilities of the Scheme.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (c) Risks of the Scheme (continued)

The most significant risks that the Scheme exposes the Group to are:

##### **Asset volatility**

The liabilities are calculated using a discount rate set with reference to corporate bond yields. If assets underperform this yield, this will reduce the surplus or may create a deficit. The Group manages this risk by holding 71% (2019: 64%) of Scheme assets in a liability-driven investment (LDI) portfolio. This asset mix is designed to provide returns that match or exceed the unwinding of the discount rate in the long term, but that can create volatility and risk in the short term. The allocation to growth assets is monitored to ensure it remains appropriate given the Scheme's long-term objectives.

##### **Credit risk**

The assets of the Scheme include LDI and other fixed income instruments that expose the Group to credit risk. A significant amount of this exposure is to the UK Government as a result of holding gilts and bonds guaranteed by the UK Government. Other instruments held include derivatives, which are collateralised daily to cover unrealised gains or losses. The minimum rating for any derivatives counterparty is BBB.

##### **Interest rate risk**

A decrease in corporate bond yields will increase the value placed on the Scheme's liabilities for accounting purposes, although this should be partially offset by an increase in the value of the Scheme's LDI portfolio, which comprises gilts and other LDI instruments. The LDI portfolio has been designed to mitigate interest rate exposures measured on a funding rather than an accounting basis. One of the principal differences between these bases is that the liability under the funding basis is calculated using a discount rate set with reference to gilt yields; the latter uses corporate bond yields. As a result, the LDI portfolio hedges against interest rate risk by purchasing instruments that seek to replicate movements in gilt yields rather than corporate bond yields. Movements in the different types of instrument are not exactly correlated, and it is therefore likely that a tracking error can arise when assessing whether the LDI portfolio has provided an effective hedge against interest rate risk on an accounting basis. At 31 December 2020, the LDI portfolio was designed to mitigate 83% (2019: 83%) of the Scheme's exposure to changes in gilt yields.

##### **Inflation risk**

A significant proportion of the Scheme's benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities. However, in most cases, caps on the level of inflationary increases are in place. The majority of the growth assets are either unaffected by or not closely correlated with inflation, which means that an increase in inflation will also decrease any Scheme surplus. The LDI portfolio includes instruments such as index-linked gilts to provide protection against inflation risk. At 31 December 2020, the LDI portfolio was designed to mitigate 83% (2019: 83%) of the Scheme's exposure to inflation risk.

##### **Life expectancy**

The majority of the Scheme's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the liability.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (d) Reporting at 31 December 2020

The principal financial assumptions used for the Scheme were as listed below.

	2020	2019
	%	%
Discount rate	1.4	2.1
RPI inflation rate	2.8	3.1
CPI inflation rate	2.2	2.2
Future pension increases (for benefits earned before 13 August 2007)	2.7	3.0
Future pension increases (for benefits earned after 13 August 2007)	2.0	2.2
Average number of years a current pensioner is expected to live beyond age 60:		
Men	28	28
Women	29	29
Average number of years future pensioners currently aged 45 are expected to live beyond age 60:		
Men	29	29
Women	30	30

The net interest income is determined by applying the discount rate to the opening net surplus in the Scheme. The Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates of high-quality, long-dated corporate bonds that are denominated in the currency in which the benefits will be paid.

#### Estimates and judgements

The most significant judgemental assumption relates to mortality rates which are inherently uncertain. The Group's mortality assumptions are based on standard mortality tables with Continuous Mortality Investigation core projection factors and a long-term rate of mortality improvement of 1.0% (2019: 1.0%) per annum. Mortality tables for male pensioners are scaled back by 2.5% and female pensioners are scaled back by 7.5% to reflect the history of longer life expectancy of the Group's employees. The Group reviews its assumptions annually in conjunction with its independent actuaries and considers this adjustment appropriate given the geographic and demographic profile of Scheme members. Other assumptions for pension obligations are based in part on current market conditions.

