

Strategy summary

The Schroder Opportunistic Multi-Sector Securitized strategy uses a research-driven approach seeking to capitalize on opportunities available within the securitized markets with a focus on sectors where the team believes it has a competitive advantage. The strategy invests in a portfolio of higher yielding mortgage-backed securities (MBS) and asset-backed securities (ABS). The strategy seeks to capture excess returns typically available in less transparent markets, and to provide capital where regulation and complexity have created inefficiencies. Inefficiencies driven by ratings, financing gaps, liquidity, and regulation continue to develop as the diverse securitized universe changes. The changes can be simple, such as limitations to the buyer base, or more complex, such as opportunities driven by distress.

We believe our research-oriented approach is an ideal way to generate income, returns uncorrelated to rising interest rates, and provide diversification versus typical benchmark exposures.

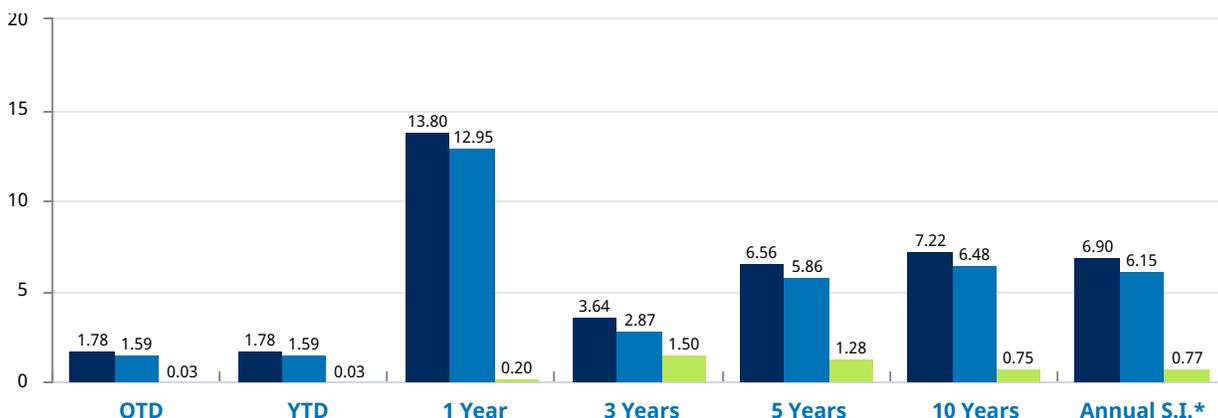

The strategy seeks to outperform LIBOR by 500 bps or the S&P Performing Loan Index (gross of fees) over a market cycle.*

*There can be no guarantee that any investment objectives or outcomes will be achieved.

Key features

- Research-driven, opportunity based investment process
- Investments are chosen based on relative value without reference to qualitative content of the benchmark
- Sector allocation and security selection are the main sources of generating return
- Collaborative, interactive approach among key decision makers to evaluate opportunities and relative value

Source: Schroders, as of March 31, 2021. The portfolio characteristics shown for the strategy are based on the composite and the percentage measurements are based on relative market values. These characteristics are subject to change, should not be viewed as an investment recommendation and may vary among individual accounts within the strategy. Data may not add to 100% due to rounding.

Sector breakdown: Sectors are mentioned for illustrative purposes and not as a recommendation to buy/sell.

Credit quality breakdown: The data is shown as a percentage of market value. Credit quality breakdown reflects the higher of the credit ratings assigned by S&P, Moody's, and/or Fitch. If only two of the three agencies rate the security, the lower rating is used to determine the rating classification. For example, a bond rated A1/AA- by Moody's and S&P, respectively, would be included in the single-A quality tier.

Portfolio and risk statistics: ¹Average Quality is Schroders' average rating of Moody's, S&P and Fitch. The "Average Credit Quality" shown is the average credit rating of the securities in the portfolio, as determined by Schroders, and is not a credit rating that has been assigned to the portfolio itself by any NRSRO or third-party entity.

Schroder Opportunistic Multi-Sector Securitized Composite

Composite disclosures as of: December 31, 2019

Definition of the Firm

The Firm is defined as all accounts managed by Schroder Investment Management in the US, UK, Switzerland, Singapore, Hong Kong, Japan and Australia by wholly owned subsidiaries of Schroders PLC. Accounts managed by Schroders Adveq are excluded, Schroders Adveq claims compliance separately. Assets managed against a liability driven mandate or invested in direct property are excluded from the GIPS Firm. Advisory portfolios signed to Schroders Investment Management Hong Kong (SIMHK) are also excluded from the GIPS Firm. On January 1, 2017 the Schroders Investment Management GIPS Firm ("the Firm") was formed following the merger of independent regional Schroders Investment Management (SIM) GIPS Firms defined based predominantly on location of the investment desk and held out to clients or prospective clients as the following distinct firms: combined London/New York/Zurich (SIMUK/US & SIMSAG respectively), Singapore (SIMSL), Hong Kong (SIMHK), Australia (SIMAL) and Japan (SIMJP). These Firms were merged as a result of the increasingly global nature of the business, details of previous firm mergers are available upon request. On September 19, 2016, Schroder U.S. Holdings Inc., a subsidiary of Schroders plc, purchased a securitized products team from another manager, assets managed by the securitized products team are included in the Firm from December 31, 2016.

