

# Schroder Real Return Fund ASX: GROW

A smarter way to invest. An easier way to grow your wealth.

## A multi-asset active ETF available on the ASX

### Reasons to invest

- **Benefits of diversification:** By investing across a broad range of asset classes GROW can take advantage of opportunities wherever they arise.
- **Active asset allocation:** Our active, unconstrained asset allocation ensures GROW has the flexibility to adapt to changing markets.
- **Protection from the market:** Our approach protects clients from bearing the full brunt of falls in markets.
- **Focus on real returns:** GROW aims to deliver a return of 5% p.a. above Australian inflation (a “real” return), before fees, over a rolling 3 year periods, without taking undue risk, so the journey to achieving this objective is a relatively stable one.
- **Simplicity and expertise:** We pride ourselves on keeping investments simple, uncomplicated, unlevered and liquid. We manage GROW locally, drawing on the insights and experience of our dedicated local and global teams.
- **Available on the ASX:** GROW makes it easy to buy, sell and own an actively managed diversified fund.

## Where does GROW fit in my portfolio?

GROW offers a flexible, diversified investment solution

## Why diversify?

An investment in only growth assets (or shares) can provide good returns for investors with a long investment horizon, however in the short run they can deliver negative returns, or significant volatility. GROW offers a diversified portfolio which can flexibly allocate across a broad universe of assets, many of which are not easily accessible.

## A new way to think about investing!

Our approach is to continually assess investment opportunities so that at all times GROW is well placed to meet its objective whilst minimising variability around this target. The asset allocation is active and unconstrained providing sufficient flexibility to increase exposure to those assets which are good value, whilst reducing risk by selling or avoiding those assets we think are expensive.

## What are the risks?

It is important to understand the risks associated with investing in GROW, including the inability of the fund to meet its investment objective.

Investment risks will be influenced by factors such as domestic and international markets, economic conditions, political climates, interest rates and inflation.

For further details about the risks of investing in this strategy please refer to the Product Disclosure Statement.