The financial impact of the Scheme on the Group has been determined by independent qualified actuaries, Aon Hewitt Limited, and is based on an assessment of the Scheme as at 31 December 2020.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (d) Reporting at 31 December 2020 (continued)

The sensitivity of the Scheme pension liabilities to changes in assumptions are as follows:

Assumption	Assumption change	2020	
		Estimated (increase)/reduction in pension liabilities £m	Estimated (increase)/reduction in pension liabilities %
Discount rate	Increase by 0.5% per annum	78.1	8.6
Discount rate	Decrease by 0.5% per annum	(87.7)	(9.6)
Expected rate of pension increases	Increase by 0.5% per annum	(80.7)	(8.9)
Expected rate of pension increases	Decrease by 0.5% per annum	62.3	6.9
Life expectancy	Increase by one year	(45.4)	(5.0)
Life expectancy	Reduce by one year	44.6	4.9

Assumption	Assumption change	2019	
		Estimated (increase)/reduction in pension liabilities £m	Estimated (increase)/reduction in pension liabilities %
Discount rate	Increase by 0.5% per annum	71.7	8.3
Discount rate	Decrease by 0.5% per annum	(84.0)	(9.7)
Expected rate of pension increases	Increase by 0.5% per annum	(65.3)	(7.5)
Expected rate of pension increases	Decrease by 0.5% per annum	67.3	7.8
Life expectancy	Increase by one year	(37.9)	(4.4)
Life expectancy	Reduce by one year	37.5	4.3

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (d) Reporting at 31 December 2020 (continued)

Movements in respect of the assets and liabilities of the Scheme are:

	<b>2020</b>	2019
	<b>£m</b>	£m
At 1 January	1,001.5	951.2
Interest on assets	20.7	27.1
Remeasurement of assets	91.5	54.6
Benefits paid	(36.5)	(31.4)
<b>Fair value of plan assets</b>	<b>1,077.2</b>	1,001.5
At 1 January	(865.2)	(795.6)
Interest cost	(17.8)	(22.6)
Actuarial gains due to change in demographic assumptions	(0.6)	6.4
Actuarial losses due to change in financial assumptions	(74.8)	(90.4)
Actuarial gains/(losses) due to experience	12.9	5.6
Benefits paid	36.5	31.4
<b>Present value of funded obligations</b>	<b>(909.0)</b>	(865.2)
<b>Net asset</b>	<b>168.2</b>	136.3

The Group has not materially changed the basis of any of the principal financial assumptions underlying the calculation of the Scheme's net financial position during 2020, although such assumptions have been amended where applicable to reflect current market conditions and expectations.

Administration expenses and the levy payable to the Pension Protection Fund are met directly by the Group.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 25. Retirement benefit obligations (continued)

#### (d) Reporting at 31 December 2020 (continued)

The fair value of the Scheme assets at the year end date is analysed as follows:

	2020		2019	
	Value £m	Of which not quoted in an active market £m	Value £m	Of which not quoted in an active market £m
Liability-driven investments	762.4	-	643.3	-
Portfolio funds	286.9	38.8	345.6	6.1
Exchange-traded futures and over the counter derivatives	3.3	5.6	(7.9)	(8.1)
Cash	24.6	-	20.5	-
<b>Total</b>	<b>1,077.2</b>	<b>44.4</b>	<b>1,001.5</b>	<b>(2.0)</b>

### 26. Directors' emoluments

The amounts set out below are in respect of 10 (2019: 8) Directors whose emoluments were charged either in part or in full to the Company during the year. These Directors received no remuneration in respect of their services as Directors, but received the following remuneration in connection with the management of the affairs of the Company. The emoluments of 1 (2019: 1) Director employed by and paid for by the ultimate parent company are included in the financial statements of that entity. Their emoluments are deemed to be wholly attributable to their services to the ultimate parent company. These Directors therefore receive no incremental emoluments for their services to the Company.

	2020 £'000	2019 £'000
Aggregate emoluments	2,750	3,018
Company pension contribution to the defined contribution pension scheme	5	15
	<b>2,755</b>	<b>3,033</b>

In addition to the emoluments detailed, deferred amounts conditionally receivable by current Directors were £705,000 (2019: £595,000).

Retirement benefits have accrued to no (2019: no) Directors under a defined benefit scheme and to 2 (2019: 2) Directors under a defined contribution pension scheme

During the year, 5 (2019: 6) Directors became entitled to shares under the Group's Equity Compensation Plan, 2 (2019: 3) Directors became entitled to shares under the Group's Deferred Award Plan and 1 Director (2019: 1) became entitled to shares under the Group's Equity Incentive Plan.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

### 26. Directors' emoluments (continued)

In respect of the highest paid Director, the aggregate emoluments and the amounts (excluding shares) received under the deferred incentive plans were £1,138,000 (2019: £1,076,000). In 2020 the Director did become entitled to shares under the Group's Equity Compensation Plan (2019: did) and did not become entitled to shares under the Group's Deferred Award Plan (2019: did not). The accrued annual pension under the Schroders Retirement Benefits Scheme, a defined benefits scheme, at the end of the year was £nil (2019: £nil). The contribution to a defined contribution scheme was £nil (2019: £nil).