Composite Definition

Accounts included in the Schroder Opportunistic Multi-Sector Securitized Composite (the "Composite") seek to achieve returns above USD LIBOR or an equivalent benchmark by providing capital growth and income primarily through investment in securitized assets such as asset-backed securities, mortgage-backed securities and related loans. The accounts may substantially invest in below investment grade securities. In May 2017 the name of the composite changed from SIMNA Opportunistic Multi-Sector MBS Composite to SIMNA Opportunistic Multi-Sector Securitized Composite. This change does not affect the composite history or the investment strategy.

Composite Construction

Accounts included in the Schroder Opportunistic Multi-Sector Securitized Composite (the "Composite") seek to achieve returns above USD LIBOR or an equivalent benchmark by providing capital growth and income primarily through investment in securitized assets such as asset-backed securities, mortgage-backed securities and related loans. The accounts may substantially invest in below investment grade securities. In May 2017 the name of the composite changed from SIMNA Opportunistic Multi-Sector MBS Composite to SIMNA Opportunistic Multi-Sector Securitized Composite. This change does not affect the composite history or the investment strategy.

Performance Calculation

Composite returns are presented as gross returns, including cash, reinvestment of dividends, interest and other income earned in the period and are calculated on a trade date basis after transaction charges (brokerage commissions). Each account's investment performance rate of return is calculated monthly in accordance with the 'time-weighted' rate of return method (Modified Dietz). Additional information regarding policies

for valuing portfolios, calculating and reporting returns is available upon request. The Currency of the Composite is USD. Withholding Tax treatment may vary from portfolio to portfolio within this composite. Performance results can be presented both net of fees and/or gross of fees. "Net of fees" performance results are net of management fee. Clients with accounts in the composite incur other expenses in connection with their accounts such as custody fees and other costs. Net returns have been calculated based upon the highest fee rate charged to each account in the composite.

Fee Schedule

Returns are net of trading expenses but gross of custody fees and other costs. Net of fees returns have been calculated based upon the following schedules: Inception to December 31, 2012: gross returns have been reduced by a model fee rate of 75 bps From January 1, 2013 to April 30, 2017: asset weighted actual net returns for the underlying accounts From April 30, 2017: gross returns have been reduced by a model fee rate of 75 bps.

Dispersion

Internal dispersion is calculated using asset weighted standard deviation of all portfolios where there are at least 5 portfolios that are included in the composite for the entire year.

Leverage

None of the accounts in the Composite use leverage.

GIPS Compliance and Verification

Schroder Investment Management ("the Firm") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. The Firm has been independently verified for the periods January 1, 1996 to December 31, 2019. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. A list of descriptions for composites and limited distribution pooled funds is available upon request, a list of broad distribution pooled funds is also available. Additional information regarding policies for calculating and reporting returns is available upon request.

Additional Information

The exchange rates used are provided by WM. Each currency is valued at 4 pm on the last business day of the month. Additional information regarding policies for valuing portfolios, calculating and reporting returns and a description of all composites are available upon request.

Risk Statistics

Standard Deviations for composite and its benchmark that have not been active or in existence for 3 years or more are not provided in the presentation.

Risk disclosures

All investments involve risks including the risk of possible loss of principal. Asset allocation and diversification cannot ensure a profit or protect against loss of principal. Duration is a measure of volatility expressed in years. The higher the number, the greater potential for volatility as interest rates change. The market value of a bond portfolio may decline as a result of a number of factors, including interest rate risk, credit risk, inflation/deflation risk, mortgage and asset-backed securities risk, U.S. Government securities risk, foreign investment risk, high yield securities risk and derivatives risk. Asset-backed, mortgage-backed or mortgage-related securities are subject to prepayment and extension risks, delinquency and foreclosure. The use of derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in the underlying assets. No investment strategy or risk management technique can guarantee returns or eliminate risk in any market environment. Bonds rated BBB/Baa or higher are considered investment grade, while bonds rated BB/Ba or lower are considered speculative as to the timely payment of principal and interest.
