Past Performance is not a guide to future performance and may not be repeated.

The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

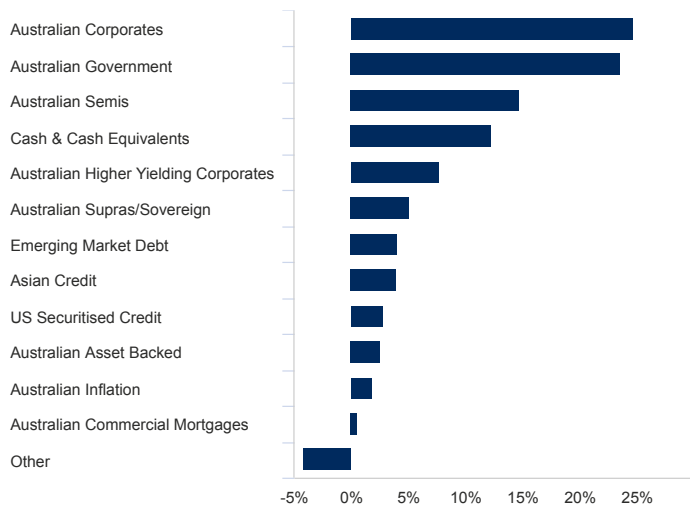

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

Credit ratings are scales by which the future relative creditworthiness of a security is measured and express an opinion about the vulnerability of default. Credit ratings may be issued by an independent credit rating agency, or represent internal ratings prepared by Schroders. A change in a published credit rating can impact the price and liquidity of the security(ies) being re-rated. Investors should not rely on credit ratings in making investment decisions or view them as assurances of credit quality or the likelihood of default. The ratings issued included in the monthly report are intended to be used by wholesale investors as a guide only and should not be relied on by retail investors when making a decision to buy, hold or sell any securities or make any other investment decisions.