### 27. Share-based payments

The Company makes share-based payments to key employees through awards over ordinary shares of Schroders plc.

Awards over ordinary shares made under the Group's Equity Compensation Plans are charged at fair value as 'Operating expenses' in the income statement. There are no performance conditions attached to the awards. For the 2000 Equity Compensation Plan the fair value of an award is calculated using the market value of the shares at the date of grant, discounted for the dividends forgone over the average holding period of the award. For the 2011 Equity Compensation Plan the fair value of an award is calculated using the market value of the shares on the date of grant. The fair value charges, adjusted to reflect actual levels of vesting, are spread over the performance period and the vesting period of the awards. Awards are structured as nil-cost options.

Awards over ordinary shares made under the Group's Deferred Award Plan are charged at fair value as 'Operating expenses' in the income statement. The fair value of an award is calculated using the market value of the shares on the date of grant. The fair value charges, adjusted to reflect actual levels of vesting, are spread over the performance period and the vesting periods of the awards. Awards are structured as nil-cost options.

Awards over ordinary shares made under the Group's Equity Incentive Plan are charged at fair value to the income statement over a five year vesting period. Fair value is determined at the date of grant and is equal to the market value at that time. Awards are structured as nil-cost options.

Awards that lapse or are forfeited result in a credit to the income statement (reversing the previous charge) in the year in which they lapse or are forfeited.

The Company has the following share-based payment arrangements:

- **2000 Equity Compensation Plan and 2011 Equity Compensation Plan:** Under these schemes, key employees receive deferred bonus awards over ordinary shares in Schroders plc, normally structured as rights to acquire shares at nil cost. These awards are subject to forfeiture and will vest on the third anniversary provided the participant continues to be employed within the Group.
- **Deferred Award Plan:** Under this scheme, certain employees receive deferred bonus awards over ordinary shares in Schroders plc, normally structured as rights to acquire shares at nil cost. These awards are subject to forfeiture and will vest provided the participant continues to be employed within the Group. The vesting periods vary but typically participants have a right to one third of an award after each year of a three year vesting period.
- **2008 Equity Incentive Plan:** Under this scheme, eligible employees receive awards of ordinary shares in Schroders plc, normally structured as rights to acquire shares at nil cost. These awards are subject to forfeiture and will vest on the fifth anniversary of the grant, provided the employee continues to be employed within the Group.
- **Share Incentive Plan:** Under this scheme approved by HM Revenue & Customs, eligible individuals can purchase ordinary shares in Schroders plc. each month up to £1,800 per taxation year from their gross salary. The Group matches employee share purchases up to £100 per month. These matching shares are effectively free shares awarded to the individual subject to their remaining in employment for one year.

# Notes to the accounts (continued)

## for the year ended 31 December 2020

All of the above share-based payment arrangements involve a maximum term of ten years for each option granted and are settled through the transfer of equity instruments of its ultimate parent, Schroders plc to its employees.

The Company recognised total expenses of £3,160,000 (2019: £3,889,000) arising from share-based payment transactions during the year.

### (a) 2000 Equity Compensation Plan and 2011 Equity Compensation Plan

# Notes to the accounts (continued)

---

## for the year ended 31 December 2020

### 27. Share-based payments (continued)

#### (d) Share Incentive Plan

The employee monthly share purchase plan is open to UK permanent employees and provides free shares from the Group to match the employee purchase of shares up to a maximum of £100 per month. Pursuant to these plans 12,846 ordinary shares were granted (2019: 12,215), at a weighted average share price of £29.22 (2019: £28.94). A charge of £350,500 (2019: £327,000) was recognised during the financial year.

### 28. Business combinations

The acquisition of businesses is accounted for using the acquisition method. The cost of acquisition is measured as the aggregate of the fair values, at the date of exchange, of assets given and liabilities incurred or assumed. Costs incurred as part of the acquisition are expensed in the income statement.

### 29. Ultimate and immediate parent company

The Company's immediate parent company is Schroder Wealth Holdings Limited (incorporated in England and Wales), whose ultimate parent company and ultimate controlling party is Schroders plc (incorporated in England and Wales).

The results of the Company are consolidated in the Annual Report and Accounts of Schroders plc, copies of which can be obtained from [www.schroders.com](http://www.schroders.com).

The Company has taken advantage of the exemption not to prepare consolidated accounts, provided by Section 400 of the Companies Act 2006, as the Company is included in the consolidated accounts of a larger group.

### 30. Events after the year end

There have been no material events after the year end date.
